WILSON DEMANDS THAT SLAYERS OF AMERICAN BE PUNISHED
RUSSIAN BLACK SEA FLEET TRAINS ITS GUNS ON BOSPHORUS

KILLING OF CHICAGO MAN IN MEXICO CITY

While American Flag Floated Over His House Moves Government to Quick and Decisive Action.

Washington, March 12.—John B. McManus, a prominent American in Mexico City, originally from Chicago, was shot and killed in his home yesterday by Zapata troopers as they were occupuying the Mexican capital after the evacuation of Gen. Obregon and the Carranza forces.

Official dispatches today from the Brazilian minister in Mexico City reporting the affair to the state department, say the American flag was floating over McManus' house and that his doors had been closed and sealed by the Brazilian consul.

The Brazilian minister intimated the killing may have been one of revenge because it was charged when Zapata troops recently occupied the capital McManus had killed three of their number.

After a conference between President Wilson and the cabinet a formal demand was sent to Gen. Salazar insisting that the Zapatistas guilty of the murder of McManus be punished and that adequate reparation be made to the family of the victim.

Took Steps for Protection.

The fact that the American flag had been hoisted over the house and the doors had been sealed by the consul of a neutral power was taken by officials here to indicate that either McManus felt he was in danger or that all foreigners were fearful of their safety with the entry of the Zapata troops and took steps for protection. The killing of the American is described in the official dispatches as having caused the greatest excitement and emotion in the foreign colony.

The Brazilian minister reported that Gen. Salazar, the Zapata commander, had promised to find the guilty troopers and punish them. The official dispatches telling of the killing did not contain great detail, but indicated that there was a dispute over whether McManus or the Zapata soldiers began the shooting. It was added, however, that the American's hat was shot full of holes, with evidence that the firing was done at close range.

Causes Deep Concern.

In Washington the news of the killing was received in official quarters with deep concern. The Brazilian minister's dispatches arrived just as the cabinet was assembling and Secretary Bryan took them to be laid before the president. Mr. Bryan said that a searching investigation was under way.

A search of state department records seemed to establish that Gen. Salazar, commanding the Zapata troops, was not Gen. Ynez Salazar, a notorious bandit chief charged with the murder of several Americans, among them Thomas Fountain, an American captured as a prisoner of war while serving as a machine gun operator in the Madero army. Salazar was taken a prisoner after the defeat of Huerta's army by Villa, at Ojiniga, and was for months interned with the other Mexican troops in a prison in New Mexico. He escaped to Mexico last December. Supplementary dispatches from the Brazilian minister said good order prevailed in the capital from the time Obregon and his Carranza troops left until the Zapata forces entered.

Holds Them Responsible.

It was pointed out here that President Wilson's note to Gen. Carranza, calling upon him in strong terms to alter his attitude toward foreigners in Mexico City, specifically pointed out that the American government intended to hold Carranza and Obregon personally responsible for any injury to life and property of foreigners if they failed to provide adequate protection in the event of their evacuation of the capital.

"The government of the United States is informed that the City of Mexico may soon be evacuated by the constitutionalist forces," said President Wilson's note, leaving the population without protection against whatever faction may choose to occupy it, thus shirking the responsibility which may happen as a result of the instigation to lawlessness before and after the evacuation of the city.

"The government of the United States therefore desires General Obregon and Gen. Carranza to know that it has, after mature consideration, determined that if as a result of the situation for which they are responsible, Americans will suffer by reason of the conduct of the constitutionalist forces in Mexico City, or if they fail to provide means of protection to life and property, will hold Gen. Obregon and Gen. Carranza personally responsible. Therefore, having reached this determination with the greatest consideratioin, the government of the United States will take such measures as are expedient to bring to account those who are personally responsible for what may occur."

It was also reported to the state department that after Gen. Obregon left Mexico City there was some looting in Popotla, a suburb, but that there was no general looting or disorder.

Gen. Salazar also told the Brazilian minister, the state department advices said, that he would see to making arrangements for transportation of food supplies into the city.

Accounts of Killing Vary.

Accounts of the killing of McManus varied. Some persons said he fired the first shot at the Zapatistas as they were trying to force an entrance to his house. Others say the Zapatistas began the shooting.

The American's hat was full of bullet holes and that is said to indicate that the attack on him had been made from a short distance. After he had been killed the house was looted. The mat-

YOUNGEST "BOOTLEGGER," AGED 9, UNDER ARREST.

Bluefields, W. Va., March 12.—William Hubbard, 9 years old, claimed by the federal authorities to be the youngest "bootlegger" on record, was arrested during a raid by a United States marshal's posse in the mountains twenty miles from Norton. Young Hubbard, according to the revenue officers, was found together with an 18-year-old cousin operating a still which had a capacity of thirty gallons.

OIL MONARCH'S WIFE WHO IS DEAD.

VETERANS ENJOY DINNER IN HONOR OR CAPT. F. F. BOLTZ.

Seven well known veterans thoroughly enjoyed a dinner given by Amos R. Walter at his home on West Creighton avenue Thursday in honor of Capt. Ferdinand F. Boltz, of Knightstown, who is now visiting old friends in the city. In the front row of the picture, reading from left to right, are William Devlin, Michael Huss, Capt. Boltz, Lieut. Josiah King. At the rear are standing Joseph Kickly, A. R. Walter and James E. Graham. Messrs. Devlin, Huss, Boltz, King and Kickley were members of the Eighty-eighth regiment of Indiana volunteers, Mr. Walter served in the Fifth Ohio volunteer battery and Mr. Graham in the Forty-third Ohio volunteer infantry.

"THANK YOU," SAID ROBERTS

Mayor Was Much Pleased at Lloyd's Work on Registration Day.

COOPER WITNESS IN CONSPIRACY TRIAL

More Terre Haute Election Tactics Come Out in Federal Court.

Indianapolis, Ind., March 12.—Mayor Donn M. Roberts, of Terre Haute, one of the 28 defendants in the election fraud trial in the federal court, thanked Robert Lloyd, a policeman who had pleaded guilty for the work he did on registration last October.

"Bobbie" Lloyd testified that the mayor said, "I want to thank you for the work you did on registration day." Lloyd previously had told about driving a city automobile and hauling negroes from a number of saloons to the "Bagdad" precinct.

The night before the election Lloyd said Hilton Redman, a defendant, and Night Chief of Police John Nugent, who has pleaded guilty, "planned a frame up to get rid of some election workers."

"I was going in a machine with Redman on election morning," continued Lloyd, "when Chief of Police Holler told me to go on a motorcycle. Redman agreed to meet me at the precinct, but he did not show up." He said Redman gave him more than $400 and two revolvers to keep for Redman the night before the election. Lloyd said he returned them the next morning.

Special Detention Cells.

Lloyd also told about building two special detention cells at police head-

LIEUT. JAMES D. WILLSON.

Lieut. James D. Willson has been assigned to the office of commander at the Fulton, the government's repair ship recently launched and equipped at the naval yards in Boston, and is now on board the ship enroute to Newport News, where equipment will be completed this week. Then the Fulton will go to New York and be provisioned after which it will sail for Panama, [illegible]

CITY TO FIGHT TO THE LIMIT

Right to Make Lighting Rates Will Go to the Highest Court.

WILL AFFORD TEST OF UTILITIES LAW

Traction Company's Complaint to Commission Means Bitter War.

"Fight? Of course we'll fight. We'll fight to the limit—through the supreme court of the United States, if necessary, to determine the right of the people of Fort Wayne to have all the benefits of the public lighting and power plant into which they have put their money."

This was the declaration of Mayor William J. Hosey Friday, when asked if the city government would make a contest of the complaint filed by the Fort Wayne and Northern Indiana Traction company with the Indiana public utilities commission that the city light and power department is employing unfair methods in its competition with the traction company.

"I am not given any anxiety by this complaint," continued the mayor. "Many of the things charged are wholly untrue and without foundation, other things charged the traction company is as guilty as the city, if there is guilt of any sort, which I question. The scope of this utilities law and the powers of the commission that operates under it to control municipally owned and operated utilities has got to be tested and the sooner that is done the better. We will prepare an answer to the charges that have been filed and shall take all other essential steps that this law requires. Then we will go farther, taking such steps as we may be forced to take in the courts of the land."

Will Test the State's Law.

That the course determined upon by

WANT RATES FIXED ON TWO CENT BASIS

GERMAN DRIVE NOW NEARER PRZASNYSZ

Constantinople Reports Repulse of British Fleet's Landing Party in the Dardanelles.

Today's War News Given in Summary.

The German drive at Phzasnysz, in northern Poland has carried the advancing army within two and a half miles of the city, the Berlin war office announced today. Russian reports of recent victories are denied and various German successes are recounted. It is said that in two battles 7,200 Russians were captured.

The German statement admits the capture by the British of Neuve Chappelle, as announced in London yesterday, but says attempts to gain further ground were defeated.

Advices from Constantinople by way of Berlin are to the effect that the bombardment of the Dardanelles is being hindered by storms and fog and that the attacking fleet has accomplished nothing more. A British landing party given variously at 1,000 to 2,000 men was driven back, according to these reports, one of which asserts that all of the British were killed or captured.

Berlin, March 12.—The general staff of the German army today gave out a report on the progress of the war reading as follows:

"In the western arena:

"Two battleships of the enemy accompanied by two torpedo boats, fired on West Ende, on the Belgian coast to the north of Nieuport yesterday. Seventy shots were fired without doing any damage. When our batteries became active the warships of the enemy retreated.

"The British who have occupied Neuve Chappelle advanced several times last night to the eastward, but were repulsed. Also to the north of Neuve Chapelle minor British attacks yesterday were repulsed. The fighting in this district still continues.

"In the eastern arena: To the north of the forest of Augustowo we vanquished a force of Russians which avoided complete defeat by retreating hastily in the direction of Grodno. We took more than 4,000 prisoners, including two commanders of regiments, and we captured three cannon and ten machine guns. Furthermore from the Augustowo district the Russians began a retreat in the direction of Grodno.

Near Przasynzsz German troops, after giving way for a short time, are again four kilometers (2½ miles) north of that town. Since relinquishing Przasnysz the Germans have taken prisoners a total of 11,460 Russians on battlefields between the Vistula and the Orzyc rivers."

RUSSIANS READY TO STRIKE.

Black Sea Fleet Expected to Attack Turkish Coast Cities.

London, March 12.—It is learned through diplomatic sources in London that the Russian Black sea fleet is expected to start a bombardment of the Bosphorus ports today in active co-operation with the allied fleet which is attempting to force its way to Constantinople through the Dardanelles from the south.

The sweeping advance of British and Indian troops around Neuve Chappelle in the direction of the strong German position at La Bassee is regarded by some English newspapers today as the commencement of active operations on the left wing of the allied front in the western theater of the war and as likely

CHIEF OF POLICE TO MEET SKATERS

Wants Boys and Girls to Come to His Office on Saturday

Chief of Police Charles Lenz invites all boys and girls in Fort Wayne who have roller skates to meet him at 2 o'clock Saturday afternoon at police headquarters, at which time he will talk to them about skating on the sidewalks. Chief Lenz does not want the boys and girls to stay away in any fear of scolding or reprimand. He wants to talk to them about sidewalk skating and be instructed as to the things they must not do. Until there is an ordinance that requires the police department to keep skaters off of the sidewalks Chief Lenz will not molest those who observe his instructions. Skaters must not skate in groups, must be careful not to interfere with pedestrians and must not skate in front of homes where they have been warned there are sick persons. All these things the chief will explain to the boys and girls who call on him Saturday afternoon.

Chief Lenz says that for the past day or two he has been bombarded over the telephone in a distracting manner by men and women—chiefly women—who made protest against his policy of non-interference with skaters. They drove him from his office Thursday afternoon and pursued him to his home, where the protests were dinned into his ears until bedtime. He remains firm that he will not alter his policy until there is an ordinance requiring him to interfere.

Boys and girls who skate will find Chief Lenz's office on the first floor in the south end of the city hall, Berry and Barr streets.

TRAILING A TRUNK FULL OF EXPLOSIVE

New York Chemist's Gun Cotton Speeding Somewhere in the West.

Chicago, March 12.—A trunk full of gun cotton sufficient to wreck a train, should it explode, was the article which federal agents exerted their efforts to find today. The trunk, with its contents, was declared to be the property of Dr. Herman Bodenheim, of New York, who was arrested yesterday at St. Louis by federal officers on a charge of having unlawfully transported explosives.

Bodenheim is said to be a chemist in New York and the trunk is believed to have been shipped by passenger train from New York to San Francisco. It is said to have been traced to St. Louis and to Kansas City and is now probably speeding across the western country. Dr. Bodenheim, who was declared to have carried a small valise filled gun cotton, probably will be arraigned here tomorrow.

GERMANS BRING NEW TROOPS INTO POLAND

London, March 12.—A semi-official statement from Petrograd reports a new movement of German forces in Poland. Following the heavy concentration of German troops for the renewed attack on Przasnysz, near the Prussian border, reinforcements have been brought up in the Pilica river region, southwest of Poland. Petrograd believes, however, that these reinforcements are intended merely to hold the present positions rather than institute another attempt to break through the Russian line toward the Polish capital.

Concerning the great battle which Petrograd says is now in progress in northern Poland few new details have been received. The Russian statement mentions a bombardment of Ossowetz by German aviators but is silent as to the course of the main engagement.

The British attack in Belgium has brought on two vigorous counter movements by the Germans but it is said in London that the ground gained has been held. In Champagne further progress for the French is claimed although the German war office announced two days ago that this battle had been concluded.

M. Gounaris, Greece's new premier, has given specific assurance to France that the policy of his cabinet will not be inimical to the interest of the allies although the Gounaris ministry was created as a result of King Constantine's opposition to the former premier policy of intervening in the war on their side. A London dispatch states that Bulgaria, whose attitude has been a source of concern to Greece, is sending heavy artillery to a point close to the Greek frontier.

Constantinople is reported to be in a state of panic as a result of the attack on the Dardanelles. Although it is presumed that the bombardment of the fortifications is proceeding there are no definite indications as to what is being accomplished beyond the admitted fact that the forts near the entrance of the straits have been damaged if not destroyed.

TEACHERS' PENSION BILL BECOMES LAW

Indianapolis, March 12.—Governor Ralston has permitted the teachers' pension act to become a law, but did not give the measure his approval. He issued a statement in which he says it is his opinion that the law represents "a species of socialism" and that the wisdom of such legislation is "questionable."

However, the governor refused to align his personal views against the will of the legislature and said he is trusting that it may prove wiser legislation than he believes it to be.

The measure was one of the bills passed by the legislature in the last three days of the session and the governor had the right to receive or reject it. His refusal to receive and consider the measure would have meant its death.

ALLEN FARM LANDS AT $26.30 AN ACRE

Indianapolis, Ind., March 12.—Indiana farm lands are valued for taxation purposes at an average of $26.30 an acre, according to a report of the investigation by the state tax board. The $26.30 includes farm houses and other "improvements" and is regarded as representing from 33 to 40 percent. of the true valuation. The assessed valuation varies from $4.50 an acre in Crawford county to $62.50 in Marion county. The average assessed value for farm lands in various counties follows:

Allen, $31.50 an acre; Cass, $29.20 an acre; Delaware, $38; Grant, $37.50; Tippecanoe, $38.50; Vanderburg, $34; Vigo, $34.

The tax commisson's tabulations show that the average assessed valuation of horses and mules is $95 a head; of cattle, $35; hogs, $8; sheep, $4.50. This is regarded as fairly approaching approximate true values, but only 75 per cent. of this valuation is assessed.

Automobiles are valued at an average of $334, according to the board. Some of the counties which show the lowest assessed value in land, are high in the automobile column.

IMPERIAL POTENTATE COMING FOR MEETING

Word has been received by Byron H. Somers, illustrious potentate of Mizpah temple, Ancient Arabic order, Nobles of the Mystic Shrine, that Dr. Frederick R. Smith, imperial potentate, who resides in Rochester, New York, will attend the annual spring ceremonial to be held at the Shrine temple, 227 West Main street, on April 30. Other imperial officers also are expected. The bands and patrol of Zenobia temple, of Toledo, and Saladin temple, of Detroit, will assist in the ceremonial here.

DRY LAW IS NULLIFIED.

Olympia, Wash., March 12.—The sixty day session of the legislature adjourned last night without passing an appropriation to enforce the prohibition law.

THREE POINTS TO BE DECIDED

Puzzling Questions Raised by Career of German Cruiser.

AWAITING RESULT OF THE INQUIRY

Action on But One Point Has Thus Far Been Determined.

Washington, March 12.—Three questions raised by the destruction of the sailing vessel, Wm. P. Frye by the German converted cruiser Prinz Eitel Friedrich and the entry of the latter vessel into an American port for repairs still were to be determined today by the United States government. They are what action shall be taken on account of the sinking of the Frye, the length of time to be allowed the Prinz Eitel to make repairs at Newport News and the disposition of her prisoners. Pending the completion of an inquiry into the case, however, no decision on any of the questions involved was expected.

One thing has been settled and that is that unless the German government offers to make reparation for the sinking of the American ship and expresses regret for the occurrence strong protest will be made by the American government and a claim presented for damages. Officials here are unanimously of the opinion that the German captain had no right to sink the Frye. It was thought likely that the German government, after being acquainted with the facts, would admit the mistake of the German commander and make reparations.

In connection with the neutrality phases of the case officials awaited the receipt today of a report from the collector of the port at Newport News containing the statements of the German commander setting forth his reasons for the sinking of the Frye and the length of time that would be required to repair his ship. Determination of the latter question will be reached after an inquiry by an American naval constructor.

EXPERTS MAKE INSPECTION.

Newport News, Va., March 12.—American naval and shipbuilding experts were inspecting the German converted cruiser Prinz Eitel Friedrich today to determine what repairs are necessary to make the vessel seaworthy. On their report will depend how long the Prinz Eitel will be allowed to remain in this port. Captain Thierichsen has said the cruiser can be made seaworthy within a week, but many weeks, he said, will be required to put the vessel in good condition. The Prinz Eitel went into dry dock here yesterday after the captain had submitted to Collector of the Port Hamilton a report on the condition of his vessel.

The captain has been quoted as saying he sank the American ship because he regarded her cargo as contraband.

It was understood that Commander Thierichens had asked the advice of the German embassy on whether to turn over the original papers of the William P. Frye to Collector Hamilton.

The German commander has agreed to give copies, but insists that the originals must go before a prize court in Germany. The crew of the Frye were paid off today by Captain Kiehne, but they will be held together for the present, at the request of Washington authorities who want to get their formal statements for use in the diplomatic negotiations over the sinking of the American ship.

A. G. Bailey, French consul at Norfolk, has taken charge of the interests of the eighty-three first-class passengers from the French liner Floride who have been refused admission to the United States by the immigration authorities. Until some other disposition is made of them they will remain on board the Prinz Eitel.

DOCTOR ARRESTED ON MURDER CHARGE

Mattoon, Ill., March 12.—Dr. Harold E. Ronalds was arrested late yesterday on a charge of first degree murder and was placed in the Coles county jail, to be held without bond until his case comes up. The Mattoon city court grand jury returned an indictment charging Dr. Ronalds with the murder of his wife, Alice Ronalds, in the Ronalds' bungalow New Year's night, after an alleged drug debauch, participated in by Dr. and Mrs. Ronalds and Mr. and Mrs. C. O. Purcell.

In one count of the indictment Dr. Ronalds is charged with committing a criminal operation; another charges him with assaulting with his fist, and another count charges him with forcing Mrs. Ronalds to drink poison. There are five counts in the indictment.

Dr. Ronalds has been using morphine in large quantities for several years, and his wife is said to have used the drug. Dr. Ronalds refused to make any statement regarding his case.

CAKE IN COURT MADE OF EGGS 10 YEARS OLD

New York, March 12.—Cake made of eggs ten years old was served to jurors in the federal district court yesterday during a hearing in the suit brought by Robert Herbst, an importer, to recover $12,000 because a consignment of preserved Chinese eggs, in which he was interested, was destroyed as unfit for consumption. Edward S. Fowler, formerly collector of the port, and Louis A. Coolidge, his deputy, were among the defendants. The eggs had been preserved in a solution of boracic acid. Dr. Ernest L. Smith, formerly professor of biology, [illegible]

AWARDS WILL BE MADE IN MILITARY TOURNEY

Fort Wayne Merchants Give Donations Toward College Event.

All preparations for the second annual military tournament at the Concordia college gymnasium for Friday evening have been completed. Awards will be made to the winners of the various contests toward which the merchants of the city have liberally donated.

The cadet corps has been drilling hard during the last week putting on the final touches for tonight's drill. The program will be strictly a military one and will consist chiefly of competitive drills between the various companies, sergeants, corporals, privates and recruits. The battalion will pass in review and will have a salute of the colors. Company A will perform a calisthenic drill and bayonet drill; Company B, wand and company close order drill; Company C, rifle drill, manual of arms and silent manual; Company D, dumbell drill and Butt's manual.

Donations of prizes have been made by the following Fort Wayne business concerns:

Koehlinger Drug Co., Meinzen Drug Co., Wayne Tobacco Co., Baade-Wyneken book store, Patterson-Fletcher, Schields, Barker-Rose, Fort Wayne Hardware and Sporting Co., Beyer Bros., Fisher Bros. Paper Co., Perfection Biscuit Co., Craig Biscuit Co., Moellering Bros. and Millard, Old Schiefer shoe store, Ciles-Stetson Candy Co., Swift Packing Co., Eckart Packing Co.

WOULD PAY $10,000 FOR 10 WEEKS WORK

New York, March 12.—The board of education will ask the board of estimate today to pay $10,000 each to Dean Herman Schneider, of the University of Cincinnati, and Wm. Wirt, superintendent of schools of Gary, Ind., for ten weeks' services in introducing co-operative, vocational and pro-vocational systems into New York schools.

This was said to be the largest amount ever paid for school services for such a period in this city.

Superintendent Wirt, who was formerly at the head of the Bluffton schools, is well known in Fort Wayne.

While attending a hot box at Dola yesterday Brakeman F. E. Bratt, of the Pennsylvania, slipped and struck one of his knees against the end of a tie. As a result of the accident he is temporarily confined to his home, 2201 Hanna street.

THIS EXPLOIT OF THE EITEL FRIEDRICH DURING HER SENSATIONAL CRUISE HALF AROUND THE WORLD MAY CAUSE DIPLOMATIC COMPLICATIONS BETWEEN THE UNITED STATES AND GERMANY.

GENERAL ENDS OWN LIFE AFTER DEFEAT

Berlin, March 12.—The Frankfurter Zeitung has received a private dispatch from Petrograd intimating that General Sievers, commandant of the Russian tenth army corps, which was defeated in the winter battle at the Mazurian lakes, has committed suicide.

The basis for this inference seems to be the fact that rumors have been in circulation concerning a mourning service held for the general in a Lutheran church.

Dispatches from Constantinople tell of the further resultless bombardment by the allies of the Turkish forts at the Dardanelles. The operations have been hindered by stormy and foggy weather. A British landing corps, variously estimated at from 1,000 to 2,000 men, is reported to have been repulsed and compelled to retire to their vessels. One report says these men were either killed or captured by the Turks.

GEN. JOFFRE THANKS WOMAN FOR TOBACCO

Paris, March 12.—Gen. Joffre, the French commander, has sent a letter to Mrs. Clara Washington Topp, of New York, thanking her heartily for the large supply of tobacco she gathered for distribution among the French soldiers. Most of the supply was obtained in New York. General Joffre's letter follows:

"I hasten to thank you heartily and sincerely for the magnificent gift you sent on behalf of generous friends in America to my brave soldiers. I am deeply touched to see your great country taking an interest in them. They deserve all the gifts which are made them because of the courage, energy and unalterable good humor they bring to the defense of a noble cause. You have helped to give them a little joy. Once again their chief thanks you with all his heart."

FORT WAYNE MEN INTERESTED IN OIL

A newly organized company to be known as the Citizens' Oil company and composed entirely of Fort Wayne and Louisville, Ky., business men, has been organized, with Ernest Kampe, of this city, as one of the directors.

Fort Wayne citizens who have stock in the new company are the following: J. A. Klett, W. B. Klett, E. G. Kampe, Henry Eckhart, Fred Eckhart, Dr. M. I. Rosenthal, Christ Woebbeking, W. E. Woebbeking, Gustave Woebbeking, M. J. Sites, Perry I. Stahl, Frank Parrot, Henry Hunche, Dr. J. O. Grove, A. C. Heckler, C. E. Crum, A. A. Bassett, Samuel Wolf, Miron Dessauer, B. S. O'Connor, Frank D. Evans and F. L. Reeves.

The company owns and is operating 736 acres of land with seven producing wells and six now being drilled, south of St. Francisville, Ill. A number of the Fort Wayne stockholders will leave the forepart of next week to inspect their wells, taking with them engineer M. A. Howe, of Wabash.

WILL BANQUET DR. HURTY.

Physicians to Honor Indiana Health Board Secretary.

Indianapolis, March 12.—Dr. John N. Hurty, secretary of the state board of health, will be honored on the nineteenth anniversary of his entrance into the service of Indiana, when 200 physicians, health workers and others gather in a local hotel Saturday evening, for a banquet which has been arranged for the secretary by his friends and admirers. Governor Ralston will be toastmaster, and Vice President Marshall is to be one of the speakers. The program includes addresses by Dr. William Low Bryan, president of Indiana university; Dr. William E. Stone, president of Purdue university; Dr. William A. Evans, former health commissioner of Chicago; Dr. Victor C. Vaughan, president of the American Medical association; Dr. Alexander Craig, secretary of the American Medical association, and Miss Vida Newsome, president of the Indiana Federation of Women's clubs.

COUNTY AGENT HAS BUSY WEEK AHEAD

Meetings Arranged With Farmers for Nearly Every Night.

C. Henry, county agent, has another busy week before him judging from the number of meetings he has scheduled. On Monday evening he will give an oats smut demonstration at the M. E. church in Scipio township. On Wednesday evening he will give an oats demonstration before the newly organized farmers' club of Lake township at a meeting to be held in Bellamy hall at Arcola. On Thursday evening there is to be a corn meeting at Townley and on Friday evening he is to give another oats smut demonstration in district No. 1, Pleasant township.

The farmers of Lake township organized a club Thursday afternoon at a meeting held in Arcola. The following officers were elected: H. A. Rockhill, president; Frank Corbet, jr., vice-president and secretary, and Albert Larrimore, treasurer. An oats smut demonstration was given by Mr. Henry. The demonstratio nthat Mr. Henry was to have given in Madison township Thursday afternoon was postponed for one week.

The county agent was the principal speaker at a meeting of farmers Thursday evening at Leo, Cedar Creek township.

WOULD TAX BACHELORS.

West Virginia Man's Plan to Boost County Road Funds.

Charleston, W. Va., March 12.—Delegate James, of Mingo county, introduced in the West Virginia house of delegates yesterday a bill proposing a tax on bachelors. It would tax all bachelors between 25 and 50 years of age $5 annually. The money would be paid into the county road funds.

ATTACKS DIVORCED WIFE.

Lafayette, Ind., March 12.—Orville Grove slashed the throat of his divorced wife wth a pocket knife in a downtown hotel here last night. The woman is in a critical condition. Grove was arrested.

The members of the board of education of the county will meet Sturday with D. C. McComb, county superintendent, at his office in the court house.

Two women have taken the civil service examination at the federal building for statistical clerk and matron in the Indian service.

MEN, EASTER SUNDAY COMES APRIL 4TH, TIME TO BEGIN TO THINK OE CLOTHES

I am rather proud of the stock of Men's Suits that I have assembled in my store this Spring.

I didn't spare expense or effort to give the men of Fort Wayne as good a selection of clothes as their neighbors enjoy in the largest cities.

And my price range is within reach of every man because the best Suit of clothes that is to be found in any store is no better than what I offer at $20.

At $10 and $15 I can give you an assortment, and the values as good as you usually have to pay $15 to $20 for.

These are not idle statements —I am earnest when I make them and I believe in them with all my heart—

You may be skeptical but you at least owe it to the purchasing power of your dollars and cents to give me a chance to meet you face to face and prove my assertions.

The next time you are in the vicinity of my store pay me a visit—I shall be more than glad to see you even if you don't want to buy. At least I shall experience some satisfaction in your having given me an opportunity to prove my case.

THEO. J. ISREAL,
1011 Calhoun St.

Wedding in Famous Family at Easter

Cordelia Drexel-Biddle

"She's the most beautiful bud of the season," is what society said about Miss Constance Drexel-Biddle, who was introduced last New Year's. "The most beautiful bride of the Easter season," is probably what it will be saying about her, for the debutante is to be married at Easter time.

Miss Biddle's engagement to Angier B. Duke, a member of the Duke family that made millions in tobacco, was announced not long ago.

THE PEOPLES STORE

98c Saturday 98c

A $1.25 Aluminum Coffee Pot, 2-quart size, perfect goods, for 98c

NEWS OF FORT WAYNE'S NEIGHBORS

KILLS FATHER OF ESTRANGED WIFE

Firmer Schearer Shoots Newton Stevens in His Home at Andrews as Result of Domestic Trouble.

Andrews, Ind., March 12.—Firmer Schearer, aged 22, is in the Huntington jail without bond charged with murder in the first degree for killing his father-in-law, Newton Stevens, aged 60, in the Stevens home here at 10:30 o'clock last night. The murder followed Schearer's visit to the Stevens home, where he demanded to see his young wife, from whom he has been estranged and by whom he is being sued for divorce. When Schearer was told that his wife was not in the house nor in Andrews, he begged that he might be permitted to enter and see his baby, aged 2½ years, and he was allowed to come in. Mrs. Stevens took him to the bed where the child was asleep and Schearer picked it up and kissed it. He then declared to Mrs. Stevens that if she did not give him back his wife he would kill her, emphasizing the threat by drawing a revolver. Mr. Stevens leaped from his chair and dashed toward Schearer evidently with the intent of disarming him, but before he reached his son-in-law the latter turned the weapon on Stevens and fired two shots. Both bullets lodged in Stevens' breast and he fell dead upon the floor. Schearer then fled to the street, throwing himself upon the ground, but soon returned to the house and surrendered himself and awaited the arrival of Sheriff W. E. Scott, from Huntington, who got here about midnight and took Schearer into custody. Schearer came to Andrews last evening from Huntington and went at once to the Stevens home, where he made the pretence that he was Russell Schearer, his brother. His voice was recognized and Mrs. Stevens demanded to know what he wanted. Schearer said he wanted to see his wife and was told she was not there and he then begged to see his child and was admitted. Mr. and Mrs. Schearer have had much domestic trouble and not long ago the wife began action for divorce. At that time Schearer is reported to have threatened her life and carried a revolver. In the latter part of January he was arrested and fined in Huntington for carrying deadly weapons. The weapon with which he killed Stevens was a 32-caliber revolver.

INJURIES PROVE FATAL.

Gustave D. Beeber, DeKalb County Councilman, Dies in Garrett.

Garrett, Ind., March 12.—Gustave D. Beeber, aged 66 years, the only DeKalb county councilman re-elected at the last general election and a veteran of the civil war, died at his home in Garrett Thursday from blood-poisoning, which resulted from an injury sustained last month.

Mr. Beeber was helping Mrs. Beeber with the family washing on the morning of February 3. It was while they were carrying a tub of water to a place to empty it that Mr. Beeber slipped and fell. He sustained an injury to his spine, which took him to his bed and kept him bedfast until the end came.

The late county councilman served in the civil war and was a member of the G. A. R. up and until the time of his death. Enlisting in the army in Kendallville, he served in Company I, of the Seventy-fourth regiment of the Indiana volunteer infantry.

He had lived in Garrett since 1877. At one time he was in the employ of the B. and O. railroad as a switchman. He did not leave that company's employ until about six months ago.

A widow, two sons, five brothers and three sisters survive.

MONTPELIER MAN WINS SUIT.

Montpelier, Ind., March 12.—Word has been received here from Arkansas by friends, that Samuel Murphy had received damages to the amount of $15,000 for injuries which he received when he was struck by a gas engine. As near as can be ascertained Murphy was employed as an engineer and had charge of a gas engine. In some manner he fell or got too close to the engine and was struck by it. His jaw bone was considerably mangled so as to make it impossible for him to chew any of his food. He began suit against the company, claiming that the engine did not have the proper guards to prevent such accidents from occurring. He asked for damages amounting to $50,000, but was granted $15,000 after the jury had deliberated on the case about one hour.

WOODCHOPPER IS INJURED.

Huntington, Ind., March 12.—William Eltzroth, living about one mile north of this city, was seriously injured when he was struck on the right wrist with an axe. A cut about three inches long was inflicted. Mr. Elzroth and son, Ora, were in the woods chopping wood when the accident occurred. The father was about twelve feet from the son. The axe head which the son was using slipped and flew the twelve feet and struck the father on the wrist. The wound was a very severe one. If the axe had come with a little more force it would have severed the tendons to all the fingers on the right hand. The gash was so deep that all the tendons of the fingers could be seen.

ASK FOR PREACHER A. BEATTY.

Elkhart, Ind., March 12.—The congregation of Trinity M. E. church of Elkhart by unanimous vote adopted a resolution asking that the northern Indiana M. E. conference, when it meets in annual session at Auburn starting April 7th, elect Rev. J. A. Beatty, superintendent of the Fort Wayne district as superintendent of the Goshen district to succeed Rev. Somerville Light, of Bristol, who has served six years—the time limit. Rev. Beatty was formerly pastor of Trinity church at Elkhart. He has been superintendent of the Fort Wayne district for five years. Goshen Methodists are said to be very favorable toward Rev. Beatty.

VAN WERT WOMAN DIES.

Van Wert, O., March 12.—Mrs. Evan A. Evans, widely known and highly esteemed resident, is dead as the result of bronchial pneumonia, of which she had been ill but a few days. Her death came very unexpectedly to her great number of friends in both town and country. Mrs. Evans, who was 72 years of age, was a native of England, but had resided in Van Wert county the greater portion of her life. She is survived by two daughters. Mr. Evans, husband of the deceased, died about four years ago. She was a member of the Presbyterian church.

FARM HOME IS LOOTED.

Bluffton, Ind., March 12.—The local police have been investigating a robbery that occurred last Friday night at the home of L. T. Jones, on the old O. J. Montgomery fruit farm, west of Bluffton, that has some interesting phases. The robber or robbers turned the house topsy-turvy, from cellar to garret, and secured loot worth probably more than $50, and the thorough search indicated that they proposed not to leave any hidden valuables. While the police had nothing to give out other than details of the robbery, there are some features that may lead to a solution of the affair.

STIRRING UP ROANOKE.

Roanoke, Ind., March 12.—Dancing, theatergoing and card playing were denounced by the Rev. Hobbs in his sermon last night at the Roanoke M. E. church. Other worldly pleasures were condemned as not contributing to the best Christian life, but these three were the main theme of his sermon. Incidentally he denounced the church members who either seek recreation in such a manner or permit their children to do so. He said that to preach to some church audiences was like speaking to a stone wall so far as getting any response from them is concerned.

SURRENDERS TO SHERIFF.

Decatur, Ind., March 12.—After eluding the officers, Earl Thrailkill, the Pleasant Mills resident who, it is charged, attempted to shoot George I. Davis, a merchant of the village, Wednesday morning, dressed in his best clothes, appeared at the county jail early yesterday morning and surrendered himself to Sheriff Green and was locked up. Thrailkill was taken into the circuit court and pleaded not guilty to the charges preferred against him. He was returned to jail and the time for his trial has not been set.

BUTLER RESIDENT DEAD.

Butler, Ind., March 12.—John C. Huyck, son of J. F. and Lucinda Huyck, died suddenly at his home one mile north of Butler. He was born March 4, 1840, in Huron county, Ohio, and at an early age enlisted in his country's call in Company E, Fourteenth Ohio infantry, and after three months' service in that company he enlisted in Company C, 100th Ohio infantry. A widow and four children survive the husband and father. The funeral will be held on Sunday.

HUNTINGTON GUARDS GROWING.

Huntington, Ind., March 12.—More than twenty-five members attended the smoker at the Commercial club given by the officers of the new national guard company, and six names were added to the roll of membership.

Quite a delegation attended the meeting from Andrews, and reported that without a doubt a double squad of sixteen men will be recruited in that town within the next few days.

ELECTED TO TOWN COUNCIL.

Pierceton, Ind., March 12.—At the special meeting of the town board held for the purpose of filling the vacancy occasioned by the removal of J. D. Bell from the second ward, L. A. Wilkinson was chosen. Two names were presented, those of G. A. Leifer and L. A. Wilkinson. The first ballot was a deadlock, each receiving one vote. After some discussion another ballot was taken and Mr. Wilkinson received both votes.

PROPER TREATMENT FOR BILIOUSNESS.

For a long time Miss Lula Skelton Churchville, N. Y., was bilious and had sick headache and dizzy spells. Chamberlain's Tablets were the only thing that gave her permanent relief. Obtain able everywhere.—Adv.

Smoke a "Hexamer" Havana Cigar. They are so good you will hate to throw it away. Their mild flavor is pleasing. Sold in 3 shapes at 10c straight. They are made in Fort Wayne by J. H. Sonfield, and distributed by A. H. Perfect & Co. 11-2t

NEW HAVEN NEWS.

New Haven, Ind., March 12.—J. C. Mosier, of Convoy, will succeed P. H. Young as day agent of the Ohio Electric, Mr. Young having taken a similar position at Leipsic, Ohio.

The funeral services of Henry Hoffman was held Wednesday morning at the house. Interment was made in the I. O. O. F. cemetery.

V. H. Blaising spent Monday in Monroeville on business.

Mrs. Malinda Cameron has been quite ill for several days at the home of her [illegible]

funeral of Mrs. Asher Hathaway at Collamer, Ind., on Tuesday.

The funeral services of Mrs. Rothgib, who passed away at the Lutheran hospital Tuesday, were held this afternoon at the Methodist Protestant church.

Mr. and Mrs. Will Schnitker and Mr. anud Mrs. Otto Bruick spent Wednesday evening in Fort Wayne.

MUNCIE MAN IS PRESIDENT.

J. P. Maxon New Head of Indiana Gas Association.

Indianapolis, Ind., March 12.—J. P. Maxon, of Muncie, was elected president of the Indiana Gas association at the close of the seventh annual meeting here yesterday. The other officers chosen were vice president, G. M. Dolley, of Logansport; secretary-treasurer, James W. Dunbar, of New Albany; directors, S. E. Mulholland, of Fort Wayne; Ray Ziegler, of Muncie; E. J. Burke, of Indianapolis, and T. A. Elder, of Indianapolis.

HERE, YOU MEN, LISTEN.

Longer Coats and Shorter Trousers Are Decreed by Cutters.

Cincinnati, March 12.—The Custom Cutters' club met at the Hotel Gibson last night and decided that Cincinnati men, if they follow the fashion, must wear longer coats during the coming spring and summer. The cutters ordained that the twenty-nine-inch-length garment of last year shall give way to the thirty-one-inch sack coat of the near future.

Trousers will be worn looser, too, and shorter. The trousers must be loose from the hips, tapering toward the ankles. The bottom of the trousers, if one would be strictly in style, should barely graze the shoe tops. The soft-rolling lapel will be retained and the shoulders are not to be padded.

Whether the war had anything to do with it is a question, but the new suits will not be so "deucedly" English as those of the present.

82 LOBBYISTS REGISTERED.

Represented Fifty-one Firms at Sessions of Legislature.

Indianapolis, Ind., March 12.—Eighty-two representatives of fifty-one concerns were registered with the secretary of state as legislative agents under the anti-lobby law during the session of the legislature just closed. Fees of $102 were collected by the state for the registrations.

PUT CREAM IN NOSE AND STOP CATARRH

Tells How To Open Clogged Nostrils and End Head-Colds.

You feel fine in a few moments. Your cold in head or catarrh will be gone. Your clogged nostrils will open. The air passages of your head will clear and you can breathe freely. No more dullness, headache; no hawking, snuffling, mucous discharges or dryness; no struggling for breath at night.

Tell your druggist you want a small bottle of Ely's Cream Balm. Apply a little of this fragrant, antiseptic cream in your nostrils, let it penetrate through every air passage of the head; soothe and heal the swollen, inflamed mucous membranes, and relief comes instantly.

It is just what every cold and catarrh sufferer needs. Don't stay stuffed-up and miserable.—Adv.

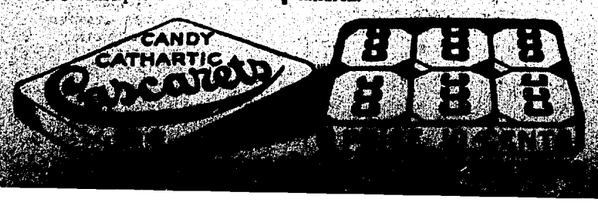
REGULATE YOUR BOWELS AND STOP HEADACHES, COLDS, SOUR STOMACH

Cascarets make you feel bully; they immediately cleanse and sweeten the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry off the constipated waste matter and poison from the bowels. A Cascaret tonight straightens you out by morning—a 10-cent box from any druggist keeps your Stomach regulated, Head clear and Liver and Bowels in fine condition for months. Don't forget the children.



GIRLS! GIRLS! YOU MUST TRY THIS! DOUBLES BEAUTY OF YOUR HAIR

For 25 cents you can make your hair lustrous, fluffy, and abundant.

Immediate?—Yes! Certain?—that's the joy of it. Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a Danderine hair cleanse. Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt or excessive oil, and in just a few moments you have doubled the beauty of your hair. A delightful surprise awaits those whose hair has been neglected or is scraggy, faded, dry, brittle or thin. Besides beautifying the hair, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair, but what will please you most will be after a few week's use, when you see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair, and lots of it, surely get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter and just try it.

Confirmation Suits

Just now mothers are considering the confirmation suit question. We are splendidly prepared to assist you in this problem. Many models to choose from; single-breasted Norfolk, two or three-button double-breasted Norfolk; two [illegible], three-button double-breasted coats; all knickerbocker pants.

$5, $7.50 and $10

We also have a complete line of furnishings to complete a confirmation outfit —Shirts, Ties, Hats, Caps, Etc.

Kratzsch & Schroeder

THE SENTINEL'S DAILY SCRIPTURE READING.

Luke 17;6-19.

6 And the Lord said, If ye had faith as a grain of mustard seed, ye might say unto this sycamine tree, Be thou plucked up by the root, and be thou planted in the sea; and it should obey you.

7 But which of you, having a servant ploughing or feeding cattle, will say unto him by and by, when he is come from the field, Go and sit down to meat?

8 And will not rather say unto him, Make ready wherewith I may sup, and gird thyself, and serve me, till I have eaten and drunken; and afterward thou shalt eat and drink?

9 Doth he thank that servant because he did the things that were commanded him? I trow not.

10 So likewise ye, when ye shall have done all those things which are commanded you, say, We are unprofitable servants: we have done that which was our duty to do.

11 And it came to pass, as he went to Jerusalem, that he passed through the midst of Samaria and Galilee.

12 And as he entered into a certain village, there met him ten men that were lepers, which stood afar off:

13 And they lifted up their voices, and said, Jesus, Master, have mercy on us.

14 And when he saw them, he said unto them, Go shew yourselves unto the priests. And it came to pass, that, as they went, they were cleansed.

15 And one of them, when he saw that he was healed, turned back, and with a loud voice glorified God,

16 And fell down on his face at his feet, giving him thanks; and he was a Samaritan.

17 And Jesus answering said, Were there not ten cleansed? but where are the nine?

18 There are not found that returned to give glory to God, save this stranger.

19 And he said unto him, Arise, go thy way; thy faith hath made thee whole.

FRIDAY, MARCH 12, 1915.

More Going Than Coming.

Another of war's effects has been to completely reverse the tide of alien travel to and from the United States. For the first time in the history of the United States the flow of immigration has been turned back toward Europe, and more aliens are leaving the United Sates than are coming here to make their homes.

Statistics just made public at Washington by Immigration Commissioner Caminetti show that the change came in Decemher last, when the number of emigrant aliens leaving this country was greater by 2,240 than the total of immigrants entering. In January, 1,731 more departed than entered. The departures for the six months from August, 1914, to January last totaled 18,545 more than the arrivals, including both emigrant and non-emigrant aliens.

The heaviest emigration was shown among the aliens from southern Italy. Of these 75,629 more departed than were admitted during the seven months ended with January. This presumably was due to the calling of Italian rservists to the colors.

Perhaps it will prove to be a fortunate thing that the traction company has reduced to a definite basis, in the form of an appeal to the state utilities commission, its charges that the municipal light and power system is resorting to unfair tactics and using unwarranted methods in its competition with the private corporation for light and power business in Fort Wayne. Rumbling echoes of this character have been heard for some months, and action puts the situation at a point where it can be definitely threshed out before a legal tribunal. The city's contention in its reply, will be that it has not overstepped the line of its rights, and even the most ardent friend of municipal lighting will not desire the growth and prosperity of the city's electric enterprise upon any other basis than absolute fairness both to patrons and to competitors. Definite ruling on what is permissible for each of the interests and what is not will be of advantage to all concerned.

Government engineers have practically completed the work of preliminary survey of routes for the proposed Lake Erie-Lake Michigan barge canal by way of Fort Wayne and the Maumee river, and their voluminous report will be made to federal authorities within a short time. Upon this report, doubtless, will be based final judgment as to the practicability of the great enterprise. Meantime, while awaiting the decision, let us maintain militant and organized interest in the project upon which so many vast possibilties for this great central west section and for the country at large depend.

Harry Thaw says he was moved to make his escape from Matteawan asylum for the criminal insane through fear of losing his reason. Still, the possesor of a reason that is yet found clinging to him after the series of harrowing experiences through which the pampered son of luxury has passed during the past few years would seem to be needlessly alarmed by the fear that it would desert him. Any ordinary human reasoning equipment would have been in the junk heap long ago.

But eighty-two lobbyists registered for operation at Indianapolis under the new law during the recent session of the legislature. Either some of the fraternity got away, a lot of them quit business or the insiduousness was in a much milder form than that to which Indiana has heretofore been accustomed. It is difficult to account for the small number on any other hypothesis.

Fort Wayne authorities are taking the preliminary steps under the provisions of the new state law for flood prevention work, and it must be admitted that the movement has all the ear-marks of definite accomplishment in the preparation that will safeguard the city [illegible] ble danger during any [illegible]

PURGED BY FIRE.

(Grand Rapids News.)

It is a trying and not infrequently heart-rending and mind-racking process to eradicate evil of long standing. Habit is a fearful master which takes vengeance on the servant in double measure.

It has now been less than two weeks since the Harrison anti-habit forming drug law went into effect, and already the results have begun to bear out the unhappy predictions of the medical men of the country, who only too clearly foresaw what was to take place.

Deprived of their drugs, there are thousands of drug users who have begun to suffer the most extreme tortures of body and mind. Already this suffering has led to tragedy. Detroit had one such case this week. Chicago yesterday had another. Undoubtedly many other such cases have been less widely chronicled.

And at best this can be considered only the beginning. Government officials have charged that an "opium trust" has secreted large quantities of drugs for distribution among the fiends of the country, now that their legal sale is forbidden. Granting this to be so, only a small portion of the tortured souls can hope for relief. The remainder must do without.

It is probable that many of the wiser drug users have made some attempt to store against future need and have considerable supplies on hand. But this at best must be soon exhausted.

In ten days the country has begun to see, as never before, the tragic workings of the drug evil, bared by that evil's own discontinuance. There are even greater and more tragic revelations to follow. Many more, perhaps, will never be known in their true guise. But, whatever the cost in suffering, in wrecked careers, even in deaths, now, it cannot be said by any right-thinking person that the Harrison law is not a long step in the right direction. The dope fiends of the country are just now being purged by fire, but in the end such as remain, and the country, will come out the better for it.

FEELING ITS WAY.

(Toledo Blade.)

The first task the trade commission will undertake, when it goes into power next week, is an investigation of American business in foreign countries. It will, so the announcement runs, "study the influence of associations, combinations and practices of buyers, dealers and traders upon the forcign trade, and see whether they injuriously affect American exports."

This means that the trade commission purposes to feel its way. It is not to jump into the world of business with an outfit of regulations, a campaign of inquisitions and a set of prohibitions three-quarters of a mile long. It will first get used to its new chairs, first learn how far its authority runs and how useful it may be to its country.

We expect a good deal of the trade commission. In our opinion it will develop into an institution that can go further toward eliminating the sins and wrongs of commerce than inflexible laws can. It is pleasant then to see it approaching its duties not as if it were charged to hang some one, but with the frank admission that it has something to learn before it begins applying remedies.

Twenty-Five Years Ago

What The Sentinel Had to Say About Persons and Events Twenty-Five Years Ago.

Samuel E. Morss, of the Indianapolis Sentinel, is in the city.

A very flourishing Epworth league has been organized in the St. Paul M. E. church.

Charles E. Reese has taken a position as assistant accountant in the office of the Morning Journal.

Of the class which was graduated from the Fort Wayne Medical college last night, Charles E. Barnett stood highest in his examination.

At the business session of the Indiana encampment of the G. A. R. in Indianapolis yesterday that city was chosen for the 1891 encampment. The vote was: Fort Wayne, 219; Indianapolis, 313.

Kayser & Baade have commenced the erection of a double store building at the corner of Broadway and Huestis avenue. It will be occupied by their grocery and Wilkins' meat market.

Last night the city council granted permission to James Geary, manager of the World's museum, to erect an Eiffel tower on the grounds of his popular place of amusement on East Berry street. It is proposed to build a tower 400 feet high.

Louis Peltier was seventy-six years old yesterday and about twenty-five of his friends called unexpectedly at his home in the evening to extend congratulations. Mr. Peltier was born in Fort Wayne and is still hale and hearty, notwithstanding his advanced age.

The Euphonia double quartet, one of the most popular of the city's musical organizations, elected the following officers last night: President, A. M. Schmidt; vice president, W. O. Gross; secretary and treasurer, William C. Baade; archivist, Louis A. Curdes; director, Prof. C. Hormel.

The Fort Wayne Rifles last night elected the following officers: Captain, Will H. Peltier; first lieutenant, Charles J. Bulger; second lieutenant, Will W. Kerr; orderly, John E. Miller; second sergeant, Joseph Evans; third sergeant, Will F. Gouty; fourth sergeant, A. Lichtenwalter; fifth sergeant, Will P. Bidwell; first corporal, Walter W. Wells; second corporal, Frank E. Snyder; fourth corporal, Henry C. Niemeyer; company clerk, Charles E. Reese.

TRAINS HIS HORSE TO BE "VEGETARIAN"

Man Feeds Animals Apples and Cookies, Narrowly Misses Thrashing.

Detroit, Mich., March 12.—With the thermometer registering near the zero mark and nothing but a coal pile in the open as a sheltering and hiding place, Albert Lee Scott, special officer for the Highland Park Humane society waited for five hours in the dark to trap a man who wanted to make his horse a "vegetarian."

"I had been watching the man and his starved-looking 'critter' for several weeks," said Officer Scott, "but I could not understand why the animal was in such poor shape. At last one of the man's neighbors told me that he did not believe the horse was being fed, as never had he seen hay or oats enter the barn door.

"I investigated and sure enough, not a sign of hay or oats could be found inside the barn. In the manger a hole had been gnawed by the horse—it looked as if the animal was eating wood as a substitute for food. But to make sure that night I set out at 5 o'clock and hid behind a coal pile near the barn.

"I waited and waited—half the night it seemed. Just as I felt that I could stand the cold no longer along came the animal's master with a bag in his hand. He went into the barn and I could hear him talking to the horse. Then he began to feed the animal apples, cookies, a doughnut, which he fed to the half-starved horse. Then came a few cookies, raw potatoes, carrots and sliced turnips. And as the bag dropped to the floor empty an apple came into sight and served as the dessert.

"The knowledge of what that animal was living on and working on daily, combined with my love for all animals, sent me into that barn in a freny. I turned the fellow around and I fought down my temper, which kept saying: 'Hit him! And hit him hard!'

"'What do you mean by feeding a working horse on such grub as that?' I blurted out to the scared and amazed owner, who, from the look on his face, must have imagined that I had come up from the ground.

"'I—I—I—I—,' he stammered.

"'Well, get busy,' I said, as my fists clinched and unclinched.

"'Why—why, I'm making a vegetarian out of Ned, like myself,' he managed to say.

"'You see, I've found out that old Ned can work a lot harder and longer on this diet than any other.'

"I warned him to cut the diet short no matter what the results, and he did."

CARD OF THANKS.

In this way we desire to extend our thanks to the kind friends and neighbors for their assistance and evidence of sympathy in our late bereavement in the loss of wife and mother.

ELECT DIRECTORS.

Stockholders of Germania Park Association Hold Meeting.

The annual meeting of the stockholders of the Germania Park association was held Thursday evening at the Commercial club, at whivh time the following directors were elected: William Breuer, William Barth, Henry Branning, Albert Melching and Max Irmscher. At the meeting of the newly elected directors later the following officers were elected: Albert Melching, president and secretary, and Max Irmscher, vice president and treasurer. Plans for the coming season will be discussed at the next regular meeting of the board.

Your Grandmother's Remedy for Purifying the Blood

And Renovating the System in the Springtime

Ask for Sulpherb Tablets.

What was grandmother's unexcelled remedy? Haven't you heard of it? Yes, you have! It was sulphur, cream of tartar and molasses. The main trouble with it was its nauseous taste.

The modern method puts the cream of tartar and sulphur into a sugar-coated tablet and mixes them with herbs, roots, etc., making a wonderful tonic blood purifier and system cleanser.

Just try Sulpherb Tablets (not sulphur tablets), but Sulpherb—remember the name—and get the tablets in sealed tubes at 50c per tube.

Grown-up people and children who don't feel well, who are constipated or sluggish, or who have pimples, boils, carbuncles, ulcers and the like, can soon rid the system of these impurities by taking this good old-fashioned remedy in modern form. Their action satisfies or money is refunded by the Prescription Products Company, Dayton, Ohio. A free trial sent to any address. Buy of any well stocked druggist.

SOCIETY

Two very well known ladies in Fort Wayne are the Misses Kimball, of 1214 Wilt street. On Monday evening they took part in an entertainment they had planned in connection with the work of the Ladies' society of Plymouth church, of which both are charter members, and it proved so unusual and so much pleasure was the outcome to a large attendance of men and women of the church that it is still being talked about. The Misses Kimball come from an old New England family of Boston, Mass., and their father was one of the passengers to ride over the first trip made by locomotive from Pittsburg to Fort Wayne on that particular branch of the Pennsylvania railroad. However, interesting as that is, it is not the story. The entertainment given by Miss Kimball and her sister, Miss Mary Kimball, was a "musical evening." Its object was to make of twenty-five cents as much money as possible. That was the plan the aforesaid ladies' society has of giving each of its members a quarter with instructions to double, quadruple or make any larger number of times its amount for the society. So these ladies spent the fifty cents in buying some wafers, and grape juice of their own make made delicious refreshment. A program they had planned was given at the residence of a neighbor, Mrs. L. S. Scott, who volunteered the use of her home. Something like sixty people gathered, each of whom had bought a written ticket of admission for a dime. It was a great program of enjoyment and fun that followed. The Misses Kimball came of a musical family and in their girlhood days they used to sing duets together. So they decided to do so at the entertainment. Several of their selections were songs they had heard when they were children. "The English Gardener" and "Rain on the Roof" were the oldest ones. Miss Laura Kimball also played extemporaneous selections on the piano. The rest of the entertainment was given by little Helen Scott, who recited; B. J. Griswold, who read an original essay on cats; a duet, "Johnny Smoker," by Mrs. Charles Rabus and Mrs. Tom Snook, which "brought down the house;" some violin music by Mrs. George Jacobs, piano selections by Mrs. Norton Fisher, songs by Burns Douglass and a reading by Mrs. A. J. Folsom.

* * *

Mr. and Mrs. Ralph Clark went to Chicago today for a few days.

Dr. and Mrs. J. H. Gilpin have as their guest Miss Gilpin, of Cheboygan, Mich.

Mrs. C. B. Crets, of Union street, is in Niles, Mich., for a visit with her sister.

Mrs. E. W. Puckett, who has been visiting in Marion, O., came home today.

Mrs. Clint Willson has returned from visits in Ann Arbor and Coldwater, Mich.

The Square and Compass club is giving one of its regular dances this evening in Minuet hall.

Mrs. John H. Jacobs entertained quite informally today at a luncheon-bridge, a few neighboring friends.

The Chi Delta members were entertained by Miss Evelyn Geller, of Huffman street, last evening.

Mr. and Mrs. O. P. Wright, of the White apartments, left today for Florida for a two weeks' trip.

The Informal Dancing club that meets on Saturday evenings will have a dance tomorrow in the Casino hall.

Miss Carrie Pressler has returned from a visit in Ardmore, Okla., where she had been for several months.

Mrs. John Hillman, of West Wayne street, has returned from a visit with relatives in Wheeling, W. Va.

Mr. and Mrs. George Nelson and little child, of Orosi, Cal., are expected here this week to visit Mrs. Nelson's parents, Mr. and Mrs. Larimore, of West Creighton avenue.

Mrs. A. Golden, of East Wayne street, entertained the members of the Entre Nous club at its twenty-fifth anniversary yesterday. The club has always sewed for charity.

Mrs. James Willson and little child arrived in the city last evening from Boston, Mass., and will be for some time with her parents, Mr. and Mrs. Frank Benoy, while Lieut. Willson is away on a long trip.

Mrs. H. H. Rogers, soprano, and Miss Portia Bohyer, pianist and violinist, are to assist in giving a musicale at Winona on St. Patrick's day at the home of Mrs. M. V. Hatfield, who is a pianist of more than ordinary aaccomplishment.

Mrs. J. W. Donivan, of Fairfield avenue, gave an informal luncheon on Wednesday for Mesdames Alfred Hood, of Mendota, Ill., and Glen Madaris, Gerry King, Terry King, George Conklin, John Geisman, Frank Tibbles and Miss Virginia King and Miss Nellie Scott, of this city.

In the notice of the wedding of Miss Theresa Herr and Mr. Desford Scherer that appeared in these columns on Wednesday an error was made in giving Hillsdale, Mich., as the place of the marriage. Mr. and Mrs. Scherer were married in Coldwater, Mich., instead of in Hillsdale.

The girls of the Entre Nous club met with Mrs. N. W. Arnold, of 1707 Crescent avenue, last evening in honor of Miss Nellie Ringwalt, who is to leave tomorrow for a six months' visit with her sister, in Minneapolis. Games and music were followed by refreshments and the evening was a pleasant one for all concerned. The lunch was served by Mrs. Arnold. The guests were Misses Nellie Ringwalt, Mildred Roeger, Jessica Thomas, Henrietta Zimmerman, Cleo Wilson, Inez Sharp, Oriska Harlan, Marie Piepenbrink and Mildred Schneider.

* * *

Holsaple—Grabner.

Mrs. Lorinda Grabner, daughter of Mr. and Mrs. Wesley Harris, of Jackson township, and Mr. Royal V. Holsaple, were married at the parsonage of Calvary U. B. church by Rev. G. F. Byrer today at noon. The bride and groom were accompanied by the parents of the bride and a sister, Mrs. George Dayer, of 1028 Hugh street. Mr. and Mrs. Holsaple are highly respected young people of their community. Mr. Holsaple is a substantial farmer of Jackson township and he and his bride will be at home to their many friends on their farm at once.

* * *

Children to Give Cantata.

Many children of the public schools are planning by learning their parts, to give a cantata at the Majestic theater in May. This will be the biennial song festival of children which Prof. William Miles, supervisor of music in the city schools, always has charge of. The principal number of the program will be a cantata, "Into the World," and pupils of the fifth and sixth grades will give it. Older children, those from the seventh and eighth grades, are to give a number of songs, among them being the Angels' Serenade, by Braga; Lullaby, by Brahms; Moonlit Meadows, the Blue Danube Waltz, the Clang of the Forge, "O Italia," the sextet from "Lucia." The song festival is in place of the field day exercises given on alternate years.

For Easter Brides

THE first gift thought of the careful, and the final choice of the undecided is always cut glass. As quality must be foremost in a wedding gift it is wise to choose crystal of unquestioned merit. We sell only that kind.

AT THE MAJESTIC.

Pictures of Real War to Be Shown at the Majestic.

"German Pictures of the War" are to be shown at the Majestic Monday and Tuesday. These pictures are said to mirror in a most realistic manner the things that are happening and that have happened in the greatest struggle of modern times. These pictures are said to have been taken by the camera men with the German army and vividly depict events such as Denmark mobilizing to defend neutrality; the destruction of the Liege forts by one shell from the gigantic 42-centimeter guns of the Germans; the result when the "Busy Berthas," the terrifying 42-centimeter guns are trained upon a fortification; the practically impassable barbed wire entanglements; the artillery trenches, bridges which have been blown up and some grewsome but striking pictures of "real war" in which the dead soldiers who fell at Tennenburg are shown. Sacked Louvain is said to provide a most impressive glimpse at the martial panorama abroad, while camera sketches of German battleships, the arrival and encampment of Indian troops and snapshots in Denmark and other countries complete a most enjoyable entertainment. A lecture accompanies the exhibition, explaining clearly each event.

AT THE NEW PALACE

Pigeons can be trained to mistake an electric light for the sun and thrive just as well on the rays of a tungsten as on the rays of the center of the well known solar system. This fact has been established by Syliva Loyal, whose flock of beautiful pigeons and doves which she uses to assist her in her act on the Keith New Palace bill, never see any real sunshine. They go to bed by the clock and get up by the clock, as at 10 o'clock each night the lights in their cotes are switched off and they're asleep in a minute. At 7 o'clock each morning the lights are turned on again and the pigeons awaken to greet their own private little sun plant.

This week's Keith bill includes some great acts in addition to the Slyvia Loyal offering. Among them are Johnny Johnson and his collegians, Mr. and Mrs. James Kelso, Hallen and Hunter, the Kaufman brothers, Harriet Burt and the Castillians.

AT THE JEFFERSON.

Max Figman and Lolita Robertson.

It was erroneously stated in the columns of the morning paper that "A Modern Magdalen" would be the attraction at the Jefferson today. Such is not the case, however, the feature of the day being "Jack Chanty," a brilliant six-part drama featuring the popular stars of the legitimate stage—Max Figman and Lolita Robertson. The story of the film is adapted from a well known novel of that title written by Hubert Footner, and tells with a great deal of charm and appeal of the story of a wealthy magnate, who, after being ruined, goes up into the Canadian woods to recuperate and start life anew While there he meeets a charming girl and faalls in love with her and this circumstance proves the means of a good many startling and romantic adventures.

"A Modern Magdalen," which comes to the Jefferson tomorrow, is a drama of modern social conditions, featuring Catherine Countiss and Lionel Barrymore and William Tooker.

AT THE COLONIAL

"In the Days of the Thundering Herd."

This great, big, vigorous depiction of pioneer days in the west is probably the most pretentious drama of the kind ever filmed and presented as it is, with a remarkable cast of the Seelig star players, it will hold charms innumerable for the picture-play lover who cares for productions which are in every sense extraordinary. Tom Mix, who is acknowledged to be the most fearless horseback ridcer in the screen world, has the dominant role in the story, having the able assistance of Bessie Eyton, who is also given ample opportunities to display her equestrian ability, and Wheeler Oakman.

Robeert Warwick, one of the most popular actors in the silent drama, and equally popular in the speaking drama, appears at the Colonial tomorrow in a brilliant screen adaptation of George Broadhurst's remarkaably successful play, "The Man of the Hour." This is another of the famous World Film company productions.

CONSULTS STATE INSPECTOR.

County Superintendent Gets Consent for Repair of Monroeville School.

For the purpose of reporting to the state inspector of buildings the agreement that had been reached between the contractors and the trustees and members of the advisory board of Monroe township regarding the Monroeville school which was recently condemned, D. O. McComb, county superintendent, was a visitor in Indianapolis Thursday. After receiving the consent of the state inspector the work of repairing the new building and putting it in proper condition will be started by the contractor and architects, both of whom have agreed to make all necessary repairs.

Mrs. Abbie Rothgeb went to New Haven Friday to attend the funeral of her cousin, Mrs. Eli Rothgeb.

Mizpah temple will have ladies' night March 26. The impression that tonight would be observed as ladies' night is erroneous.

ANNOUNCEMENT

CLEAR AS A BELL

IN introducing for the first time to the music loving public of Fort Wayne a reproducing instrument we realize this fact: Every new feature which adds to the tone quality, tone control, and reproduces the rendition of the artists with truer fidelity to original rendering will be welcomed and appreciated.

It is therefore quite a pleasure to offer to you now the

SONORA
PHONOGRAPH

The Sonora gives you not only the purest melody reproduced by any instrument but gives you the world's selections of all disk records. It plays them all with a beauty of tone that is exquisite, to say the least.

Its special new features such as its improved motor, its special adapting fixtures, its tone control without muffling tone quality, its automatic stop, etc., will be announced to you later. In the meantime come in and hear it. It speaks for itself better than we can. Prices range from $35 to $250.00.

DAVID WARFIELD IN "THE AUCTIONEER"

When the presentation of a play takes the audience from its surroundings and places everyone in an unfamiliar environment of the commonplace and keeps them so interested that the various scenes of the play seem to be actually lived as everything else is forgotten, then such a performance stands in an enviable niche by itself in histrionic art. And that was the effect upon the Fort Wayne audience that filled all available seats at the Majestic theater to see Mr. David Warfield play the comedy, "The Auctioneer," last evening. The play as presented by Mr. Warfield and a company of excellence and with a scenic equipment that is always found to the least detail in a Belasco production was in itself a combination of rich comedy and moments of tenderness and sympathy that were appealing and lasting in impression. It takes art and creative ability that means talent as well as hard work to make of the ordinary in humble surroundings that which everyone can recognize as art. To make a character stand out as a real, living being who for the time being is never anyone else is the way Mr. Warfield has made the public adore Simon Levi. It was true over a dozen years ago when Mr. Warfield first made the play notable and it is just as true today. It is said that Mr. Belasco has improved the play over its earlier production. Whether that could be recognized by one who saw the play during the years Mr. Warfield first made it so successful does not matter here. The people who were softened almost to tears by the charm of family devotion or who laughed the next moment at the equal delight of Simon Levi's down at the heels in luck left the theater last night with a sense of having taken a tonic, so invigorating was the performance mentally and stimulating in its delicious humor and pathos. There is no describing Mr. Warfield's portrayal of the role, without seeing the play more than once, so great is the amount of detail throughout the entire play. Neither can one entirely appreciate in one performance the hundred and one things that characterize the fine work of the whole company of whom the most notable members are Marie Bates as Mrs. Eagan, Harry Lewellyn as Mr. Leavitt and Harry Rogers as Meyer Cohen. What the audience did appreciate was the rare pleasure found in the entire performance.

The territory of seven nations joins that of the German empire.

BERNHARDT BESTOWS HER FAMOUS PLAY-BOOKS ON PROTEGE.

The "Divine Sarah" has postponed her American "farewell' for another year, but in her place comes Mme. Yorska trailing behind her the glory of long association with Bernhardt and the further distinction of being Bernhardt's protege.

Just before her recent operation Mme. Bernhardt sent Mme. Yorska a complete set of her prompt books so that if her illness terminated fatally the traditions of her plays would not be lost.

SERVICES AT THE SYNAGOGUE.

Services will be held at the synagogue Friday evening at 7:45 o'clock and the sermon topic will be, "Religion and Democracy." Sunday morning at 11:45 the rabbi will speak on "Current Topics."

"PLEASE PASS THE BREAD"

QUIT MEAT WHEN KIDNEYS BOTHER

Take a glass of Salts if your Back hurts or Bladder troubles you.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which excites the kidneys, they become over-worked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications.—Adv.

INTERNATIONAL SUNDAY SCHOOL LESSON

(By E. O. SELLERS, Acting Director of Sunday School Course, Moody Bible Institute, Chicago.)

LESSON FOR MARCH 14

SAUL GAINS HIS KINGDOM.

LESSON TEXT—I Samuel, chapter 11.
GOLDEN TEXT—He that is slow to anger is better than the mighty: and he that ruleth his spirit, than he that taketh a city.—Prov. 16:32.

In order to repay Israel's victory under Jepthah, Nahash the Ammonite demanded the right eye of those besieged in Jabesh in Gilead, knowing that the left eye would be hid by their shields and they would thus be incapable of warfare. For Israel to make any covenant with the Ammonites was contrary to God's commands (Ex. 23:32; Deut. 23:3).

I. The Cry of Jabesh, vv. 1-3. This event probably occurred about a month after the previous lesson. It was a proud, haughty demand made of these Israelites. Exhausted and hopeless, they had offered to become servants in order to live. So today we frequently find men willing to compromise with the world and the devil, who only hold them in derision and contempt (v. 2). Compromising Christians are always blind leaders of the blind (Matt. 15:14; 6:22). The demand of Nahash would also bring reproach upon Israel, yet this same king afterwards showed kindness to David (II Samuel 10:2). History records that Emperor Basil II actually sent an army of 14,850 sightless men back to the king of Bulgaria, who died of grief and horror.

II. The Conquest of Ammon, vv. 4-11. Nahash granted the request for a seven days' respite. Here was Saul's opportunity—wrongs to be righted and people to be saved. Saul had held his peace since being anointed by Samuel, employing his time in everyday toil and duties (v. 5), for the messengers did not find Saul at home idle. The tidings of this insult were told to the people who lifted up their voices and wept. (v. 4). The news of this threatened calamity reached Saul's ears and his conduct effectually put to silence those "worthless fellows" who despised him and had brought no presents at his anointing (10:27). Instead of tears Saul is moved to deeds. Like Cincinnatus and Israel Putnam, he left the plow to take up the sword. Saul did not, in his own strength, undertake to relieve Jabesh, for "the Spirit of God came upon him" (v. 6; see also Judges 3:10; 11:29; 13:25; Luke 24:49; Acts 10:38). This moved Saul to anger, not alone at such an evidence of cruelty, but more at the contempt Nahash had for God and his people. Saul associated himself with Samuel, the man of God, and summoned the nation of Israel to his side.

The Holy Spirit gave Saul clear assurance of a call from God, and he responded with unquestioned faith (Rom. 8:31). The people responded with great rapidity, for the fear of God came upon them also. We have the good news of a better deliverance from a more subtle foe to proclaim in the present age. They all resorted to Bezek, west of the Jordan. The messengers returned bearing a message having two meanings (v. 10), and that helped to keep Nahash ignorant of Saul's actions on the other side of the river. Dividing his army into companies Saul attacked the enemy "in the morning watch," and completely overwhelmed them and put them to rout. As the Ammonites had refused to show any mercy, they in turn were judged unworthy of mercy (v. 11, see also James 2:13; Matt. 7:2).

III. The Crowning of Saul, vv. 12-15. Saul's victory so impressed the people that they demanded to know of Samuel who it was that had refused him as king, desiring to put them to death. Saul showed his wisdom by not permitting such a course of action. Many today refuse God's divinely appointed king who will yet be glad to acknowledge him (Luke 19:27; Phil. 2:10). In the next place Saul did not claim credit for the victory for, said he, "The Lord hath wrought deliverance in Israel" (v. 13 R. V.). All real victories come from God (Ps. 44:4-8; I Cor. 15:10). This was the true kingly spirit. Saul reaped the reward of his humility, his forbearance, courage and activity in the loyalty and pride of the people. Samuel gladly shared in the success of Saul and led the people to Gilgal for the crowning ceremony. This was the place where Israel had first encamped under the leadership of Joshua and where the twelve stones from the river had been set up as a testimony to God's real presence and deliverance.

Saul had natural and physical characteristics calculated to make him a great and useful king—self-restraint, modesty, military invention and a capacity for leadership.

He was shrewd, patient and generous.

He thus stood on the threshold of his kingdom with the possibilities of untold usefulness and blessing.

We are "kings and priests unto God." He has ushered us into his kingdom. Power, usefulness, influence, helpfulness, victory over sin are before us. "Napoleon said that his nobility dated from Arcole and Marengo. May ours date from the victories of love over the evil within us and in the world." "This is the victory that overcometh the world, even our faith" (I John 5:4).

FOREIGN TRADE OF THE NATION IS BIG

Considerable Increases Are Shown at Various Ports of Entry.

Washington, D. C., March 12.—The volume of foreign commerce which passed through the various customs districts of the United States in the calendar year 1914 is indicated by the following memorandum prepared in the bureau of foreign and domestic commerce, department of commerce. Owing to the reorganization of the customs service, effective at the beginning of the fiscal year 1914, comparisons with earlier years are not available, but comparing December, 1914, with the corresponding period of the preceding year, it is known that considerable increases in exports occurred at the ports of New York, Galveston, New Orleans, Baltimore, Boston and Philadelphia in the closing months of the year.

New York, which does about 40 per cent. of the country's export business, handles practically all lines of merchandise. Galveston, second in point of export sales, handles chiefly cotton, cottonseed oil cake and meal, wheat, flour and rice. New Orleans is not only a great cotton market, but an important distributor of wheat, flour, mineral oil, lumber, meat products, cottonseed oil, oil cake, rice, and tobacco. Baltimore, fourth in value of exports, handles wheat and other grains, iron and steel, leaf tobacco, copper, and many lines of manufactures. Detroit, fifth largest exporting center, is an important seller of automobiles and carriages, hides, fruits, oils, lumber, iron and steel, meats and miscellaneous manufactures. Buffalo is a great shipper of iron products, coal and mineral oils. Boston exports chiefly leather manufactures, meats, printing paper and wheat. Philadelphia, which is the eighth port in point of exports, ships chiefly grains and flour, coal, leather, meat products, kerosene oil, and miscellaneous manufactures. San Francisco, ninth in export sales, is a leading exporter of fruits, salmon, cotton, iron and steel, and leather goods and ships largely of oils to the oriental countries. The district of Georgia, with headquarters at Savannah, exports a large quantity of cotton and cottonseed oil cake, and is the leading export market for naval stores. Seattle and Tacoma are important distributors of canned salmon, cotton, lumber, oil, grains and automobiles. Norfolk and Newport News are great coal shipping points. Tampa and other Florida points handle most of the phosphates and a considerable share of the naval stores, tobacco, and lumber exported. Port Arthur exports largely of cotton, cottonseed cake, wheat, and mineral oils and is the leading exporter of sulphur.

These are merely examples of the details obtainable in Table 6, "Exports by Articles from the Various Customs Districts," shortly to be issued by the above named bureau as a part of the annual report on "Commerce and Navigation of the United States."

OTTAWA GERMANS DEFEAT ST. PAUL

By Scant Five Points Visitors Demonstrate Their Superiority.

By a scant five points the Ottawa Germans again demonstrated their superiority over the local St. Paul quintet last night on the latter's floor. The Saints made great tries for a win and several times during the game came within striking distance of a tie, but the Dutchmen always managed to pull out of the hole with some high class team work and hold a five or six-point lead on the locals. Few fouls were called and the usual rough work of the visitors was almost eliminated. The locals also played a clean game and showed some real basketball throughout.

The first fifteen minutes of the game saw little scoring on either side, but just before the close of the period the Saints opened up and made a grand try for a tieup. The Germans, however, got a hustle on and soon pulled out of the hole and held the lead at the close 20 to 13.

The Lutherans opened the second period with a rush and came within an ace of a tie after some minutes of hard work, but the Dutchman refused to be beaten and again worked up a safe lead on the locals. From this point on it was nip and tuck with both teams but the visitors always managed to keep a safe distance away and held their lead for the rest of the game. The score at the close gave the visitors the victory 42 to 37.

"Red" Buescher and Gerberding were tied for first honors for scoring with seven goals apiece but every man on the floor registered at least once. Irmscher played a hard luck game at his position and the plucky little fellow had the red head to guard almost half the time, but at that he held down Buescher's successful tries for the basket to seven.

The lineup and score:

St. Paul, 37.		Ottawa, 42.
Irmscher	F.	Buescher
Gerberding	F.	C. Kersting
Trebra	C.	Hill
Kennedy	G.	A. Kersting
Dietrich	G.	Hipkins

Field goals—Irmscher, 1; Gerberding, 7; Trebra, 5; Kennedy, 2; Dietrich, 3; Buescher, 7; Kersting, 3; Hill, 4; A. Kersting, 6 Hipkins, 1. Free throws—Dietrich, 1. Referee—Scott.

NOTES OF BASKETBALL.

In an exceedingly rough basketball game Thursday night, during which the spectators were continuously crying "football," and similar remarks, the Bethany Athletics defeated the Exenda basketball team on the latter's floor by a score of 23 to 15. The lineups and scores:

Bethany—Carver, F.; Misfeller, F.; Gay, C.; Wisebecker, G.; Ortlieb, G.; Burton.

Exendas—Heck, F.; Siebold, F.; Sauerwine-Stocks, C.; Gidley, G.; Fruechte, G.

Field goals—Gay, 6; Carver, 2; Wisebecker, 1; Sauerwine, 2; Heck, 2; Siebold, 1; Fruechte, 1. Free throws—Gay, 5; Heck, 2; Fruechte, 1.

In the preliminary the St. John Reformed girls were defeated by the St. Paul's girls in an interesting contest by a score of 18 to 25.

* * *

The Precious Blood Maroons defeated the Bachelors last night in a junior league contest by a score of 22 to 18. The lineups and scores were as follows:

Maroons—E. Vonderhaar and B. Hueber, forwards; O. Vonderhaar, center; Pottkotter and C. Hueber, guards.

Bachelors—Doriot and Beck, forwards; Centlivre, center; Clifford and DeWald, guards.

Field goals—E. Vonderhaar, 2; B. Hueber, 1; O. Vonderhaar, 7; C. Hueber, 1; Doriot, 4; Beck, 1; Centlivre, 3.

Foul goals—Doriot, 2; B. Hueber, 1.

* * *

The Keystones defeated the Senators last night by a score of 20 to 5 and the Gar Creek team defeated the Miamis by a score of 54 to 2.

HEIDER & CO.,
Makers of the Best There is in Tailoring.
113 E. WAYNE ST.

STEWART ABLE TO GO WITH ANY OF CLASS

Fort Wayne Lad's Defeat of Harlem Tommy Murphy Qualifies Him.

Hal Stewart, the Fort Wayne boxer, has met and defeated some of the best men that ornament his class during the past year. His recent showing at Toledo against Harlem Tommy Murphy, one of the most seasoned fighters and capable ring generals, stamps Stewart as one of the best 133-pounders in the world, and thoroughly qualifies him with the right to a go with Freddie Welsh, the world's title holder, for the lightweight division, with whom Stewart will mill ten rounds at the premier boxing show in the Majestic theater in Fort Wayne the night of March 17.

In the Toledo mixup a few days ago Stewart laid his stinging gloves on "Harlem Tommy" not once or twice in flukes, but often, and any fighter who can get to that accomplished veteran can hit any lightweight in the game, not excepting Freddie Welsh, for in the Toledo bout Murphy fought a wonderful defensive battle but his guard was not complete enough to prevent a Stewart glove from crashing through to the mark occasionally. He clipped Murphy squarely on the jaw three times in one round and should have put him away.

Stewart's shoulders are those of a welterweight, and it was a surprise when Murphy developed the fact that he could take the Stewart punch without going under. Of course Murphy has assimilated numerous and divers punches in his time and has gone under mighty few times. Murphy's left was all he had, and in only one round, the very first, did he manage to drive that home enough to win him a margin. The fact that Stewart was able to come back after losing the first round indicates the quality of his fighting heart.

RITCHIE OUTPOINTS WELSH.

Showing Made by the Champion Was Very Disappointing.

New York, March 12.—Willie Ritchie, of San Francisco, former world's champion lightweight, outfought and outpointed Freddie Welsh, of England, the present title holder, in every round of a fast ten-round bout here last night.

All through the fight Ritchie did the forcing while Welsh spoiled some of his good work by holding in several rounds. The champion's showing was very disappointing to his many followers, who, confident of his ability to repeat his two previous victories over Ritchie, bet freely at odds of 7 to 5 on the Englishman against the Californian.

Welsh's footwork was very clever and enabled him to avoid a good deal of punishment in the fifth round and in the sixth the British boxer showed to better advantage as he landed on the body and head several times, but throughout the bout he failed to take the lead away from the Californian.

Ritchie drove right and left to the body in the seventh and Welsh kept dancing away, to hoots from spectators and cries of "why don't you fight?" During the latter part of this round, Ritchie was chasing Welsh all over the ring.

Ritchie kept up the rushing work and in the ninth and tenth rounds carried the fight all the way to the champion, who never was able to gain the slightest advantage and failed to place a round to his credit in the entire bout. Neither man showed any marks of the bloodless battle.

WILL PLAY SOUTH WHITLEY.

High Girls Have Arranged for Game Here Saturday.

The girls' team of Fort Wayne high school have arranged for a game to be played with the girls' team of South Whitley high at the James Smart gymnasium Saturday evening.

The girls of the South Whitley team are said to be clever and fast and a good game is promised. The girls of the Fort Wayne high are still smarting under the defeat administered at the last game they played and for that reason are going to try and take their vengeance out on the girls from South Whitley.

FREE BASEBALL, AND REG'LAR LEAGUE STUFF, TOO—HOW DOES THAT STRIKE YOU FANS?

A KNOTHOLE ISN'T WORTH A DURN IN THE DECATUR (ILL). BASEBALL PARK'S FENCE—AND A KID DOESN'T HAVE TO CLIMB OVER THE FENCE.

(By Hugh S. Fullerton).

Here's a town brave enough to attempt free baseball. And league baseball at that.

Decatur, Ill., is going to let the fans in free—men, women, boys, everybody—to see its Three-I league team play ball.

The idea would mean the biggest boom baseball ever has had—and which, combined with the Cleveland amateur plan, would make baseball more popular than it ever has been and perhaps re-establish it upon a sound basis.

Decatur has been maintaining a Three-I league club, generally at a loss, and with an annual report of discouragement and failure.

Now the backers of the club want free baseball—to play out the Three-I league schedule without charging admission save on holidays. They are trying to raise a subscription fund to carry the club through the coming year.

It is planned to play the regular games at home, throwing open the gates to all respectable persons, and to appeal to the fans to attend the holiday games paying double admission fees on those days.

Decatur probably draws 40,000 paid admissions during a season, playing 72 home games. The idea now is to appeal to the patriotism of the fans and ask them to turn out on Decoration day, July 4, Labor day and the local holidays. One would think that any fan who had been entertained free of charge at perhaps a dozen games would strain a point to attend on the pay days and repay the club in part.

If the holiday crowds reach an average of 10,000 for the three big holidays of the season at the larger price the club would be ahead.

The big gain would be in attracting to the free games the youngsters who are to be the next generation of baseball fans and to make baseball a sort of municipal enterprise in which all citizens will have pride.

The response to the proposal of the franchise owners is said to be hearty. Business men and others believe that it will be of immense benefit to the community and it is more than probable that Decatur will have the honor of having the first municipally owned professional baseball team.

S. G. Shaffer, of Bluffton, re-enlisted for the coast artillery in Uncle Sam's army Thursday, at the Fort Wayne recruiting station. Shaffer has already served three enlistments and only recently returned from the Philippine Islands.

The British army dates, as a standing force, from the restoration of Charles II, in 1660.

ST. PAUL READY TO MEET BLUFFTON FIVE

Everything is in readiness for the big game tonight between the Bluffton independents and St. Paul's basketball team. Both aggregations are confident of winning and a battle royal is anticipated. The St. Paul's are fully aware of the big job before them and they realize that if they win they must put forth their best efforts right from the start. The Bluffton independents have been defeated but one game and that was when they met the husky Zanesville five. The game will be played at St. Patrick's Lyceum.

WILL PLAY DEFIANCE.

Manager Fischer, of Concordia College, Closes Deal for Game.

Manager Fischer, of the Concordia college basketball team, has arranged for a game with the Defiance college five to be played at Concordia gymnasium on Saturday night, March 20. The Defiance team defeated Concordia about a year ago.

SALE OF SEATS BEGIN.

The sale of seats for the game between the Em-roes of Indianapolis and the Zanesville basketball team, to be played at Concordia college March 19, commenced Friday. A week later Zanesville will meet the fast Ottawa five.

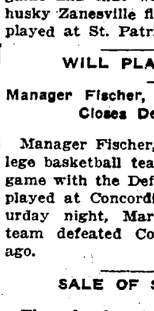
The Funniest Play I Ever Saw in Baseball.

(By John J. Evers, Captain and Second Baseman of the Boston Braves).

What I consider the funniest things I ever saw on a baseball field happened one right after the other in an exhibition game we played at Waterbury, Conn., one Sunday when I was a member of the Chicago Cubs.



Evers

Everyone had been in good humor after cleaning up a series at Boston. We were kids out for a lark and the cutting up continued all through the game. Heine Zimmerman was playing short and acting the fool and we were all kidding him and keeping him going.

It was along in the fifth or sixth inning when the fun was at its heighth that Art Nichols, playing with Waterbury, hit a ball a mile a minute straight at Heine. The ball was hit with such force that it knocked his hands apart, broke through his legs and rolled about eight feet back of him. There was a runner coming down from first and a chance to tie up the score.

Everyone let out a yell of delight when the ball handcuffed Heine. He bent over, and, without trying to straighten up, took two hops backward, reached between his legs, grabbed the ball and threw it between his legs to me on second base and started the funniest double play I ever saw.

Just minute later Jimmy Slagle, in center field, started after a long fly. He had been reaching into his hip pocket to get his chewing tobacco and the hand was caught tight. He jerked and tugged but the hand would not come out and, still running backward, he [illegible]

LENGTH OF SEASON IS STILL UNDECIDED

The schedule committee of the Central league completed its work Thursday, adjourning without deciding the length of the season. The play chart, however, was so arranged that additional games could be played if it is found to be advisable.

In not deciding the length of the season the committee followed the same action as is being taken in the bigger organizations. The schedule committee did not deem it wise to run the Central league season after the other leagues have closed.

DEMAND SUNDAY CLOSING.

New York, March 11.—The Baptist ministers' conference of New York and vicinity, at its meeting here yesterday, adopted a resolution declaring that the neglect of statutes affecting the peace and good order of the city on Sundays "has become unendurable, and is not in accord with the pre-election promises made by the mayor and other officials."

The ministers demanded that the mayor and police commissioner enforce the Sunday closing clauses of the liquor tax laws and said that, in event of continued neglect, they "encouraged civic and temperance organizations to unite in steps required to impeach the officials responsible."

Albert Hennington has received word from his parents in Holstein, Germany, telling of another cousin being killed in battle. This makes the fourth cousin who has been killed during the present war.

DOOIN AND LEACH WILL HELP HERZOG

Old Brains and Young Brawn Combination for Cincinnati Reds.

Cincinnati, March 12.—"Old brains and young brawn"—the same being the combination that Manager Charles Herzog will apply to the 1915 Reds in the expectation of making a better showing than last year.

It must be said that Herzog's calm confidence consists of something more than a glimmer. Not many ball clubs, if any, have been so thoroughly torn up between seasons as the Reds—present makeup contracted with that sorry squad which finished last in -914.

A score of players have been discarded or lost to the club through the activity of the Feds. Twenty-six men, including Herzog, reported at the spring training camp in Alexandria, La.

Of these ten are pitchers. Four others are catchers. That leaves an even dozen from which an infield and outfield may be drawn.

Herzog is very sure that he has turned the corner with his brigade now that he has signed Tommy Leach, Charley Dooin, late of the Phillies, and Ivy Wingo, the lanky Georgian, who was lost to the Cardinals because he would not play under Miller Huggins.

Leach and Dooin will fill a lack in the department of experience, keenly felt last season. Tommy will lead off in the batting order and Dooin, promises Herzog, will catch most of the games.

Wingo probably will be played regularly in the outer precincts because of his steady noodle and ability with the stick. The club has need of a hitting first baseman. Mollowitz will develop into a corking good man, Herzog believes, but his batting eye is lamentably weak.

Herzog will play short again, and Heine Groh, second baseman last year may go to third. The possession of the third station will be fought out between Von Kolnitz and Ivan Olson, the former Indian, or either may take Groh's place at second.

With Tommy Leach and Wingo backing 'em up regularly in the suburbs, and Twombly, Killifer and Griffith alternating, the outfield really takes on a semblance of something akin to hope.

"I have succeeded in one thing," says Herzog. "We'll have the spirit, and we'll have young fellows who aren't averse to taking advice from players older in the game."

Of the young blood which comes to the Reds practically untested, one of the most promising samples is C. R. Brown, from the Southern association. He led that organization last season.

Knight, from Ogden, also a pitcher, is rated a steady youngster.

Griffith, who played with Indianapolis in the American association last year, is a good hitter, as also is Sheehan, contributed by Terre Haute.

Of course, the Reds need more pitching material of class. Douglass, Schneider, Ames and Lear are being looked to as the chief performers; Sayre, an eastern college prospect, comes with a brightly burnished reputation. It looks as though Rube Benton would be traded for Wingo, that matter never having been settled.

"With Tommy Leach directing the outfield and Dooin in charge behind the bat, I can see where I shall have invaluable help in creating a machine which will give an accounting of itself," Herzog says. "Watch it."

In attempting to crank an automobile Thursday, Edward Speer, 2207 Gay street, suffered a fracture of his right arm between the wrist and elbow when it "kicked." Speer is a repairman for the Shryock Automobile company.

What's the Matter With Day to Honor Poor Lo?

Red Fox James

Poor Lo believes he's entitled to a holiday all his own and he has sent one of the most prominent Indians in the west, Red Fox James, to Washington to see the "Great Father" about it.

Red Fox James, who is a Crow Indian and a graduate of Carlisle Indian school, rode all the way from Montana to Washington on horseback recently to present President Wilson with a list of indorsements to the plan to create a new holiday on which Americans would pay honor to the Indian.

FRECKLES

February and March Worst Months for This Trouble—How to Remove Easily.

There's a reason why nearly everybody freckles in February and March, but happily there is also a remedy for these ugly blemishes, and no one need stay freckled.

Simply get an ounce of othine, double strength, from Meyer Bros. Co. or any druggist and apply a little of it night and morning, and in a few days you should see that even the worst freckles have begun to disappear, while the light ones have vanished entirely. Now is the time to rid yourself of freckles, for if not removed now they may stay all Summer, and spoil an otherwise beautiful complexion. Your money back if othine fails.—Adv.

HODSON TO BE RETURNED.

Young Forger Will Be Brought Back to Indiana.

Pittsburg, March 12.—Orville Hodson, the young forger, whose home is near Marion, Ind., will be returned to the authorities in Indiana, who want him in connection with a number of criminal operations, including forgery and the passage of bad checks. H. C. Webster, of Indianapolis, superintendent of the protective department of the Indiana Bankers' association, came to Pittsburg today and shortly afterward it was announced that Hodson would be returned.

PRETTY YOUNG WIFE DESERTS AGED LOVER

Once Said She Rather Be Old Man's Darling Than Young Man's Slave.

Pittsburg, Pa., March 12.—Finding the three generation barrier insurmountable, Edward B. Alsop, eighty years old, a wealthy resident of this city who also maintains a home in Washington, has recently begun divorce proceedings against his beautiful young wife, Effie Pope Alsop. The suit asking for the annulment of the ties which bind him to his wife, who is twenty-three years old, was filed before Judge Brown, in common pleas court. He charges his wife with desertion. When seen after the action was filed Mr. Alsop refused to make any comments concerning his shattered romance. He had no complaints to make regarding the treatment he received from his wife.

Mr. and Mrs. Alsop separated more than a year ago, the wife suddenly leaving Mr. Alsop's home in Washington. The filing of the divorce action is the culmination of a romance which had its inception eight years ago at Lake Toxoway, N. C., when they were stopping at the quiet resort. Effie Pope Hill, then but fourteen years old, was romping about the lawn of the hotel with a sunbonnet and in calico garb. Mr. Alsop soon became attracted by the girl's unusual charm and beauty, and began paying her attention. His faithful devotion to the pretty girl earned him the sobriquet of "Effie's Big Newfoundland Dog." He began paying playful compliments and showering presents upon the girl, and five years later the friends of Mr. Alsop were shocked when his wedding to the young woman, then but nineteen years old, was announced.

His young wife has declared that she had been brought up to believe that there was golden truth in the maxim, "It is better to be an old man's darling than a young man's slave," but that there soon was an awakening.

Mr. Alsop alleges that he did everything to make his young wife happy, but in vain—she found herself fretting and discontented in the atmosphere of the early '40s. She asserted that Mr. Alsop was parsimonious with her after their marriage and that she found her existence fettered because she could not mingle with folks many years older than her, as were the friends of her husband.

Saturday Winds Up This Sale

One of the greatest of its kind in our history—Great in the newness of the goods, great in the lowness of the prices and greater yet in the crowds that have attended—**And Saturday will be greatest**

FRANK DRY GOODS COMPANY

FIRE CAUSES $15 LOSS.

The city fire department was called Friday morning at 10 o'clock to Krudop's planing mills at the corner of Hayden and Francis streets, where sparks from the chimney had set fire to the roof of the building. The loss amounted to $15.

RAY RELEASED ON BOND.

Will Be Arraigned March 17 With Others in Fraud Case.

Brazil, Ind., March 11.—George M. Ray, of Indianapolis, arrested on a charge of presenting fraudulent claims in Jackson township, was released from the Clay county jail on $5,000 bond. The bond was provided by the Southern Surety company through an agent here. Ray left immediately for Indianapolis.

Orville Hendricks expected that his brother would come from Indianapolis in in effort to obtain bond for him. Judge J. M. Rawley has set March 17 as the date for the arraignment of the men. It is rumored that an affidavit has been prepared against James A. Muncie, former trustee, for his arrest on charges in connection with the alleged fraudulent claims.

British troops serving in India are paid by the Indian government.

WIFE DESERTER GIVES BOND.

W. H. Tatner, arrested several days ago when his deserted wife tricked him within reach of a policeman who held a warrant for his arrest, was given a hearing in the city court Friday on a charge of wife desertion. He promised to pay his wife $5 a week for support and his case was continued until May 17. His mother furnished bond of $500 for his release.

Last week of our great sale. See in our north window, on Court street, Twin Four Poster Mahogany Beds worth $100 for $50, for the pair, or $25 for one—a rare bargain. Foster's.

There are five persons to each house on an average in Ireland.

Look to Wolf & Dessauer's for the Newest Apparel

Women who look to this store for the finest showing of the new things, will, as usual, not look in vain. Now, more than ever, we are ready with a superb gathering of those modes which have passed Fashion's censorship. There's no experiment in making selections at Wolf & Dessauer's, for nothing is shown but what is absolutely authentic. Every garment is representative a type—not of what may be good—but what will be good—correct in every particular.

A Special Showing of Suits at
$18.75 $19.75 $25.00

The Suits in this special lot, bought under unusual price conditions, would be wonderful values at $25.00 to $29.75. 'Twas a bit of good fortune and clever manipulation that we are going to pass on to women who appreciate style and value. Some of the smarter effects of the season are included. They go on Special Sale at **$18.75, $19.75 and $25.00.**

New Dresses

Unusual interest is shown in the styles of Dresses this Spring. The variety is particularly board—so broad that women must see them to appreciate their wonderful scope.

THE MODELS IN SILK are particularly entrancing. Created of such popular and graceful materials as Crepes, Meteors, Soft Taffetas, Gros de Londres and Grosgrains; a beautiful new collection was received just yesterday and will be seen for the first time today. Ranging upward to as high as one cares to go, but an especially pleasing collection; on special display at

$25 and $10.98

Smart Skirts

The change to the fuller width, the many new innovations and novelties introduced this season, make the skirts most interesting, indeed. The new wide flares, the cuff hems, hunting pockets, etc., give variety and distinction.

A MOST ATTRACTIVE VARIETY of Skirts just received the past few days—Serges, Golfines, Coverts, Cravenettes, Gaberdines, Vigereaux, Shepherd Checks, Taffetas and Failles. Splendid assortment of brand new models at only

$5.95

Paristyle Hair Goods

While a great amount of hair is not necessary, there are very few women who do not require a Small Switch or possibly a Transformation to dress her hair in keeping with the present fashions.

Nothing fills this need quite so satisfactorily as the famous Paristyle Hair Goods. They are so soft and fluffy, so fine in quality, and match one's own hair so perfectly, that their use is not detected.

Specials for Saturday

22-inch Wavy Switches, $1.29
24-inch Wavy Switches, $1.49
18-inch Transformations, $1.00

—Second Floor.

New White Goods Specials for Saturday

EILEEN DIMITY—A fine Egyptian cotton weave, very sheer; regular 35c quality; Special..... **21c**

FRENCH EMBROIDERED BATISTE—Marquisettes and linens; crisp, new weaves and delightful patterns; regular $1.50 values; Special **$1.00**

Our Famous $5, $7.50 $10 Hats are better than ever

And hundreds of them, fresh from our workrooms, are ready for today. Scores of sailors and turbans and the little Cornered Hats so fashionable this Spring; plenty of large Hats, a good proportion of the effective transparent brims, and an excellent variety of the highly favored Quill-trimmed Hats, exceptional in value and in the unusual and distinctive posing of the quills. See them today and Saturday—there are HUNDREDS of them, all new, fresh and BETTER THAN EVER in every sense of the word.

A Special Showing Saturday of Semi-Dress and Tailored Hats at

New Spring Models **$5.00** Remarkable Values

These have been selected from a great number of models for tomorrow's selling. All of the advanced Spring and Summer shapes are represented—sailors, turbans, tricornes, etc.

Flowers, ribbons, ostrich and other fancy novelties are used for trimmings. A wide array of colored models, as well as plain black are among this wonderful collection of Spring Hats.

It Would Take a Whole Page To Tell of the New Blouses

—And then their beauty could not be described! For there's such diversity—such variation of style, that nothing but a personal inspection can do them justice.

The New Easter Blouse Is of the Filmy Sort

—Chiffon in the most exquisite tints, one color over another, or flesh pink Chiffon with cream colored, shadow lace; delicate Georgette Crepes, hand-embroidered or with tiny tucks; gold colored silk laces and nets; rich blues and black—all soft and filmy and appealing in their wonderful beauty, and an important accessory to the Easter Suit.

Some of the Very Newest Things

Semi-tailored blouses of Crepe de Chines in white, flesh color, pink, peach—lovelier tints were never shown; plainly designed with dozens of variations in the matter of buttons and corded loop fastenings; "Candy" striped Tub Silk Shirts with practical two-way collars, crisp taffetas in dashing checks, with black ties; and dozens and dozens of the most charming lingerie blouses—but that's another story.

The Country Club Sport Blouses

They'll not be worn yet, as these stunning blouses are made to wear with crisp white wash skirts. But every woman in town who wants to be correct, will have at least one Country Club blouse ready for Summer. They're made of colored linens, in a model best described as Norfolk, with two wide pleats in front and back, broad belt, and large pearl buttons for trimming. See them—they're the smartest things of the season!

WHY THESE 25c HANDKERCHIEFS ARE 18c

—Is because the line of initials is broken. Your letter may not be among them—but if it is, you'll find a bargain—regular 25c linen Handkerchief for **18c**

Both Men's and Women's Sizes Are Included.

Helps for Housecleaning

LIQUID VENEER OUTFITS—Consisting of one floor polisher and a regular $1.00 size bottle of liquid veneer; $1.50 value for **98c.**

WALL PAPER CLEANER—The famous Smoky City Wall Paper Cleaner makes soiled, grimy paper look like new; **2 cans, 15c.**

H. & H. SOAP—For cleaning carpets, rugs, draperies, etc.; regular 15c; for two days only, **9c cake.**

6-5-4 POLISH—For stoves, registers, stove pipe, etc.; also splendid for painting screens; special **15c.**

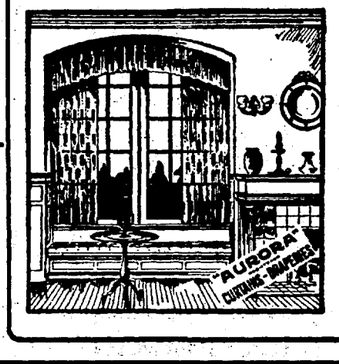
The Drapery Section Is All Abloom

It is with pleasure that we announce the arrival of drapery fabrics—new and exclusive. Among the new shades are dull greens, pronounced yellow, cedar, prune, sand, straw shades, to be used in combination with painted walls and woodwork. For those who are fortunate in possessing walnut furnitureare the new rose, growth green and soft blue toned fabrics that lend themselves in perfect harmony for drapery purposes.

Cretonnes of both domestic and foreign weave, in cotton and linen. Among the strikingly beautiful patterns are the bird designs, new colonial and floral effects—adapted for sun-parlor, living room, dining room and bed rooms. Many of the patterns are particularly appropriate for furniture coverings. 32 to 50 inches wide; priced at **25c to $8.00 a yard.**

Sunfast Overdrapes—Kapock Silk, Aurora, Diana and Scotch Madras, any one of which is desirable for summer hangings. We guarantee these fabrics Sunfast in all shades of green, rose, brown, blue and gold. 50 inches wide; **65c to $5.00 a yard.**

For Upholstering Furniture are charming new effects in cotton and wool tapestries; patterns and colorings suitable for furniture for any room in the house. 50 inches wide; **$2.50 to $10.00** a yard. —Third Floor



Spring Coats for Children

Dressy models without fussiness—quaint models in short waisted Empire style and low belt effects, of serge, taffeta and checks; solid colors of Atlantic blue, tan and black; also smart mixtures; sizes 2 to 14 years; priced at

$2.25 to $ 10.00

Captivating Every Day Wash Dresses

Made with plaid skirts and white waists, with double belt effect, or attractive little models of striped and plaid ginghams of splendid quality—very practical for school wear, but unusually good looking for all that. Sizes for children from 2 to 14 years. Priced accordingly from

$1.00 to $3.95

APPALLING MESS OF BIDS TO UNRAVEL

Proposals for Paving of Eight Streets Are Complex.

With something better than 400 kinks and angles to the proposals received Thursday night by the board of works for paving eight streets, that body is trying to find a nice place upon which to grab hold of the job and hold on until it is finished. On all of the streets proposals were received for several kinds of material and several sorts of specifications. To go through all this and determine the best proposal in each case is a huge task and the board will require some days in which to get through with it. On Harmer street, for instance, the different proposals numbered fifty-nine. This is the largest number, but the others approximate it. The board entered preliminary orders for brick on four streets and asphalt on four streets. The bids for asphalt, all of which were submitted by the Grace Construction company, were higher than last year's bids, a fact that was unexpected. The Grace company, which heretofore for five years has bid only on Trinidad asphalt, included Mexico and Texas asphalts in its offerings of material, the latter three kinds being under Trinidad prices [illegible] A. B. C company bid on brick and concrete, the Brooks Construction company and George H. Krudop on brick. Bids were received on the following streets, the preliminary selection of material being given: Harmer, Liberty to Hayden, brick; Smith, Wallace to Pontiac, asphalt; Warsaw, Lasselle to Pontiac, asphalt; Taylor, Fairfield to Broadway, brick; Savilla avenue, Broadway to Indiana, asphalt; Jones, College to Nelson, brick; Wilt, Broadway to Nelson, brick, and Boone, Cherry to Watkins, asphalt.

The board ordered the engineering department to prepare plans for paving State street, St. Joe river to Florida drive; Rockhill street, Jefferson to Lavina; Hoagland avenue, DeWald to Leith; Begue street, Liberty to Wayne, and Murray street, Calhoun to Lafayette.

Resolutions were adopted and specifications approved for four local sewers, two in the south side and two in Lakeside, and bids were received for furnishing the waterworks department with hose.

PUMPING OLD LAKESIDE WELL.

One of the city fire engines is making a test of the capacity of an old well on the west side of Delta lake in Lakeside, the purpose being to ascertain if it will supply enuogh water for Detla lake and the lagoons in Lakeside park. If the test is favorable an electrically driven pump will be installed by the park board. The well was put down many years ago by the Fort Wayne Land and Improvement company whn the development of Lakeside began. It is 259 feet deep.

TWO MORE COMFORT STATIONS.

BIG TOURNAMENT UNDER WAY.

Fourteen High School Teams in Play at Bloomington.

Bloomington, Ind., March 12.—Before one of the largest crowds ever assembled at Indiana university, the fifth Indiana High school basket ball tournament got an auspicious start here this afternoon. Fourteen teams anxiously awaited the whistle which started the first game at 1 o'clock between Rochester and Crawfordsville, the other games today being due to follow at intervals of one hour until the first rounds are played off.

As the auctioneer says,

SPECIAL TRAIN TO BE RUN BY PURDUE

Series of Lectures by Experts on Proper Dairy Feeding.

Announcement was made Friday that from March 22 to 27 the agricultural extension department of Purdue university would conduct for the first time a train over the various traction lines of the state for a series of lectures on dairy feeding.

The schedule for the towns in northeastern Indiana are as follows: Monday, March 22—Colburn, 9 a. m.; Burrows, 10:45 a. m.; Lewisburg, 1:00 p. m.; Boyd Park, 2:45 p. m.; Wabash night meeting at 7:30. Tuesday, March 23—Andrews, 9:00 a. m.; Roanoke, 10:45 a. m.; Yoder, 1:00 p. m.; Kingsland, 2:45 p. m.; Bluffton, night meeting at 7:30.

The following subjects will be considered in the lectures to be given by authorities: "Feeding Dairy Cattle," which will deal with the problems of both winter and summer feeding of dairy cows and how to get the largest production at the least cost, and "Calf Feeding," pointing out the routine management of the young calf and the best method of feeding. In localities where [illegible] will be [illegible]

NON-ADVERTISER IS HIT BY DECISION

Missouri Court Rules He Has No Right to Reward of Merchant Who Does.

Springfield, Mo., March 11.—A merchant who never advertises in the newspapers is not entitled to reap the rewards of the merchant who does, Judge John S. Farrington held in an opinion handed down in the Springfield court of appeals in the suit of the Baum Mercantile company against Sam Levin and his clerks, rival concerns in Joplin.

The Baum company sought a permanent writ by the court, restraining Levin and his clerks from standing in front of the Levin store and luring into the store customers who were on their way to the Baum store as a result of reading Baum's advertisements in the Joplin newspapers.

It is alleged by the plaintiff firm that Levin, who did not advertise, instructed his clerks to tell customers that they were in the Baum store if they asked.

It also was alleged that Levin dressed [illegible]

LOCAL SOCIETY MAY PRINT ITS OWN SEALS

Believe State Anti-Tuberculosis Society Demands Too Much.

That the Fort Wayne Anti-Tuberculosis society will use its own seals next fall instead of getting them from the state association and dividing the proceeds seems now a certainty unless the officials of the state organization agree to reduce the percent. demanded from the local sales.

When the final settlement was made with the state society at the close of the last campaign $268 was sent to Indianapolis and $2,000 went to the treasury of the Fort Wayne society. Members of the local organization feel that 25 per cent. is too much and for that reason will probably use their own seals.

The Fort Wayne society also has demanded that societies be organized in the smaller towns. As a result Mr. Van Barkan, representing the national anti-tuberculosis society, was a recent visitor in Fort Wayne consulting with officials of the Fort Wayne society. He is now in Indianapolis and before he returns east will assist in the organization of a number of societies throughout the state.

BREATH OF SPRING FELT BY COWBOYS

They Write Joint Note Asking Letters from Eastern Girls.

Flint, Mich., March 11—Perhaps spring is already sending her warm breath through the fastnesses of Juniper mountain, out in Idaho, for out of that part of the "wild and woolly west' has come the plea of three cowboys for mates.

The lovelorn cow punchers have sent a local newspaper a communication asking that the following epistle be printed:

Three young cow punchers in the Juniper mountain would like to correspond with eastern girls. Jas. Cross hight 5-10, wt. 185, age 29, complection light, eyes blue. Hawley Corbett, hight 5-7, wt. 160, age 27, complection light, eyes blue. G. R. Wolcott, hight 5-11, wt. 175, age 28, complection neither light nor dark, just between; eyes blue. Would like to correspond with some jolly girls, as we are the real cowboys. Jas. will marrie if he can.

That the place where the three men send their business [illegible] letter from is an ideal place for bachelors and cowboys is [illegible]

The Last Two Days of the Great Farewell Sale of

THE BUCKEYE HATTERS

Is here, only two days more. The doors close on Saturday night for the last time when we bid the people of Fort Wayne and vicinity farewell, but now and until the last minute of this greatest of all sales which ends on Saturday night.

Watson says sell the goods no matter what the loss, just sell it. From now on the cutting and slashing of prices will be tremendous. Buy your merchandise now, don't wait, or you will be too late. Never again will you have this opportunity to get men's furnishings and hats for almost nothing.

HAS TWO EX-WIVES AND CHILD BY EACH

Robert Fuellgraff Fails to Support Either and is in Trouble.

After Judge Kerr, in the city court Friday morning had taken some testimony and burrowed a bit into the marital affairs of Robert Fuellgraff, charged with child neglect, he took but a short minute to send the man to the circuit court and fixed his bond at $700. It was developed that Fuellgraff had been twice married and twice divorced in the last twelve years and that by each wife he has a child and has been supporting neither, though he admitted he makes $18 a week. The first Mrs. Fuellgraff filed the affidavit upon which he was arrested, charging neglect of a son aged ten years. It was shown that from the time of the divorce in 1908, he had contributed just $10 for support of the boy—$5 this month and $5 last month, although when the decree was given his wife he was ordered to pay $6 a month for the child's maintenance. Judge Kerr figured that he was now in arrears something like $500. It was brought out that Mrs. Fuellgraff, No. 1, did not know until recently that her former husband was under orders of court to pay her $6 monthly for their son. On the stand Fuellgraff admitted that since his first wife procured a divorce he had been remarried and again divorced and that a child by his second wife had been adopted and was being supported by others. He begged for a chance and promised to make up all his delinquent payments to his first wife, Mrs. Mary Fuellgraff, of 324 West Butler street, who stated that she is at work for the support of herself and son. Judge Kerr, however, decided the case was one that ought to be determined in the circuit court. Fuellgraff was arrested in Chicago and was brought here by Detective Sergeant Martin E. Rundell.

Hit Him With a Brick.

Sam Ray and Jim Williams, two Afro-American citizens, had a merry row at their rooming house Thursday night over a matter of 40 cents that Ray had given Williams with which to pay room rent and which Williams converted and appropriated to his own use. Williams biffed Ray in the face and Ray went outside and got a brick with which he beaned Williams, slicing open his scalp nicely. Both men were arrested by Officer Madden. The attendance of a surgeon was necessary to close up the wound in Williams' scalp. Ray was fined $10 and costs on a charge of assault and battery and went to jail.

Dynamiter Again Locked Up.

George Chapman, the aged Bloomingdale man, who caused a sensation a month ago by going home with a stick of dynamite and theatening to blow his family and an objectionable boarder to kingdom come, was released from jail after doing thirty days on the old charge and was immediately rearrested on a surety of peace warrant sworn out by his wife, who is in fear of him. He was continued until next Monday and went back to jail in default of $500 bond.

Other City Court Cases.

Jim Mosher came over from Columbia City, got drunk, sought refuge in the Nickel Plate depot and was pinched by Officer Paul. He was fined $1 and costs.

The case of Flora Thompson, drunk, was continued indefinitely, after having been pending for some time.

The case of George Durbin, charged with wife desertion, was continued until March 24. He has defaulted appearance and has been ordered arrested and brought in.

The vinegar of Arabia is said to be superior to that of any other country.

CANNOT VISIT OWN FARM.

Marshall Unable to Inspect Place He Has Never Seen.

Goshen, Ind., March 12.—Although he is owner of a 100-acre farm in York township, Elkhart county, about three miles north of Middlebury, on the White Pigeon road, Thomas R. Marshall, vice president, has never seen the property. It came to him through a trade made by his agents in Columbia City. A Farm Betterment club picnic is to be held at the George Gilber farm, which is not far from the Marshall place, June 10, and the committee on speaker forwarded to the vice president an invitation to be present and deliver the chief address.

The vice president in acknowledging the invitation, explained that at the time the picnic is held he will be with Mrs. Marshall, visiting her parents in Phoenix, Ariz., and that it will, therefore, be impossible for him to accept. H. J. Leer is tenant on the Marshall farm and when a baby boy recently came to the Leer household it was christened Thomas Marshall Leer. The vice president sent his namesake a silver cup.

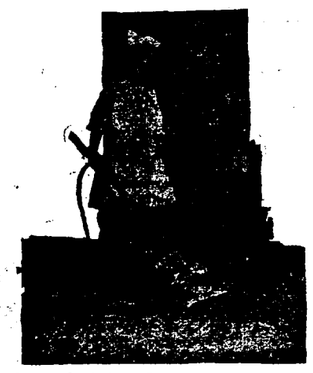
The barometer was invented in 1643. Gibraltar is less than two square miles in area.

DISPATCH DEN OF SNAKES.

Ohio Farmers Kill More Than 125 Reptiles in One Hole.

Findley, Ohio, March 12.—James Bookwalter, an Amanda township farmer, saw enough snakes Tuesday to last him a lifetime. He was plowing when he saw a large snake dart down a hole. He investigated and came upon a den of them. Calling a dozen neighbors to his assistance, the party went after the occupants of the cave with clubs and other devices.

When the bombardment had been completed more than 125 snakes, most of them of the blue racer variety, had been killed. Several of the larger ones showed fight, but all were killed. None of the attacking party was bitten.



The Ohio makes child's play of cleaning day.

The Electric Motor does all of the hard work at a very small expense.

HOUSE CLEANING SHOULD BE VACUUM CLEANING WITH THE OHIO STANDARD ELECTRIC SUCTION SWEEPER

The dust bag is built for convenience and cleanliness in emptying. No dirt or germs can escape and be scattered.

The Ohio will make your cleaning Thorough—Effective—Dustless—Germless—with none of the drudgery and physical exhaustion which you have experienced with the old fashioned methods. It means a healthful home, free from contagion, disease and bacteria.

Machine weighs 9½ lbs., complete. A child can carry or operate this cleaner.

There is no necessity for removing furniture or furnishings from the rooms to be cleaned. A complete set of attachments are provided for use on carpets, rugs and furniture, which reach into every crevice, every fold of curtains and draperies, between piano keys and radiator pipes, into the tufts of mattresses and upholstery, and into all the out-of-the-way, hard-to-get-at-places.

A special attachment changes the machine into a blower which can be used for special purposes.

The Cleaner is as simple in construction as it is in operation. No complicated parts to get out of order. Guaranteed for a lifetime.

Special Demonstration in Our Windows This Week

Machine Will be Demonstrated in Your Home Upon Request

A complete set of attachments provide a means for doing any cleaning operation you may find necessary in your home.

PLANS FOR SCHOOL BUILDING DISCUSSED

Trustee Stolte Says About $30,000 Will Be Spent for New School.

For the purpose of discussing plans for the proposed new school building in Washington township to take the place of the old Scarlett school recently destroyed by fire a conference was held Thursday afternoon by Trustee Leonard Stolte and members of his advisory board with Architect Fred W. Pohlmeyer.

Preliminary plans for the building were drawn by Mr. Pohlmeyer a few days ago and submitted to the advisory board. At first it was thought best to erect a one-story building, but Trustee Stolte favors a two-story structure and members of his advisory board seem to be of the same opinion. Other plans will be submitted by Mr. Pohlmeyer and it is expected that at a meeting to be held some day next week definite action will be taken.

Trustee Stolte stated Thursday that he contemplates spending about $30,000 in the construction of a new building.

"You may say for me," he told a Sentinel reporter, "that whenever the people of Washington township get a building they will be getting all they are paying for. They will get the best that money can buy."

Sentiment regarding a consolidated school is divided and Trustee Stolte says he has been receiving many letters both for and against the proposition. The advisory board of Washington township is composed of William E. Miner, C. D. Kammeier and Henry Berning.

COMMISSIONER'S ALLOWANCES FOR FEBRUARY, 1915.

The following list of allowances made by the board of commissioners of the county of Allen for the month of February, 1915:

Janitors, service court house	$539.40

Artist and Nurse Her Double Role

Mrs. Harry P. Whitney

While Paris is singing the praises of Mrs. Harry Payne Whitney, Red Cross nurse, America is lavishing praise on Mrs. Whitney, the gifted artist whose "Fountain of El Dorado" is one of the most striking pieces of sculpture at the Panama-Pacific exposition.

Before she went to Europe last fall to organize a "flying hospital" to aid French soldiers she completed the fountain which has made her famous in the world of art.

TAILORS THAT SATISFY

Young Phil Armour's Bride Imitates Women of Harem.

Phil Armour and his bride, who was Miss Gwendolin B. Congdon, watching a polo game from their racing automobile at Coronado, Cal.

While Phil Armour and his bride were in Coronado, Cal., it was a subject of conjecture on the polo grounds, at the club house and at the hotels, whether young Mrs. Armour was trying to introduce a new fashion in the way she wore her heavy veil or whether her husband insisted upon her keeping her face covered in the style of the women of the harem.

Mrs. Phil Armour was never seen out-of-doors without a heavy gray veil edged with black velvet, doubled and worn over the lower part of her face The veil was both ugly and unbecoming, consequently it provoked much discussion.

The Armours are now on their way to Hawaii and they are taking the racing car, in which they are pictured, with them.

DOGS SHOW TRAITS OF HUMAN BEINGS

Many Emotions of Mankind Are Recognized in Canines, Says Woman.

New York, March 12.—Human characteristics in dogs is an interesting study that Mrs. E. Y. Eltonhead has made in her book, "Dogiana," "Contempt is one on these traits," she says. "Notice the lordly dignity with which a large dog will treat a smaller one; how he stalks through the crowd of yapping, frisking puppies with such superior indifference, and see if this is not a species of contempt.

"Co-operation is almost universal in the animal world, but the leadership falls unusually to the stronger.

"Chivalry is known by the attitude toward the weak and the young. It is an unwritten law in the animal world that the young have rights which must be respected. This accounts for the unusual sight sometimes seen when a fierce dog which has thrashed every other dog and has become a terror of puppydom turns tail and flees in apparent terror when a young dog or kitten is presented to him. As a rule no dog will attack a younger one unless he becomes too insulting or personal and the little dogs are so aware of this that they become very noisy and sometimes saucy.

"Interesting, too, is the attitude of the male to the female, for so self-respecting male dog will attack a female or bite except in self-defense. The female, however, has no scruples, and will attack any dog that is weaker or smaller than herself.

"Worry and anxiety seem to be known to animals as well as to mankind. A mother will be anxious and restless if the little ones are in danger and will pick up the puppy by the neck and go off and hide it or growl faintly if she thinks it is in danger of anything. Grief is a certain characteristic.

"Self-respect is evident to any one who has made a study of dogs. Frolic and play are devoted from puppyhood until real old age stiffens muscles and loss of teeth forbids the carrying of a ball or other plaything.

"One trait that is especially human is lacking in dogs, and that is deceit.

"Jealousy is a trait met with both in fine and common dogs, and the more loyal the dog is the more likely he is to be jealous of another dog sharing in the affection of his master and mistress."

Rurode's

Famous for Quality

Our Formal Presentation of the New Modes in Millinery Created Unbounded Enthusiasm

There will be more of this enthusiasm in the days between now and Easter. Our department will be crowded with Spring's most beautiful styles in both small and large millinery. You can depend upon being suited here in quality, style and price.

$25.00

PHILIPPINE TRADE TIED UP.

Lack of Ships, Due to War, Causes Business Depression.

Washington, March 1'.—Trade between the United States and the Philippine islands has been practically paralyzed and business conditions in the islands seriously depressed by lack of ships to handle the commerce since the European war began. This situation was revealed in a letter from Secretary of Commerce Redfield to Secretary Garrison of the war department, to whom Governor-General Harrison had appealed for relief for the island shippers.

After reciting the conditions as described by the governor-general, the letter says: "So long as there is no law giving us any power over any shipping, the government is powerless in the matter. Private and corporate interests are in control of the situation, and we can do nothing."

Reports of congested condition in the islands said freight rates had doubled in the last ten days and that ships could not be had to move the products awaiting shipment at Manila. Prices were reported to be falling on account of short tonnage and increased rates.

HOW'D YOU LIKE HIS JOB?

Scientist Is Twelve Years Drawing 120,000 Lines.

Chicago, March '.—Dr. A. A. Michelson, of the University of Chicago, winner of the Nobel prize for research in physical science in 1901, has completed a twelve-year task, it has been announced, of drawing 120,000 lines on six square inches of metal, which, it is said, will determine the chemical substance of the planets.

The purpose of the ruled metal, which is known as a diffraction grating, is to analyze light, and through the analysis of light to analyze the chemical composition of objects at any distance. The sheet of metal is resting on a bed of mercury at the university to protect it from earth vibrations and incased in glass to exclude the air and dust.

It is covered with straight ruled lines all exactly alike and all parallel. Twenty thousand lines were drawn on every inch of the six-inch surface.

It is estimated that 93 per cent of the ocean floor is entirely devoid of vegetation.

Fifty thousand British railway men joined, or rejoined, the colors when war was declared.

The Doctor's Advice

by Dr. Lewis Baker

The questions answered below are general in character, the symptoms or diseases are given and the answers will apply in any case of similar nature.

Those wishing further advice, free may address Dr. Lewis Baker, College Bldg., College-Ellwood Sts., Dayton, O., enclosing self-addressed stamped envelope for reply. Full name and address must be given, but only initials or fictitious name will be used in my answers. The prescriptions can be filled at any well-stocked drug store. Any druggist can order of wholesaler.

Worried man writes: "Let me say that my condition puzzles and worries me. In the last year I seem to have been growing old rapidly, though only '88. My food and sleep do not recuperate my strength and energy, and lately I have dizzy spells, trembling, headaches, loss of appetite, memory and hopelessness. Despondency and worry over my condition are ever present."

Answer: Cheer up, get well and then conserve your vitality by proper, temperate living. Obtain three grain cadomene tablets in sealed tubes with full directions, use them and an agreeable, pleasing restoration should ensue to your entire satisfaction.

Mr. L. C. B. asks: "Do you think it is possible to reduce my weight from 240 pounds to about 190 pounds?"

Answer: It is impossible to say just how much one can reduce until after trying, but 5-grain arbolone tablets should be used according to directions with each sealed tube, obtainable at most any drug store. If the flesh is unnatural you should easily reduce as desired.

Mrs. L. B. writes: "What can I do for a bad case of stomach, liver and bowel trouble? My food sours in stomach, I rift, have heart-burn, and a full, uncomfortable feeling after meals; constipated at intervals, coated tongue and bad breath all the time."

Answer: Thousands of people in this country are afflicted as you are, and to get immediate relief and gradually effect permanent results, I advise you to buy of your druggist a dollar package of "double-four stomach and bowel medicine" and use as per directions on the packet.

J. B. O. asks: "I am thin, angular, weak and tired. What can I take to improve my health, strengthen my nerves and increase my weight about 20 pounds?"

Answer. Take regularly with your meals three grain hypo-nuclane tablets, sold in sealed packages, by druggists, with complete directions. These tablets improve the blood, increase nutrition, and strengthen the nervous system if used regularly for several months.

"Lee" writes: "I have tried so many remedies for rheumatism that I am almost afraid to try any more, but if you can tell me a sure remedy I will try it."

Answer: Do not be disheartened because you have not been able to find relief before, but get a bottle of [illegible] from the drugstore: Iodide of potassium, 2 drams; sodium salicylate, 4 drams; wine of colchicum, ½ oz.; comp. fluid blamwort, 1 oz.; comp. essence cardiol, 1 oz., and syrup sarsaparilla, 5 ozs. Mix and take a teaspoonful at mealtime and again before going to bed.

C. L. asks "I have tried to cure dandruff, itching scalp, falling hair and baldness with numerous tonics, etc., but in vain. What do you recommend?"

Answer: I have been recommending plain yellow minyol for the past seven years and scores of my patients are delighted with the quick, pleasant action of this remedy in stopping itching, falling hair, dandruff, etc. It gives the hair health, lustre and vigor as nothing else does. Obtain in 4-oz. jars with full directions.

H. M. B. writes: "Can you please prescribe medicine which will relieve me of such distressing symptoms of kidney and bladder, as the following: Pains in small of back, soreness in region of bladder, frequent calls at night but scanty flow with pain, burning and foul odor, puffing of limbs, etc?"

Answer: Those seeking relief from kidney and bladder disorders should begin taking balmwort tablets, a very successful formula sold in sealed tubes with full directions.

Mrs. N. B. B. asks: "I suffer from headache and constipation periodically and my blood seems too thick causing languor and tired feeling. I will thank you to prescribe for me."

Answer: Three grain sulpherb tablets (not sulphur) are most effective, in relieving constipation, thinning the blood, and removing the symptoms of languor, etc. I advise you to begin taking as per directions with each sealed package.

"W. Z." writes: "I have such a very severe cough and cold and have not been able to get anything to help me. It is weakening my system."

Answer: Use the following and your cold and cough will vanish and you will soon be strong again. Get a 2¼ oz. bottle of concentrated essence mentholaxene and take every hour or two. This can be taken pure or made into a full pint of home-made syrup. Full directions as to use will be found on bottle. This is a mild laxative and will drive the cold from the system.

B. G. O. asks: "Will you please prescribe a home treatment for a bad case of catarrh of the nose and throat. Also, my daughter is affected with Pelvic Catarrh or green sickness."

Answer: Your daughter should begin taking a tonic flesh-building treatment and for such a case I know of nothing better than three-grain hypo-nuclane tablets. Local treatment is also necessary for both catarrh of the head and Pelvic Catarrh. A simple but effective antiseptic and curative treatment can be followed at home by [illegible]

MRS. MARIE ROSE DIES AT AGE OF 92 YEARS

Aged Lady Succumbs After an Illness of 6 Days Due to Pneumonia.

Mrs. Marie Rose, widow of Carl Rose, died at 10:30 o'clock Friday morning at the home of her daughter, Mrs. Henry Kiel, 1832 South Webster street, from pneumonia, following an illness of six days. Death came very unexpectedly at the age of 92 years and 5 months.

Born in Schaumburg Lippe, Germany, she came to this country and directly to Allen county in 1868, with three children, her first husband having died in Germany. She was a member of the Trinity Lutheran church, on the Decatur road, in which vicinity she resided until three years ago, when she moved to this city.

She leaves two children to mourn her loss—Mrs. Henry Kiel and Henry Halfeldt, of Marion township. One daughter, Mrs. Henry Bartels, preceded her in death. Other surviving relatives include four step children—Arton and Lena Rose, of Washington township; Mrs. Carl Bleke and Mrs. D. Rudenbeck; twelve grandchildren, thirteen great grandchildren and one brother, who resides in Germany.

Funeral services Monday afternoon at 1 o'clock at the residence and at 2 o'clock at the Trinity Lutheran church on the Decatur road, Rev. Wambsganss officiating. Friends are asked to omit flowers.

MACBETH.

Agnes Macbeth, the twelve-day-old daughter of Mr. and Mrs. Jesse Macbeth, of 406 Perry avenue, died Thursday evening at the Lutheran hospital from exhaustion. Besides the parents and a twin brother she is survived by two sisters and two brothers.

Funeral services privately Saturday morning at 10 o'clock at the Klaehn & ficiating. Interment at Lindenwood.

FUNERAL NOTICES.

Dalman—Funeral services for Mrs. Elizabeth Dalman will be held Saturday afternoon at 1 o'clock at the residence, 1007 Herman street, and at 1:30 o'clock at the Trinity M. E. church, Rev. T. M. Hill officiating. Interment at Prairie Grove cemetery.

Esterline—Funeral services for Samuel A. Esterline will be held Saturday afternoon at 2 o'clock at the late residence, 2723 Oliver street, and at 2:30 at the First Baptist church, Rev. John Walton officiating.

Hartman—Funeral services for Mrs. Caroline Hartman will be held Monday morning at 8 o'clock at the residence, 1312 East Wayne street, and at 8:30 o'clock at the St. Mary's Catholic church. Interment at Hesse Cassel.

Ogden—Funeral services for Benjamin F. Ogden will be held Saturday afternoon at 2 o'clock from the residence on the Decatur road. Interment at Lindenwood.

Courtney—The remains of John Courtney, whose home was in New York, are being held at the C. J. Ulmer undertaking establishment until a brother arrives.

Outbursts of Everett True

BY CONDO.

NEEDS THREE WEEKS TO REPAIR WARSHIP

Eitel Friedrich's Captain Makes an Estimate to Washington.

Newport News, Va., March 12.—Captain Thierichens of the German auxiliary cruiser, Prinz Eitel Friedrich, has estimated in his communcation to the Washington government that it will require about three weeks to repair his ship. The estimate was made after ship yard officials here made a preliminary examination.

The statement on the sinking of the William P. Frye, which the commander of the Prinz Eitel has made to Collector Hamilton is understood to be a very brief document, giving little more than a statement that the Frye was sunk, the latitude and longtitude in which the German raider came upon her and a very brief recital of the taking off of the Frye's crew. It is understood that the commander of the Eitel has reserved a more detailed statement of his reasons for sinking the Frye for the German embassy authorities with whom he is in communication.

MAY BE FORCED TO INTERNE.

Washington, March 12.—Confidential reports to officials here on the condition of the German auxiliary cruiser Prinz Eitel Friedrich, in dry dock at Newport News, Va., seem to make it certain that the German raider will be forced to intern there. Assistant Secretary Peters, of the treasury department, told President Wilson today that he expected the German commander would not venture to sea again.

Mr. Peters told the president that his reports from Newport News show the Prinz Eitel is in very bady condition and utterly unfit to put to sea.

URGES JURY TO FIND OF THAW'S MENTALITY

Stanchfield Makes Closing Plea for Matteawan Fugitive.

New York, March 12.—In his closing address to the jury sitting in the case of Harry Kendall Thaw and four co-defendants, on trial for conspiracy, John B. Stanchfield, Thaw's chief counsel, urged the jury today to determine whether they believed Thaw had recovered his sanity and if they did to say so in their verdict.

Mr. Stanchfield sketched the case of the defense from beginning to end, and laid particular emphasis to the claim that Thaw planned his own escape from the state prison for the criminal insane at Matteawan because he believed that he was sane and that to remain in the prison would cause him to lose his mind. Mr. Stanchfield assailed Franklin Kennedy, special deputy attorney in charge of the prosecution, charging that his sole occupation for five years had been the case of Thaw. He continued: "Some private vengeance is responsible for the state of New York spending thousands upon thousands of dollars—probably $50,000—to try Thaw upon a puny little charge like this."

The defense closed its case after Thaw had answered a few questions of minor importance on cross-examination. The prosecution is to sum up this afternoon. The case, it was said, would go to the jury immediately after Justice Page, presiding, had delivered his charge.

Attorneys for both sides said they expected a quick verdict.

WIFE HAS GONE TO HOME AND MOTHER

Whereat Roy O. Wise Brings Suit Against Her or Divorce.

Taking it that a wife who will not live with him, but packs up and goes back to mother and the old home is a useless encumbrance for a man, Roy O. Howe has appealed to the superior court to divorce him from Bessie V. Howe. He says that they were married in 1906 at Broughton, Ohio, and that on the first of the present month his wife, without cause or provocation, took their seven-year-old daughter and hit the trail for the Buckeye state town, where she now is with her parent.

Says He Beat Her.

Britta Kleinschmidt has begun action in the superior court for divorce from Edward Kleinschmidt, charging that for the past two years he has treated her in a cruel and inhuman manner, calling her vile and profane names and striking and beating her. More than once she says she has carried on her body bruises caused by his blows. The complaint says they have separated heretofore, but that on promise to do right she had taken him back only to find him more cruel than before. She says also that he falsely accused her of meeting other men and told her to go get a divorce. She wants $1,500 alimony and her maiden name of Van Gundy. The two were married September 27, 1911, and separated March 9, 1915.

Notes of the Courts.

The superior court jury that heard the suit of A. W. Jaxtheimer and Louis Heilbroner, doing business as the Puraq company, against Gottlieb M. Sauer for $200 damages, returned a finding for the defendant after being out nearly all night.

The superior court has granted a divorce to Laura E. Battenberg from Jacob T. Battenberg.

In the circuit court judgment for $182.50 and costs amounts for the plaintiff [illegible]

superior court against William C. Fahncke to collect notes, demanding $180.

The St. Louis Bag and Burlap company has brought suit in the superior court against S. Bash & Co. to collect $200 on account.

The inheritance tax that will have to be paid on the estate of the late Sophie Fox will be $291.03, according to a return made in the circuit court.

BAD BILL FAILED TO PASS.

County Commissioners James D. Butt, William C. Schwier and Albert J. Black and County Road Superintendent William Tonkel are in a seventh heaven of delight by receipt of well established word that the bill that would have abolished the office of county road superintendent and put the repair and maintenance of roads back on the old graft basis had failed to pass. The commissioners were delighted because it means the continuance of a system that is working admirably for the good of county highways and Superintendent Tonkel because his job, on which he has worked hard and with admirable results, is safe. The J. R. Fleming senate bill No. 2, affecting the highways law, had become confused with senate resolution No. 2, wholly a different matter, and the report went out over the states that the 1913 road superintendents' act had been repealed by the Fleming bill. County Commissioner Schwier is tremendously relieved in his mind, so much so, indeed, that he has no time to spend in regrets at the prodigious expenditure of strong feeling and stronger language he wasted when he thought the 1913 law had been done to death.

NOW UP TO THE GOVERNOR.

Arizona House Passes Racing Bill at Last Moment.

Phoenix, Ariz., March 12.—A bill permitting horse racing and the use of pari-mutual machines passed the house last night just before final adjournment of the legislature. It had passed the senate several days ago and now goes to the governor. Governor Hunt said he would make no statement regarding his action on the bill for some days.

CONFESS TO MURDER.

Wilmington, Del., March 12.—Peter Krakas and Bernard Montvid today confessed to the murder of Rev. Joseph Zebris, priest of the Lithuanian church at New Britain, Conn., and his housekeeper on February 8, according to Chief of Police Black and New Britain detectives. The prisoners are in the workhouse here for the murder of a policeman last Saturday.

A. F. Smith, a prominent druggist at Garrett, was a vsitor in Fort Wayne Friday.

KILLING OF CHICAGO MAN IN MEXICO CITY

(Continued from Page 1.)

was immediately reported to Generals Barona and Guerra, who promised to make an investigation.

Secretary Bryan took the dispatches on the killing of McManus to the cabinet meeting and they were laid before President Wilson. Mr. Bryan said further reports on the punishment of those responsible were being awaited.

Both Have Been Warned.

Both Generals Carranza and Obregon have been informed that the cause for which they are fighting will be seriously affected in the view of the United States government should they fail to take prompt measures to prevent famine in Mexico City and to permit the free exodus of foreigners to Vera Cruz. This was the principal argument, it was learned today in the note sent by the United States government in reply to Carranza's communication denying that Obregon had interfered with the shipment of food supplies to Mexico City or had made utterances which the American government believes might cause anti-foreign riots. The new American note lays emphasis on the necessity for keeping the line of communication open between Mexico City and Vera Cruz and points out the need for allowing trains to be used for the transportation of freight.

Officials seemed confident that the exchange of notes would produce a better understanding of what the United States deemed necessary steps for the protection of foreigners in Mexico. The tension over the situation has been greatly relieved by the friendly character of the Carranza reply.

General Obregon, the Carranza commander, evacuated Mexico City with his troops Wednesday night and Zapata's forces entered yesterday morning. Today's advices from the Brazilian minister to the state department said good order prevailed between the time Obregon left and Zapata entered.

The city council took charge of affairs in the meantime.

M'MANUS FINANCIAL AGENT.

Chicago, March 12.—John B. McManus was one of the best known, most respected and most responsible members of the American colony in Mexico City, according to a prominent Chicagoan who has large interests there. He was financial agent for Bryant, McIlhenny & Co., a big firm which manages a large group of mines in the Guanajuata district. He had been in business in Mexico City for a number of years.

OIL KING'S WIFE IS SUMMONED BY DEATH

While Mrs. Rockefeller has been an invalid for many months, it is understood that her death came rather unexpectedly. Her husband, John D. Rockefeller, and her son were at Ormond, Fla., and were advised early today that Mrs. Rockefeller had taken a critical turn for the worse.

Mr. Rockefeller and his son immediately engaged a special train which left Jacksonville early today, it was learned, and is due here some time tomorrow. Mrs. E. Parmalee Prentice, Mrs. Rockefeller's daughter, was the only immediate relative present when she died.

Laura Celestia Spelman Rockefeller was born in Wadsworth, Ohio, of well to do New England parents, on September 9, 1839. She was her husband's junior by two months. As a child she lived in Wadsworth, in Burlington, Ia.; in Akron, Ohio, where her father, Harvey B. Spelman, achieved a competence in the dry goods business, and later in Cleveland. In the grammar school at Cleveland she met John Rockefeller when they were fifteen years old.

Rockefeller was a country boy. She was the daughter of one of Cleveland's leading citizens. His home was a little farm house; hers, one of Cleveland's handsomest residences. His associates, outside of school, were mostly farm hands and country boys; her's were talented folk of affairs drawn to her father's handsome home, for her father then was a member of the Ohio legislature, a public spirited citizen interested in philanthrophies and a man of many activities. Notwithstanding other differences, the awkward youth and the city girl had in common a love of study and simple tastes, and they became fast friends.

In 1862 Miss Spelman, described by her superiors as a splendid disciplinarian and a perfect teacher, became assistant principal of the school. Rockefeller, absorbed in business, took the books of his firm to her of an evening and together they would go over his affairs. Both of them were interested together in church work, too; she as a Congregationalist, he as a Baptist; and neither ever attended a dance or the theater.

Young Rockefeller prospered beyond his fairest hopes. As soon as he felt that he could ask her to become his wife he did so. They were married on September 8, 1864, the eve of her twenty-fifth birthday, and started to keep house in a little two-story brick residence on one of Cleveland's side streets. Upon her marriage she became a Baptist and to her religion and her home she devoted her entire time.. She avoided all social functions and joined no clubs.

When Mr. Rockefeller's wealth was mentioned in seven figures they left their first home for a residence remarkable only for its unpretentiousness on Euclid avenue, Cleveland's "mile of millions." Here Mrs. Rockefeller reared her four children; a fifth died in infancy.

The training given the Rockefeller children by their mother is declared to have been almost Spartan. Although the Rockefeller wealth increased in leaps and bounds there was only one carriage and a horse cared for by a man, who acted as both coachman and hostler. These were used mostly Sundays on the trip to church. Mrs. Rockefeller employed two maids, but still insisted on doing much of the work herself. She also supervised every detail of the care and training of her children, particularly seeking to instill in their minds the lesson of thrift. It is related that on one occasion she averaged up the gas bills for a year and promised as spending money to her eldest daughter any sum she might save each month by watching that no lights were left burning needlessly.

Of her children, three are living. She was the mother of four daughters and one son, the last named, John D. Rockefeller, jr., being the youngest. Her eldest daughter, Bessie, who married Prof. Charles A. Strong, died in France in 1906 at the age of 40. The second daughter, Alice, died in infancy.

The surviving children are Alta, wife of E. Parmalee Prentice; Edith, who married Harold Fowler McCormick, and John D. Rockefeller, jr.

"THANK YOU," SAID ROBERTS

(Continued from Page 1.)

quarters which he said were filled on election day and the night before. William House, an election official, who District Attorney Dailey asserted could not be controlled by Roberts, was placed in one of the detention cells late on the night before the election, Lloyd testified, adding that Nugent cursed and abused House and the others when they asked to give bond.

The policeman also told of Nugent leading Lloyd and two other patrolmen to the city crematory and arresting three men who had been placed there to guard voting machines. These men were assaulted and placed in the detention cell, Lloyd said. He was excused after a brief, cross examination and John R. Pippens, a negro, told about the registration from the negro saloons.

Seven Tell of Crooked Work.

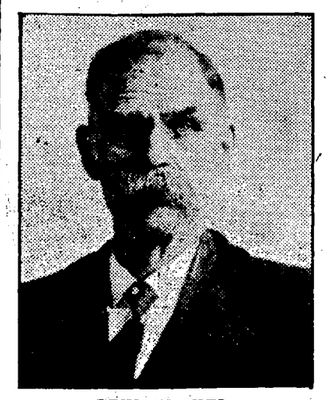
FORT WAYNE VETERAN CURED OF CONSTIPATION

Levi Waikel, 3325 Bowser Ave., Says Herb Lax-a-Tone Cured Him.



LEVI WAIKEL.

Constipation is the bane of civilization and is treated for the symptom more than any other complaint that flesh is heir to. It is like the old story of the tired and worn out horse—whip him up and he will make the next corner but more worn out than before the whipping. The bowel you whip up with harsh purgatives ends with the same old result in a worse shape each and every time. Why not coax it into action and build up the mucous membranes and nature with a little help will do her work naturally. Herb Lax-a-Tone will assist nature in a natural way and your constipation will disappear, also those headaches, sallow skins and tired out languid feeling with foul breath and coated tongue.

Mr. Waikel says that he has had constipation thirty years and could get no results, but at last found a remedy that performs wonders and it is Herbal Lax-a-Tone.

The Lax-a-Tone man is at Dreier Drug Co., 526 Calhoun St., where he is introducing this remedy. Mail orders solicited.

should do the same before taking the chair.

Powell testified that he hard Hilton Redman remark while the federal grand jury was investigating the Terre Haute election: "I guess all the boys have throwed up their insides over there." Green said he registered five times in about an hour and twice in the Taylor precinct. He said he changed his coat and hat sometimes to disguise himself. Green testified that when he voted on election day the inspector gave him a card, but he threw it away. He said he learned afterward that he had thrown away a dollar but he couldn't find the card. Taylor asserted he was a Canadian, never had been naturalized and was under 21 years of age at the time of the last election, but had voted eight or ten times, receiving a dollar for each vote. He said he voted the straight democratic ticket each time. Judge Anderson asked him about the number of times he had voted and if it was for Eli H. Redman, a defendant, who was declared judge of the circuit court on the democratic ticket by ten votes.

Horace Wiltermuth, a chauffeur, told of hauling men in his automobile on two registration days and said he received orders from Roberts.

Causes Much Laughter.

John W. Clark, progressive clerk at the Taylorville registration place, caused so much laughter in the court while he was on the stand that Judge Anderson was forced to rap for order several times. He testified that a bundle of applications were filed with the board, but the men named in the applications did not appear.

"We looked up the law," Clark continued, "and saw there must be a man with each application. We put the bundle aside. Pretty soon Joe Jeffers came in and asked if we had all of them copied. I told him about the law and he wanted to know who would arrest us when the police chief and all the rest were for us. Then Joe ripped out an oath and told us to get busy. I got busy quick for I was afraid."

Thin Men and Women

Here's Safe, Easy Way to Gain 10 to 30 lbs of Solid, Healthy, Permanent Flesh.

Thin, nervous, undeveloped men and women everywhere are heard to say, "I can't understand why I do not get fat. I eat plenty of good, nourishing food." The reason is just this: You cannot get fat, no matter how much you eat, unless your digestive organs assimiliate the fat-making elements of your food instead of passing them out through the body as waste.

What is needed is a means of gently urging the assimilative functions of the stomach and intestines to absorb the oils and fats and hand them over to the blood, where they may reach the starved, shrunken, run down tissues and build them up. The thin person's body is like a dry sponge—eager and hungry for the fatty materials of which it is being deprived by the failure of the alimentary canal to take them from the food. The best way to overcome this sinful waste of flesh building elements and to stop the leakage of fats is to use Sargol, the recently discovered regenerative force that is recommended so highly by physicians here and abroad. Take a little Sargol tablet with every meal and notice how quickly your cheeks fill out and rolls of firm, healthy flesh are deposited over your body, covering each bony angle and projecting point. Meyer Bros. Co., Dreier Drug Co. and D. & N. Pharmacy and other good druggists have Sargol, or can get it from their wholesalers, and will refund your money if you are not satisfied with the gain in weight it produces as stated on the guarantee in each package. It is inexpensive, easy to take and highly efficient.

Caution—While Sargol has produced [illegible]

Clark said he wrote in 119 applications then and that the democratic precinct committeeman, who has pleaded guilty, also wrote some, although he was not a member of the registration board.

Was No Trouble-Hunter.

On cross-examination A. O. Stanley asked Clark of whom he was afraid. "I'se afraid of Joe Jeffers and not ashamed to say so," the witness replied, slightly agitated. "I didn't know what he'd do to me. I'm no trouble-hunter and I knew Joe had a gun in his pocket."

"In a way, I'se guilty and then I'm not," Clark stated when Mr. Stanley asked if he had not pleaded guilty in this case. "I'se guilty because I was afraid not to do what Joe Jeffers told me to do."

Judge Anderson announced there would be no session of the court tomorrow out of respeect to Judge W. H. Seamans, of the United States circuit court, who died recently in California and who will be buried tomorrow.

Extra Bailiffs Ready.

Extra bailiffs were ready to handle the crowd when the Terre Haute election fraud trial was resumed in the United States district court here today. For the last two days there has been trouble in keeping the men and women back when the doors were opened.

At the afternoon session yesterday the crowd was forced to form a line that reached along the corridor and down the stairs until it almost reached the postoffice lobby. The crowds, it is said, rival those which sought to hear the famous dynamite conspiracy trial here two years ago. United States District Attorney Frank C. Dailey expected to continue to examine witnesses today who had to do with the fraudulent registrations.

GERMAN DRIVE NOW NEARER PRZASNYSZ

(Continued from Page 1.)

to be followed by another important offensive thrust preliminary to a general advance in the spring.

It is believed, moreover, that the Germans will promptly seek to retaliate. If they do this it will compel them to keep their western forces intact, if not to reinforce them to meet the fresh forces which Great Britain is putting into the field.

Placed on Contraband List.

The British government, it was announced today, has added the following articles to the absolute contraband list: Wool, woolen and worsted yarns, wool tops and nails, tin, chloride of tin, tin ore, castor oil, paraffine wax, copper, iodine, lubricants, hides and all kinds of leather suitable for military equipment, ammonia and its salts, urea, aniline and its compounds. Foodstuffs for animals, heretofore on the conditional list, are broadened to include "oleaginous seeds, nuts and kernels and animal and vegetable oils and fats, other than linseed oil suitable for the manufacture of margarine cakes and meals."

This apparently makes cottonseed oil and all cotton oil products conditional contraband.

ATTACKS ON DARDANELLES.

Constantinople, Monday, March 8.—(Via Berlin, March 11, and London March 12.—11:10 a. m.)—The fire of British warships on Turkish positions in the Dardanelles has been well directed on the whole, but at times inefficacious. The Turks on their side, have shown a fair degree of accuracy in their marksmanship and have compelled British vessels to exercise great caution in approaching their batteries. A correspondent of the Associated Press witnessed the bombardment of March 5, directed against the positions at Kilid Bahr, on the European side of the straits. He could see the fire of either side and note how all the shots fell. The vessels engaged were British ships of the Agamemnon type. The firing started at 11:50 a. m. and lasted until 4:25 p. m, when the British withdrew. Their fire had been rather scattered. Some of it was directed against Dardanus and other points on the European side of the straights and the material damage inflicted was only slight.

At Kilid Bahr the fire was well directed on the whole but it was not very effective. Of about 30 heavy shells ten fell close to the Turkish batteries, while the others mostly fell short. Many of them struck at the water's edge. A certain British vessel which ventured within range of the Kilid Bahr batteries was subjected to a well aimed fire from them. She retreated hastily. The vicinity of these particular batteries was then avoided for the rest of the day. Later in the afternoon two other British vessels came within range of the Kilid Bahr batteries and had narrow escapes from the shells fired. During all the afternoon the British vessels kept [illegible]

MERGENTHEIM'S

Exceptional Savings in Untrimmed Hats

$2.00 Values at 90c

Strikingly handsome Hats that possess unusual chick and newness. Medium size sailors, now so popular, and styles so conservative that we can please every one. A grand assortment of colors including black. At this ridiculous price we expect to sell the entire lot in one day.

$2.00 Hats for 90c

TRIMMED HATS FOR $1.00

About three dozen trimmed Hats, worth ordinarily up to $3.00; take your choice at - - **$1.00**

At about a quarter before four in the afternoon several hydroplanes of the allies appeared and made a reconnaisance. To the observer it was apparent that they dropped bombs on a village on the European side of the straits. The airships retired when fired upon.

After Saturday, when our sale will be closed, don't be one of those who will be saying those saddest words of tongue or pen—"It might have been." Foster Furniture Co.

CITY TO FIGHT TO THE LIMIT

(Continued from Page 9.)

the city government will afford a test of t hestate's public service law, passed in 1913, admits of no doubt if it should be found that appeal from the utilities commission is necessary. Should that body rule that the cty has in no wise transcended its powers or supervened the public service law in making rates and obtaining business for the city light and power works, of course no appeal will be taken. An appeal, however, would be fraught with utmost importance, because in it would be embraced vital questions of municipal rights as well as the state's power to completely regulate public service agencies.

Mayor Hosey, City Attorney Guy Colerick and Secretary-Manager John Wessel, of the city light department, will have an immediate conference to discuss the city's reply to the complaint filed by the traction company.

It was not until late Thursday afternoon, when a copy of the complaint filed with the commission was received from the clerk of that body, that Mayor Hosey and Secretary John Wessel had any knowledge that such action had been taken by the Fort Wayne and Northern Indiana Traction company. Under the public utilities act the city has five days in which to file answer to the charges. If the complaining company expresses dissatisfaction with the answer it will file its exceptions with the state commission and the city will then have ten days within which to make appearance before that body to present its case.

What Is Charged Against City.

The complaint against the city was filed with the state utilities commission March 8 by Ferdinand Winter, an eminent corporation lawyer of Indianapolis, and Barrett, Morris and Hoffman, the Fort Wayne firm of lawyers who are counsel for the traction company. In the complaint it is charged:

That employes of the city light and power department have been making misrepresentations to consumers to induce them to quit patronizing the company's service and subscribe to municipal current; that in extending its system the city has set its pole lines so close to those of the complainant that it has been necessary in many cases for the latter to move its lines at a great expense; that the municipal department has been granting special rates, below that allowed by the commission, in order to get business away from its rival; that an exorbitant rate is charged the taxpayers, of which the traction company is one, for current for ornamental and arc street lights, and that the proceeds from the prosperous waterworks department is being used to further the lighting department, enabling it to operate at an apparent profit.

Policy Has Been Lower Rates.

The policy of the city light and power department has been from the first to lower rates and that was done when the city rate was fixed at 8 cents per kilowatt hour, 2 cents below the maximum rate of the traction company. In pursuance of this policy the city rate was last fall reduced from 8 to 7 cents and with announcement of this cut was coupled the statement that another reduction would follow at an early date, when the city's business should permit another reduction to be safely made. It is said the traction company made complaint to the utilities commission shortly after the cut was made and that an expert was detailed to investigate here to ascertain if the city could furnish current at the rates it had made without incurring risk of bankrupting the municipal utility. This inquiry resulted in a showing that the city was proceeding along prudent and secure business lines. Mayor Hosey received information of this and also that upon the expert's report to the commission the traction compasy was ordered to cut to 7 cents.

NEGROES SENT TO JAIL.

Pair Who Had Advertising Swindle Get Severe Penalty.

Earl Carr and Harry Harris, a pair of rather clever colored men, were found guilty Friday in the city court of obtaining money by false pretenses in an advertising game they were working and Judge Kerr fined them $10 and costs each and added terms of sixty days in jail. The two had been going to business houses obtaining advertisements to be placed on a big card purporting to be the calendar of entertainments for the "Atlas club," represented as an organization of colored people. They had collected about $20 when Detective Sergeants Immel and Rundell picked them up several days ago and booked them on drunk charges. There is no such organization as the "Atlas club."

SHOP AND RAIL ROAD NEWS

PERFECTS TELEGRAPH AND TELEPHONE LINE

Pennsy Completes One With Wire Weighing 422 Pounds to Mile.

The Pennsylvania put into service today the most perfect telephone and telegraph line between Chicago and Pittsburg this country ever saw. There are two wires, of course, and they give one perfect telephone and four telegraph circuits. So perfect is the telephone part of the system that by actual experience the tick of a watch placed at the transmitter in Chicago was distinctly heard in the office in Fort Wayne. This circut is over wires that weigh 422 pounds to the mile, the heaviest telegraph and telephone wires in use in this part of the country. The line follows the Pittsburg, Fort Wayne and Chicago road to Clark Junction and goes thence to the Panhandle, entering Chicago over that road. Another improvement to be installed by the telegraph department of the Pennsylvania soon is called the "printer telegraph." This is simply connecting typewriting instruments in such manner that a key struck on a machine in Fort Wayne operates the same key on an instrument in Chicago or any other point on the line within the "printer" circuit. In sending messages over this line the Morse system gives way to letters and characters used in spelling out words, just as they are placed upon paper by the operator of the typewriting machine and to operate the line it is not necessary for the operator to be an expert telegrapher.

CONSIDERATE THIEF.

Serves Each Member of Freight Crew Equitably.

Caboose robberies are so common that the railway men have ceased to give them much attention and news concerning them rarely gets into print. But a robbery of a G. R. & I. caboose at Ridgeville last week had some unique features worth noting. Evidently the thief in this case believed in carrying on his depredations in an equitable manner. While the conductor and the brakemen were engaged in shifting some cars on the sidings at Ridgeville they left the caboose on another siding some distance from the scene of activities. It was there a thief found it and made a raid on the lockers. From one he took a sweater coat, from another a good coat, from the conductor's locker he took a pair of shoes and stockings and from the conductor's desk a plug of tobacco. The garments were not missed until the train neared Fort Wayne and the crew began to change their clothing. But the plug of tobacco was missed early and after an unsuccessful search the owner concluded that one of "the boys" had taken it for a joke and he borrowed a "chew" from a brakeman. Usually a caboose thief takes every portable thing in sight, but not this fellow. He only took enough to supply his immediate needs.

INDOOR FIELD MEET.

Big Event of the Electro-Technics Given Tonight.

The most elaborate event of its kind ever pulled off in Fort Wayne will be the indoor field meet of the Electro-Technic club in the big hall on the fourth floor of the General Electric building at Holman and Clinton streets tonight. The details of the program, which was published in The Sentinel several days ago, have been attended and will be carried out to the letter. The officials of the Fort Wayne Electric works and of the General Electric Lamp works in the city will view the events from box seats erected especially for that purpose.

Interest seems to center in the tug-o'-war contest between teams composed of men employed at the works. One is captained by M. S. Willson and its personnel is as follows: Fred Schultz, Harry Hire, N. C. Pierce, Eugene Potter, Charles Heckman and Charles Prince. These men were selected from various departments of the big works. The other team, however, of which Ray Hoffman is the captain and which is known as the "Medicine Ball" team, was selected from the men in the general testing room. They are: Ray Hoffman W. F. Kohls, Ralph Craig, S. C. Anglin E. H. Dro, Donald Isbell, James Carman, H. Cashdollar and Charles Braun.

ORDERED TO CHANGE METHOD.

Toledo, O., March 12.—Changes in the derail system of the Wabash Railway company in Ohio have been ordered by the state public utilities commission according to a statement made here last night by Chief Inspector James B. Dugan. The action was taken following an investigation of a freight wreck at Maumee last week, when an engineer and fireman were killed when their train was ditched on a derail. Dugan declared yesterday that the company violated the state law by failing to report the wreck until after a meeting of company officials had been held at Peru, Ind. Dugan declares the commission should have been called to the meeting.

GAVE KEARNEY A RECEPTION.

President E. F. Kearney, of the Wabash, was given a hearty reception by the people of Logansport Wednesday when his train stopped there for a short time on the inspection trip. Miss Isabelle Kearney, niece of the president, received her uncle with a kiss as she presented him with a big armful of roses and ferns. It is thirteen years since Mr. Kearney left Logansport, but he was able to call his old comrades and acquaintances by name and to give them a hearty greeting.

TO PUT IN ACETYLENE WELDER.

The Wabash, after experimenting at the Fort Wayne shops several weeks with an acetylene welding system, has decided to install plants at the roundhouses at Toledo, Peru and Montpelier. Men from each of those places were here yesterday noting the work of an expert with the acetylene welder. The Pennsylvania has been using a welding system operated by electricity for several years and finds it very satisfactory.

FRANK SIMONTON SPEAKS SUNDAY.

Frank Simonton, one of the engineers on the Broadway limited, will be the speaker at the Sunday afternoon meeting at the Railroad Y. M. C. A. Engineer Simonton spoke at the Lyon meeting at the tabernacle the second night the railroad men gathered there in a body and made quite a "hit" with the audience, many of whom had not heard of his abilities in that line before. Secretary Cash says that at the meeting Sunday afternoon there will be a special musical program also.

TWO SHOPMEN INJURED.

Dr. Fred Schulz was called to the Fort Wayne Electric works yesterday to attend two of the employes who needed surgical aid. Elmer Kinney received a gash in the back of his hand which nearly severed a tendon of one of the fingers and Edward Frederick had one of his thumbs painfully lacerated by a saw. Dr. Schulz had to stitch the wounds of each, but says that neither is serious.

MR. BARNES RETURNS FROM EAST

Factory Superintendent E. A. Barnes, of the Fort Wayne Electric works, who went east several days ago, on business for the company, returned home last evening. C. H. Matson, who is connected with the maintenance of the equipment department of the works, was with Mr. Barnes and also returned home last night.

HEALTHY LOT OF WORKMEN.

There is less sickness among the 150 or more men employed at the down town car shops of the Pennsylvania at present than at any previous period for some months, there being this morning only two names on the absentee list. There were three yesterday, but Jacob Junk, who had been sick, resumed his duties in the planing mills this morning.

SHOPS CLOSE TOMORROW.

A bulletin on the boards at the Pennsylvania shops this morning announced that the works would not be in operation tomorrow forenoon, as usual. The order only applies to one day and it is presumed that the usual schedule will be in force next week.

REPAIRED TWO ENGINES A DAY.

Two engines a day was the output from the Pennsylvania erecting shop during the five days ending today, which comprise the week's work. They were Nos. 9253, 7497, 7088, 7757, 7541, 9413, 9962, 7710, 7253 and 9008.

TO FUNERAL AT RICHMOND.

Frank and Maurice Laughlin, of the Pennsylvania machine shop, will attend the funeral of a relative at Richmond tomorrow. They will leave tonight for that city.

INDUSTRIAL NOTES.

F. A. Buelow, who was sick two or three days, reported for duty at the Pennsylvania erecting shop this morning.

J. T. Madden, who had an injured thumb, was able to report for work at the Pennsylvania erecting shop this morning.

Earle Watterman has resumed his duties in the engineering department of the Fort Wayne Electric works. He was sick ten days.

Machinist and Mrs. Robert R. Shuman and daughter, Betty Jane, will go to Chicago tonight to spend the week-end with Mr. and Mrs. Frank Shuman.

Engineer George Nulf, of the Pennsylvania, who is at present working as a passenger fireman, is sick with pneumonia at his home, 2228 Thomas street.

William Lenz, a clerk in the Wabash offices at Peru, was here a short time yesterday. The young man is a son of Ernest Lenz, the well known employe at the Pennsylvania planing mills.

Machinist P. E. Bresnahan, of the Pennsylvania shops, accompanied by Mrs. Bresnahan and their two daughters, the Misses Eileen and Madaline, will go to Chicago tomorrow to spend the week-end with relatives.

Three or four days ago some foreign substance lodged in one of the eyes of Fred Romary, Pennsylvania machinist. This morning the optic became infected and Mr. Romary had to quit work and seek aid from the company's oculist.

Mrs. J. C. M. Baker, wife of the Pennsylvania ticket receiver, was able to be up yesterday for the first time in a week. She was attacked by an affection of the stomach. The family reside on a farm three or four miles from the city.

Capt. H. C. Stoll is in receipt of a message from Inspector George Coling stating that A. H. Swinehart, one of his lieutenants of police, died in Pittsburg yesterday afternoon. Lieutenant Swinehart was quite well known to the police force on the Western end of the Pennsylvania.

Andrew Besega, of Lorain, asked the B. and O. company to provide him with a pair of goggles when at work holding a bar for a machinist who was using a chisel. The company refused and one of the eyes of the man was injured by a piece of steel lodging in it. He has brought suit against the company for $5,000 as a result, basing it upon the refusal of the company to furnish goggles.

R. E. Humphries, an expert arc light engineer from the General Electric works at Schenectady, N. Y., is here looking after some business at the Fort Wayne Electric works. Mr. Humphries delivered a lecture before the Electro-Technic club several weeks ago, which was greatly enjoyed by th members and others who heard it. He will attend the indoor field sports given by the club tonight.

ANTILLA AT DUNDEE.

Discharges Part of Cargo to Go Before British Prize Court.

London, March 12.—The American steamer Antilla from New York February 9 for Malmo and Copenhagen is at present at Dundee, where she is discharging part of her cargo which is to go before a British prize court.

The Antilla came into Kirkwall February 26 and was there detained. She reached Dundee March 10.

Carnegie Medal Goes to Hero Who Saved Their Babies From Fire.

Esther and Sarah Kaplowitz, and the brave young workman who rescued them from burning tenement.

"White Wings" is what the children of New York's east side called Vincenzo Culotte—no one in all America knew him, except the slum children and the ward boss who gave him his job—driving a garbage cart.

That was yesterday. Today the world knows Culotte as a hero, and he'll probably be "decorated" with the Carnegie medal for bravery.

Culotte, the "White Wings," became Culotte, the hero, when he risked his life to save two children from death in a burning tenement. The youngsters—Esther and Sarah Kaplowitz—were locked in a room on the third floor; the stairway was in flames; the children were screaming piteously. Culotte closed his mouth, ducked his head, climbed through the flames, found the children and carried them out, then returned to climb the blazing stairs once more and rescue an aged woman who was alone on the fourth floor.

Five minutes later Culotte was back on his garbage cart. "I'm not a hero," he said. "I have babies in Italy; I thought of them; I could not let those American babies burn."

LADIES! DARKEN YOUR GRAY HAIR

Use Grandma's Sage Tea and Sulphur Recipe and Nobody will Know.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and abundant. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is mussy and out-of-date. Nowadays, by asking at any drug store for a 50 cent bottle of "Wyeth's Sage and Sulphur Compound" you will get this famous old recipe which can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, feverish, itchy scalp and falling hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark, glossy and abundant.—Adv.

Save Money On Your Painting

There are two ways you can save money on paint bills this season—

First—Don't wait till the surface is in such bad condition that it will require extra time scraping and burning to get it ready for the new coat.

Second—Use paint of highest quality.

Lowe Brothers
High Standard
Liquid Paint

It covers most square feet to the gallon wears longest and, therefore, costs less.

WHAT SUCCESS MEANS TO ME.

(By Alice Joyce, noted motion picture actress.)

If Aladdin's genii were suddenly to appear before me and offer me a choice of careers. I would wave him away and tell him that I am perfectly content to remain a motion picture actress.

To know that a million people are daily watching your efforts on a thousand different screens; to feel that your work is assisting the troubled and weary to forget the cares which beset them—what other career can afford the feeling of satisfaction that comes of these thoughts?

If I am successful, it means that I occupy a warm place in the heart of the motion picture public and that is the reason I have always endeavored to do my utmost to retain the good will of the people who see me in photoplays.

I have a cozy little home here in Jacksonville, Fla., where I spend my winters and in the summer I go to New York. Consequently nothing prevents me from having as much "home life" as anybody. Yes, I am happy and contented. And that last, by the way, is exactly what success means to me!

NEW SEAMAN'S BILL IS MOST IMPORTANT

Andrew Feruseth Discusses Law Just Enacted by Congress.

(By Gilson Gardner.)

Washington, March 11.—The most important legislation enacted by the Sixty-third congress in the opinion of Andrew Feruseth, veteran president of the seaman's union (an opinion which will be shared by many other people also) is the so-called seaman's bill. I asked Feruseth to explain in detail what the bill will accomplish.

"In the first place," said Feruseth, "the bill does not go into immediate effect. It will apply to American vessels eight months after the fall of 1915. On foreign vessels, coming to American ports, it will take effect January 4, 1916; so some people are becoming prematurely excited about the act. The law is the most important legislation, in my judgment, which has been enacted by congress in fifty years. The biggest thing that it does is to abolish involuntary servitude. This is the last involuntary servitude in the jurisdiction of the United States. I refer to the arrest and detention and return to their vessels of seamen who quit work in violation of their contract to labor. This is to be true on all American vessels everywhere and on foreign vessels while in the ports of the United States. Civilization has waited long for the correction of this abuse; this heritage of an age of white man slavery. The seaman is entitled under this law to one-half of his pay, collectable in the port he visits but he cannot collect oftener than once in five days in case the ship touches at ports more frequently than once in five days. Thus a seaman cannot be compelled by having all of his pay withheld to complete a voyage in case he is subjected to ill-treatment or desires to terminate his contract of service.

"In the interest of safety," continued Feruseth, "this law insures a certain number of skilled men on board the vessel, by restoring the rating of 'able seaman' and defining what it means. For further safety the law provides that 75 per cent. of the crew in each department of the vessel must be able to understand and speak the language of the officers. This is so that in case of emergency the orders can be quickly transmitted by officers to crew, which would not be the case where they are foreigners depending on interpreters for the translation of their orders, as has frequently been the case in the past.

"The bill prohibits the payment of wages before they are earned, thereby abolishing 'crimping' and 'shanghying.' It provides for better forecastles and better sanitary arrangements. It sets standards for boats and davits to lower them and compels the proper equipment of lifeboats. The bill does not provide enough boats nor the proper manning of the boats, but even on this score it is a long step in advance. On the ocean it provides for 75 per cent. of boats and 25 per cent. of rafts. On bays and sounds and where the water is not deep enough to submerge the vessel, the kind and amount of life-saving equipment and manning is left to the inspection department of the department of commerce.

"The law thus gives three important things: first, freedom to the seaman; second, improved safety at sea, and, third, it equalizes the cost of operation of foreign and American vessels trading from and to American ports. It will have a strong tendency to equalize wages of seamen throughout the civilized world. It will be a very strong inducement to foreign nations to adopt similar laws because they will lose seamen unless they do. It will raise the standing of seamen and restore their skill and bring a better class of men to sea and it will bring back to America a merchant marine and furnish a real reserve for the American navy if the government chooses to use it for that purpose.

"This," said Feruseth, "is world legislation. The secretary of commerce is authorized to make rules for carrying out important sections in the bill, and of course, it is possible that Commissioner of Navigation Chamberlain and Inspector Uhler, of the steamboat inspection service, may succeed in making rules nullifying or minimizing the effects of the act. They have constantly opposed certain features of this legislation and their course will have to be closely watched in the public interest."

Andrew Feruseth has worked for twenty years for this legislation, living in Washington on an able seaman's wage, and refused to accept more from his seaman's union. If this legislation had failed, the effect would have been very serious. The seamen had become desperate and the I. W. W. organizers were making inroads on the union, especially on the Pacific coast, where the competition of Asiatics on American vessels had become especially keen.

Bed-Wetting Cured in Ten Days

URI-STOP WILL CURE

Don't Wait for Children to Outgrow the Trouble—Start Them Taking Uri-Stop Today.

Bed wetting is a disease and should be given prompt attention. The wonderful success realized by Uri-Stop seems little short of marvelous and many cures have been effected in Fort Wayne. Bed wetting is not a local trouble alone but is a disease embracing the entire urinary system as well as the bladder and kidneys. Uri-Stop is put up in tablet form; pure and harmless. No irritation or harmful action. The affected parts are toned up, invigorated and restored to their normal condition. Can be taken by the most delicate child. Mail orders solicited by the manufacturers. Price $1.00.

The Beattey Chemical Co., Ltd., Fort Wayne, Ind.

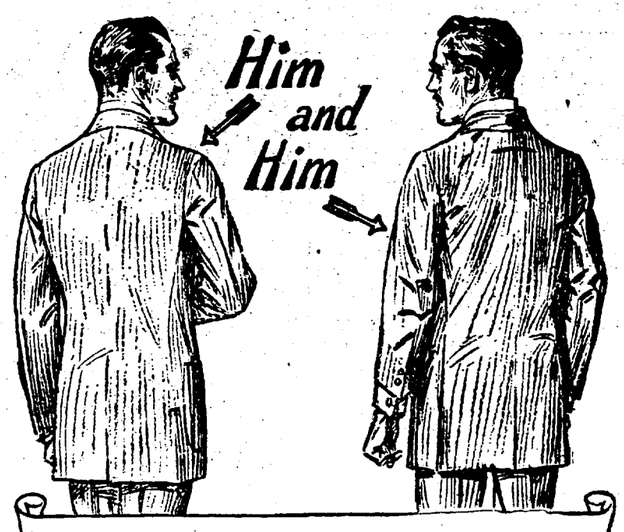
SUCCESSFULLY DONE.

"I wonder why so many people feel quite ill now. They are out of style."

Wear your Tailor?

IF there is a man in town who has not had the humiliating experience of being the "him" at the right above, we would like to know him. For only $20 --and from that price up--he can get a perfect FIT, a guaranteed fit. A suit made of all wool and designed and put together by the best tailors living anywhere in this country.

You know



Correct—
Looks right—
costs no more. You can just as well have this kind.

Cost just as much at the beginning. Coat collar is either too high or falls away back. Shoulders wrinkle. Vest sags. That is enough—you know the kind.

YOU Can Be Dressed EITHER Way

Wear your Tailor?

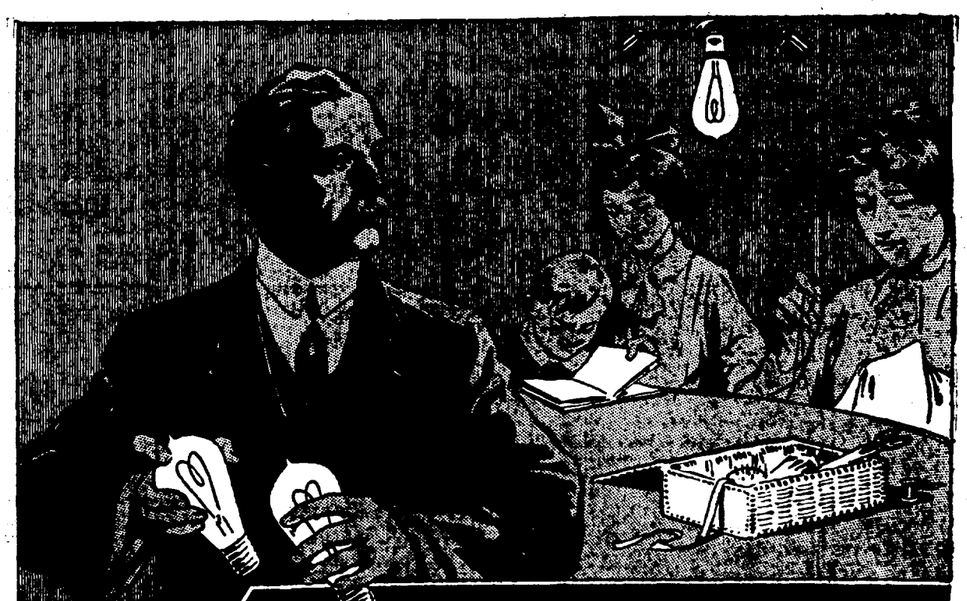
You wouldn't wear a 7½ hat if 7 were your size, even if you could buy the former for considerably less would you?

THEN why wear clothes made for nobody in particular when we will tailor the the finest of clothes expressly for you---

To fit you alone
---$20 and up
Suit or overcoat

HEIDER & CO.

113 E. Wayne Street



You wouldn't steal Light from your family

When it costs no more in light bills, it is like stealing the light by which your wife sews and your children study not to give them the nearest approach to sunlight—

EDISON MAZDA LAMPS

Unless you put an EDISON MAZDA in every socket you are shutting off two-thirds of the light you could readily get because an EDISON MAZDA gives three times as much light as an old-style carbon lamp.

You should have them in every room. As there are many different sizes, we shall gladly help you select the ones to give you just the right radiance.

Oats—Receipts, 5 loads; 55@56c bu.

CHICAGO GRAIN AND PROVISIONS.

Chicago, March 12.—Rapidly diminishing supplies in mills and elevators had a bullish effect today on the price of wheat. There was lively buying as a result of the government reports showing the total stock to be about 20,000,000 bushels less than at the corresponding time a year ago. After opening ⅝c to 1½c higher, the market here made a decided further upturn before beginning to react.

The close was strong at 1½c to 2¾c above last night.

Free purchasing by commission houses lifted corn. Rural offerings were light. The opening, which varied from the same as last night to ⅛@¼c higher, was followed by a moderate gain all around.

The close was firm at ⅝c to ¾@⅞c net advance.

Continued export call gave strength to oats. Estimates of the Argentine surplus were said to have been greatly reduced.

Provisions rose with hogs. Stockyard interests, however, seemed willing to unload on the bulge.

Range of Prices for the Day.
Chicago, March 12, 1915.

Wheat:	Open.	High.	Low.	Close.
May	1.53	1.55⅞	1.53	1.55¼

GUESS IF THEY ARE MARRIED!

HELLO TOM. AM I LATE?
NO, NOT VERY. PULL UP THAT CHAIR FOR A MINUTE
THERE WAS THE MOST IMPERTINENT CONDUCTOR ON THE CAR THAT I CAME DOWN ON. I WAS SO MAD
SOME FRESH GUY EH? WHAT DID HE DO?
HE KEPT LOOKING AT ME AS IF I HAD NOT PAID MY FARE
WHAT DID YOU DO?
I LOOKED RIGHT BACK AT HIM JUST AS THOUGH I HAD PAID IT
YOU WIN!

THE DAY ON WALL STREET.

New York, March 12. — Automobile shares were again conspicuous at the outset of today's trading, with further material gains, while speculative favorites were relatively neglected. The advance in the Motor issues and affiliated stocks ranged from 1½c to 4⅛ points and was due in large part to professional manipulation, outside interest being trifling. Among the leaders U. S. Steel and Amalgamated Copper gained one-half a point each, with strength in Lehigh Valley and "Soo." Of the more dormant specialties American Woolen preferred was prominent for its rise of 2½.

Motor shares continued to absorb the bulk of the light trading, dealings in those issues comprising about 20 per cent. of the early sessions for the entire output. Steel, Union Pacific, Reading and some others of the active group were in steady demand, this being reflected in their higher price levels. Among the more severe declines were losses of two to four and one-half points in United Railways of San Francisco common and preferred. Bonds were irregular and narrow.

Southern Railway preferred fell five points to 45 in the final dealings on passing of the dividend. Representative stocks were at lowest levels of the day. The closing was heavy.

THE WEATHER.

OFFICIAL FORECASTS.

For Fort Wayne and vicinity: Fair tonight and Saturday; not much change in temperature. Lowest tonight, about 27 degrees.

For Indiana and Ohio: Fair tonight and Saturday.

For Lower Michigan: Fair tonight and Saturday; slightly warmer Saturday in north portion.

WEATHER CONDITIONS.

Fair weather prevails this morning over nearly all sections of the country. Very little precipitation has occurred during the last twenty-four hours, and no well defined storm exists this morning over any section of the country.

Moderately cool weather continues over the central states, and freezing temperatures extend southward to Tennessee this morning. In the northwest warmer weather is general and no zero temperatures are reported from that section.

Fair weather will continue in this section tonight and Saturday, with but slight changes in temperature.

W. S. PALMER, Local Forecaster.

MAY UTILIZE INVENTION.

U. S. Government Likely to Manufacture Rittman Chemicals.

Washington, March 11.—A company to be organized and operated under the supervision of the treasury for the benefit of the public may utilize commercially the new Rittman processes of manufacturing gasoline and two chemicals used in the making of ammunition and dye stuffs.

While the young inventor is turning over to the United States government the results of his researches in accordance with the rule that has been established, that employes shall not profit personally by the use of anything they invent while serving the government, Rittman is permitted to obtain patents abroad and to restrict the use of his invention to one company if he desires. He is now having the processes patented in various countries of Europe.

CARD OF THANKS.

We wish to thank friends and neighbors for their many deeds of kindness during the illness and death of our beloved wife and mother; also do we return thanks for the many floral offerings and to Rev. G. W. Doege for his words of sympathy and consolation.
ANTHONY STEPHAN AND CHILD.

British life insurance companies have about 38,000,000 policies in force.

IN THE CHURCHES

PROGRAM FOR TOUR PARTY COMPLETED

W. C. Pearce and Marion Lawrence Will Speak at Noonday Lunch.

The local committee in charge of the program for the International Sunday School tour party has completed its arrangements and have outlined the work that will be done by the members of the party which will be in this city next Tuesday. The program begins with a noon day lunch at the First Baptist church at which time W. C. Pearce, the superintendent of the Adult division, will speak on "The Tread of a Mighty Army," followed by another address by Marian Lawrence on "Investment That Pays."

The afternoon and evening meetings will be held at the Wayne Street M. E. church and the program is:

2:30—Music—Dr. Geo. H. Lau, director.
2:45—Address, "The Challenge of America's Adult Bible Classes"—W. C. Pearce.
3:30—Round Table Conference—Marion Lawrence in charge.
4:30—Children's meeting at West Jefferson Street church. Stereopticon lecture by Bert Cashman on "The Sunday School Work of the World."
7:30—Music—Geo. H. Lau, director.
8:00—Short Addresses — Prominent Business Men.
8:30—Address — Marion Lawrence, "Greatest Character Factory in the World."

A banner will be awarded to the school having the largest percentage of attendance based upon the average attendance of 1914.

FORTY HOURS DEVOTION OPENS.

Rev. V. H. Krull Delivers Sermon at St. Mary's Catholic Church.

With solemn high mass at 8 o'clock Friday morning the forty hours devotion opened at St. Mary's Catholic church. Rev. Virgilius H. Krull, C. PP. S., a Precious Blood missionary, who has been engaged to conduct the services delivered the sermon. He will preach morning and evening during the devotion services, the solemn closing of which will take place Sunday evening.

Rt. Rev. Mgr. J. H. Oechtering was celebrant of the mass at 8 o'clock Friday morning and was assisted by Rev. John B. Steger, of the parish, and Rev. V. H. Krull. A large audience was present at the opening services.

* * *

Held Services for Old People.

A service for old people and "shut-ins" was the opening of the evangelistic meeting last night at the East Creighton Avenue Church of Christ. Messages were received from several "shut-ins" who were unable to be present. Mrs. Mary Lenfesty, 81 years, 2125 Gay street, was the oldest person present. Two were added to the membership of the church last night. A baptismal service will be held tonight. The Junior Christian Endeavor society will have "Every Member" night tonight, and reports will also be heard from the Endeavorers who were in attendance last night with the Associated Christian Workers upon the Pitzeer-Upson revival at New Haven. "He Went Away Sorrowful" will be the subject of the pastor, Rev. E. H. Clifford, tonight at 7:45.

* * *

Rev. Beatty Wanted at Goshen.

The Trinity M. E. congregation of Elkhart met Thursday evening and by a unanimous vote adopted a resolution asking that the Northern Indiana M. E. conference when it meets in annual session at Auburn starting April 7 elect Rev. J. A. Beatty superintendent of the Goshen district, to succeed Rev. Somerville Light, who has served six years, the time limit. Rev. Beatty was formerly pastor of Trinity church and left there when he was appointed superintendent of the Fort Wayne district.

* * *

Three Cars Were Needed.

Over 225 members of the Associated Christian Workers went to New Haven Thursday evening to attend the Pitzer-Upson revival meetings and it was necessary to hire three interurban cars to accommodate all. The workers filled the church and many were compelled to stand. Rev. Pitzer spoke on "Repentance." Nine responded to the invitation, raising the total number of decisions to 62.

* * *

First Presbyterian Church.

Regular preparatory services will be held at 7:30 o'clock Friday evening at the First Presbyterian church. The pastor, Rev. H. B. Master, will speak on the topic "Loyalty to Christ." Every member who possibly can is urged to come as this will be the preparation for the communion service on the coming Sabbath.

* * *

League Entertains New Members.

The members of the Epworth League of the First M. E. church gave a get-acquainted party Thursday evening in the league rooms of the church for all the new members who have recently united with the church. An interesting program of music and recitations was rendered. Each person present wore a large identification card.

* * *

S. S. Officers Meet Saturday.

All township and county Sunday school officers are requested to attend a council meeting to be held at 10 o'clock Saturday morning at the Young Women's Christian association. Lunch will be served. Important business is to be brought up.

* * *

Church Notes.

The Junior League of the Trinity M. E. church will hold a penny supper Friday evening from 5 to 8 o'clock in the church basement.

The Young People's alliance of the Creighton Avenue Evangelical church will [illegible]

DECATUR NEWS.

Decatur, Ind., March 12.—The funeral of Walter Murray was held this afternoon at 2 o'clock from the Presbyterian church. The barbers attended in a body.

John Spuhler was at Monroeville yesterday, where he cried a sale.

Dr. Elizabeth Burns has returned from Findlay, O., where she attended the wedding of Vinnie Cutting Lyons and Curtis B. LaRowe.

Samuel Yost, who has returned from a several months' stay in Albuquerque, N. M., is bedfast, his condition having become worse after going to New Mexico. He returned home two weeks ago and prior to returning here had been bedfast five weeks.

Mr. and Mrs. Jacob Roth and daughter Goldie went to Fort Wayne.

J. W. Edwards went to Berne on business.

Ode Fullenkamp and Mrs. Fred Fullenkamp went to Fort Wayne, where the former attended to business.

Miss Karney, a trained nurse from Fort Wayne, arrived to take care of Mary Jane, eight-months-old daughter of Mr. and Mrs. Todd Linn.

Mr. and Mrs. G. C. Steele, of Huntington, were here and closed a deal for the sale of their residence on Fifth street to Dr. and Mrs. C. R. Weaver.

James Okeley and family have moved to Willshire, O.

The Ernst Schlickman family has moved into the Amos Yoder residence on Monroe street.

Mrs. Henry Hoppell, of Willshire, O., and Mrs. Mary Davis, of Salem, are guests of Mrs. F. C. Summers.

Samuel Shepherd returned to Fort Jennings, O., after a visit with his sister, Mrs. F. C. Summers.

Mrs. Jane Ball, of Magley, went to Fort Wayne to visit with a sister, Mrs. Barbara Heckler, who is ill.

Mrs. Adam Deam and daughters, Mrs. Bertha Hakey and Miss Mabel Deam, went to Fort Wayne for a visit.

Mesdames B. W. Sholty, Will Butler and E. A. Mann were Fort Wayne visitors.

Mrs. Ed Johnson and children, Lucile and Lester, visited with friends in Monmouth.

Miss Naomi Christen, daughter of County School Superintendent E. S. Christen, is ill of the grip.

Mrs. H. F. Dauer left for Fort Wayne, where she was called by the illness of her daughter, Mrs. L. F. Merrillat, who has been ill of rheumatism, which is affecting her heart.

Mrs. Shafer Peterson visited in Monmouth.

Miss Jean Lutz went to Fort Wayne.

Friends here have received word of the death of Benjamin Ogden, an aged man living on the Decatur-Fort Wayne interurban, and well known here.

The first of a series of Thursday noon luncheons was given by the ladies of the churches at the Knights of Pythias home. Mrs. J. W. McCombe, of the Honeywell evangelistic party, was in charge and gave an address after the luncheon. Fine music was also rendered by Mrs. E. D. Engeler and Miss Marie Patterson.

NOTICE!

If your are moving phone 173, The Sentinel, so you will not miss an issue. 4-9-tf

MISTAKE MAY CAUSE DEATH.

Woman Swallows Bichloride Instead of Laxative Tablets.

Lafayette, Ind., March 12.—Mrs Thomas Coulter was taken to St. Elizabeth hospital today, suffering from bichloride of mercury poisoning. It is believed her condition is hopeless. One of Mrs. Coulter's children had been suffering with an injured hand, and some bichloride of mercury tablets had been bought for use in an antiseptic wash.

Early today the mother, who was still in bed, sent one of the children down stairs for some laxative tablets, which were kept in the same cupboard with the mercury tablets. The child mistook the poison for the laxative, and Mrs. Coulter swallowed two of them. Soon after, a doctor was summoned and the contents of her stomach were removed by means of a pump.

Dreier's Drug Values

Form items of interest to every one who appreciates the full buying power of dollars and cents.

Our entire line stands for drug store quality, Service, Price—unequalled in Fort Wayne and excelled nowhere. Every item furnishes in itself a convincing argument that "it pays to think of DREIER'S First."

OLIVE OIL

For table or medicinal use or as a rubbing oil. This Olive Oil is absolutely pure and of the highest grade ever imported into this country.

Dreier's Olive Oil is not only better and cheaper—we also give you full measure, ½ pt. 25c; 1 pt., 50c; 1 qt., $1.00.

SULPHUR CANDLES

Will destroy disease germs and vermin in living rooms, kitchens, cellars, stables, poultry houses and in garments or bedding. Large size with pan, Saturday Special.....7c

For Polishing Automobiles

THERE IS NOTHING EQUAL TO

Johnson's Prepared Wax

It preserves the varnish and forms a protection from the weather—it imparts a hard, dry, high gloss and does not collect dust. "Sheds water like a duck." 1 lb., 45c; also 25c and 10c sizes.

1 25c Tooth Brush and 1 25c Druna Tooth Paste; total value 50c.

WILSON DEMANDS THAT SLAYERS OF AMERICAN BE PUNISHED

RUSSIAN BLACK SEA FLEET TRAINS ITS GUNS ON BOSPHORUS

KILLING OF CHICAGO MAN IN MEXICO CITY

While American Flag Floated Over His House Moves Government to Quick and Decisive Action.

Washington, March 12.—John B. McManus, a prominent American in Mexico City, originally from Chicago, was shot and killed in his home yesterday by Zapata troopers as they were occupuying the Mexican capital after the evacuation of Gen. Obregon and the Carranza forces.

Official dispatches today from the Brazilian minister in Mexico City reporting the affair to the state department, say the American flag was floating over McManus' house and that his doors had been closed and sealed by the Brazilian consul.

The Brazilian minister intimated the killing may have been one of revenge because it was charged when Zapata troops recently occupied the capital McManus had killed three of their number.

After a conference between President Wilson and the cabinet a formal demand was sent to Gen. Salazar insisting that the Zapatistas guilty of the murder of McManus be punished and that adequate reparation be made to the family of the victim.

Took Steps for Protection.

The fact that the American flag had been hoisted over the house and the doors had been sealed by the consul of a neutral power was taken by officials here to indicate that either McManus felt he was in danger or that all foreigners were fearful of their safety with the entry of the Zapata troops and took steps for protection. The killing of the American is described in the official dispatches as having caused the greatest excitement and emotion in the foreign colony.

The Brazilian minister reported that Gen. Salazar, the Zapata commander, had promised to find the guilty troopers and punish them. The official dispatches telling of the killing did not contain great detail, but indicated that there was a dispute over whether McManus or the Zapata soldiers began the shooting. It was added, however, that the American's hat was shot full of holes, with evidence that the firing was done at close range.

Causes Deep Concern.

In Washington the news of the killing was received in official quarters with deep concern. The Brazilian minister's dispatches arrived just as the cabinet was assembling and Secretary Bryan took them to be laid before the president. Mr. Bryan said that a searching investigation was under way.

A search of state department records seemed to establish that Gen. Salazar, commanding the Zapata troops, was not Gen. Ynez Salazar, a notorious bandit chief charged with the murder of several Americans, among them Thomas Fountain, an American captured as a prisoner of war while serving as a machine gun operator in the Madero army. Salazar was taken a prisoner after the defeat of Huerta's army by Villa, at Ojiniga, and was for months interned with the other Mexican troops in a prison in New Mexico. He escaped to Mexico last December. Supplementary dispatches from the Brazilian minister said good order prevailed in the capital from the time Obregon and his Carranza troops left until the Zapata forces entered.

Holds Them Responsible.

It was pointed out here that President Wilson's note to Gen. Carranza, calling upon him in strong terms to alter his attitude toward foreigners in Mexico City, specifically pointed out that the American government intended to hold Carranza and Obregon personally responsible for any injury to life and property of foreigners if they failed to provide adequate protection in the event of their evacuation of the capital.

"The government of the United States is informed that the City of Mexico may soon be evacuated by the constitutionalist forces," said President Wilson's note, leaving the population without protection against whatever faction may choose to occupy it, thus shirking the responsibility which may happen as a result of the instigation to lawlessness before and after the exacuation of the city.

"The government of the United States therefore desires General Obregon and Gen. Carranza to know that it has, after mature consideration, determined that if as a result of the situation for which they are responsible, Americans will suffer by reason of the conduct of the constitutionalist forces in Mexico City, or if they fail to provide means of protection to lfe and property, will hold Gen. Obregon and Gen. Carranza personally responsible. Therefore, having reached this determination with the greatest consideratioin, the government of the United States will take such measures as are expedient to bring to account those who are personally responsible for what may occur."

It was also reported to the state department that after Gen. Obregon left Mexico City there was some looting in Popotla, a suburb, but that there was no general looting or disorder.

Gen. Salazar also told the Brazilian minister, the state department advices said, that he would see to making arrangements for transportation of food supplies into the city.

Accounts of Killing Vary.

Accounts of the killing of McManus varied. Some persons said he fired the first shot at the Zapatistas as they were trying to force an entrance to his house. Others say the Zapatistas began the shooting.

The American's hat was full of bullet holes and that is said to indicate that the attack on him had been made from a short distance. After he had been killed the house was looted. The mat-

YOUNGEST "BOOTLEGGER," AGED 9, UNDER ARREST.

Bluefields, W. Va., March 12.—William Hubbard, 9 years old, claimed by the federal authorities to be the youngest "bootlegger" on record, was arrested during a raid by a United States marshal's posse in the mountains twenty miles from Norton. Young Hubbard, according to the revenue officers, was found together with an 18-year-old cousin operating a still which had a capacity of thirty gallons.

VETERANS ENJOY DINNER IN HONOR OR CAPT. F. F. BOLTZ.

Seven well known veterans thoroughly enjoyed a dinner given by Amos R. Walter at his home on West Creighton avenue Thursday in honor of Capt. Ferdinand F. Boltz, of Knightstown, who is now visiting old friends in the city. In the front row of the picture, reading from left to right, are William Devlin, Michael Huss, Capt. Boltz, Lieut. Josiah King. At the rear are standing Joseph Kickly, A. R. Walter and James E. Graham. Messrs. Devlin, Huss, Boltz, King and Kickley were members of the Eighty-eighth regiment of Indiana volunteers, Mr. Walter served in the Fifth Ohio volunteer battery and Mr. Graham in the Forty-third Ohio volunteer infantry.

"THANK YOU," SAID ROBERTS

Mayor Was Much Pleased at Lloyd's Work on Registration Day.

COOPER WITNESS IN CONSPIRACY TRIAL

More Terre Haute Election Tactics Come Out in Federal Court.

Indianapolis, Ind., March 12.—Mayor Donn M. Roberts, of Terre Haute, one of the 28 defendants in the election fraud trial in the federal court, thanked Robert Lloyd, a policeman who had pleaded guilty for the work he did on registration last October.

"Bobbie" Lloyd testified that the mayor said, "I want to thank you for the work you did on registration day." Lloyd previously had told about driving a city automobile and hauling negroes from a number of saloons to the "Bagdad" precinct.

The night before the election Lloyd said Hilton Redman, a defendant, and Night Chief of Police John Nugent, who has pleaded guilty, "planned a frame up to get rid of some election workers."

"I was going in a machine with Redman on election morning," continued Lloyd, "when Chief of Police Holler told me to go on a motorcycle. Redman agreed to meet me at the precinct, but he did not show up." He said Redman gave him more than $400 and two revolvers to keep for Redman the night before the election. Lloyd said he returned them the next morning.

Special Detention Cells.

Lloyd also told about building two special detention cells at police head-

TRANSPORT AWAIT TROOPS AT KINGSTON

New York, March 12.—Passengers and crew of the American steamer Almirante, in from South American ports, by way of the West Indies, told today of the presence of a fleet of nine British transports at Kingston, Jamaica, apparently lying in readiness to convoy troops to Europe.

The transports, it was said, were anchored just off the port. Four British men of war lay alongside. One of the warships was recognized by the Almirante's passengers as the cruiser Sydney, which sank the German sea raider, Emden, off Cocos island, Nov. 10, 1914. The Sydney's presence in Atlantic waters had not been recorded before. None of the other warships was recognized.

OIL KING'S WIFE IS SUMMONED BY DEATH

Mrs. John D. Rockefeller Passes Away at Pocantico Hills.

New York, March 12.—Mrs. John D. Rockefeller, wife of the oil king, died at 10:20 o'clock this forenoon at the Rockefeller country home at Pocantico Hills, just outside of Tarrytown, where she had been ill for some time. She was 75 years of age.

Fort Wayne Officer Commands the Fulton

LIEUT. JAMES D. WILLSON.

Lieut. James D. Willson has been assigned to the office of commander at the Fulton, the government's repair ship recently launched and equipped at the naval yards in Boston, and is now on board the ship enroute to Newport News, where equipment will be completed this week. Then the Fulton will go to New York and be provisioned, after which it will sail for Pensacola to join the submarine fleet now in practice. Lieutenant Willson had charge of the repair ship at Vera Cruz, Mexico, during the trouble with that country a year ago. The Fulton is said to be the best equipped repair ship owned by the United States and Lieutenant Willson is considered one of the most capable commanders of similar craft in the navy. He is a graduate of Naval Academy at Annapolis. During her husband's stay in southern waters, Mrs. Willson and baby will be the guest of her parents, Mr. and Mrs. B. T. Benoy, of this city. They arrived here last night.

CITY TO FIGHT TO THE LIMIT

Right to Make Lighting Rates Will Go to the Highest Court.

WILL AFFORD TEST OF UTILITIES LAW

Traction Company's Complaint to Commission Means Bitter War.

"Fight? Of course we'll fight. We'll fight to the limit—through the supreme court of the United States, if necessary, to determine the right of the people of Fort Wayne to have all the benefits of the public lighting and power plant into which they have put their money."

This was the declaration of Mayor William J. Hosey Friday, when asked if the city government would make a contest of the complaint filed by the Fort Wayne and Northern Indiana Traction company with the Indiana public utilities commission that the city light and power department is employing unfair methods in its competition with the traction company.

"I am not given any anxiety by this complaint," continued the mayor. "Many of the things charged are wholly untrue and without foundation, other things charged the traction company is as guilty as the city, if there is guilt of any sort, which I question. The scope of this utilities law and the powers of the commission that operates under it, to control municipally owned and operated utilities has got to be tested and the sooner that is done the better. We will prepare an answer to the charges that have been filed and shall take all other essential steps that this law requires. Then we will go farther, taking such steps as we may be forced to take in the courts of the land."

Will Test the State's Law.

That the course determined upon by

(Continued on Page 16, Column 6.)

WANT RATES FIXED ON TWO CENT BASIS

Indianapolis, Ind., March 12.—The Fort Wayne and Northern Indiana Traction company has petitioned the public service commission to be allowed to fix its rates on a 2-cent-a-mile basis. The commission took the case under advisement.

The commission has already granted the Union Traction company of Indiana and the Terre Haute, Indianapolis and Eastern Traction company permission to make their rates onthe 2-cent-a-mile basis.

GERMAN DRIVE NOW NEARER PRZASNYSZ

Constantinople Reports Repulse of British Fleet's Landing Party in the Dardanelles.

Today's War News Given in Summary.

The German drive at Phzasnysz, in northern Poland has carried the advancing army within two and a half miles of the city, the Berlin war office announced today. Russian reports of recent victories are denied and various German successes are recounted. It is said that in two battles 7,200 Russians were captured.

The German statement admits the capture by the British of Neuve Chappelle, as announced in London yesterday, but says attempts to gain further ground were defeated.

Advices from Constantinople by way of Berlin are to the effect that the bombardment of the Dardanelles is being hindered by storms and fog and that the attacking fleet has accomplished nothing more. A British landing party given variously at 1,000 to 2,000 men was driven back, according to these reports, one of which asserts that all of the British were killed or captured.

Berlin, March 12.—The general staff of the German army today gave out a report on the progress of the war reading as follows:

"In the western arena:

"Two battleships of the enemy accompanied by two torpedo boats, fired on West Ende, on the Belgian coast to the north of Nieuport yesterday. Seventy shots were fired without doing any damage. When our batteries became active the warships of the enemy retreated.

"The British who have occupied Neuve Chappelle advanced several times last night to the eastward, but were repulsed. Also to the north of Neuve Chapelle minor British attacks yesterday were repulsed. The fighting in this district still continues.

"In the eastern arena: To the north of the forest of Augustowo we vanquished a force of Russians which avoided complete defeat by retreating hastily in the direction of Grodno. We took more than 4,000 prisoners, including two commanders of regiments, and we captured three cannon and ten machine guns. Furthermore from the Augustowo district the Russians began a retreat in the direction of Grodno.

Near Przasynzsz German troops, after giving way for a short time, are again four kilometers (2½ miles) north of that town. Since relinquishing Przasnysz the Germans have taken prisoners a total of 11,460 Russians on battlefields between the Vistula and the Orzye rivers."

RUSSIANS READY TO STRIKE.

Black Sea Fleet Expected to Attack Turkish Coast Cities.

London, March 12.—It is learned through diplomatic sources in London that the Russian Black sea fleet is expected to start a bombardment of the Bosphorus ports today in active co-operation with the allied fleet which is attempting to force its way to Constantinople through the Dardanelles from the south.

The sweeping advance of British and Indian troops around Neuvo Chappelle in the direction of the strong German position at La Bassee is regarded by some English newspapers today as the commencement of active operations on the left wing of the allied front in the western theater of the war and as likely

(Continued on Page 16, Column 5).

CHIEF OF POLICE TO MEET SKATERS

Wants Boys and Girls to Come to His Office on Saturday

Chief of Police Charles Lenz invites all boys and girls in Fort Wayne who have roller skates to meet him at 2 o'clock Saturday afternoon at police headquarters, at which time he will talk to them about skating on the sidewalks. Chief Lenz does not want the boys and girls to stay away in any fear of scolding or reprimand. He wants to talk to them about sidewalk skating and be instructed as to the things they must not do. Until there is an ordinance that requires the police department to keep skaters off of the sidewalks Chief Lenz will not molest those who observe his instructions. Skaters must not skate in groups, must be careful not to interfere with pedestrians and must not skate in front of homes where they have been warned there are sick persons. All these things the chief will explain to the boys and girls who call on him Saturday afternoon.

Chief Lenz says that for the past day or two he has been bombarded over the telephone in a distracting manner by men and women—chiefly women—who made protest against his policy of non-interference with skaters. They drove him from his office Thursday afternoon and pursued him to his home, where the protests were dinned into his ears until bedtime. He remains firm that he will not alter his policy until there is an ordinance requiring him to interfere.

Boys and girls who skate will find Chief Lenz's office on the first floor in the south end of the city hall, Berry and Barr streets.

UNDERGOES ORDEAL WELL.

McAdoo's Condition Good After Operation for Appendicitis.

Washington, March 12.—Secretary McAdoo was operated upon for appendicitis today at a hospital here. The physicians issued a bulletin saying the operation had been successful in every way and their patient was in a very favorable condition. Mrs. McAdoo, President Wilson's youngest daughter, accompanied her husband to the hospital and waited in the ante room until the operation was over.

TRAILING A TRUNK FULL OF EXPLOSIVE

New York Chemist's Gun Cotton Speeding Somewhere in the West.

Chicago, March 12.—A trunk full of gun cotton sufficient to wreck a train, should it explode, was the article which federal agents exerted their efforts to find today. The trunk, with its contents, was declared to be the property of Dr. Herman Bodenheim, of New York, who was arrested yesterday at St. Louis by federal officers on a charge of having unlawfully transported explosives.

Bodenheim is said to be a chemist in New York and the trunk is believed to have been shipped by passenger train from New York to San Francisco. It is said to have been traced to St. Louis and to Kansas City and is now probably speeding across the western country. Dr. Bodenheim, who was declared to have carried a small valise filled gun cotton, probably will be arraigned here tomorrow.

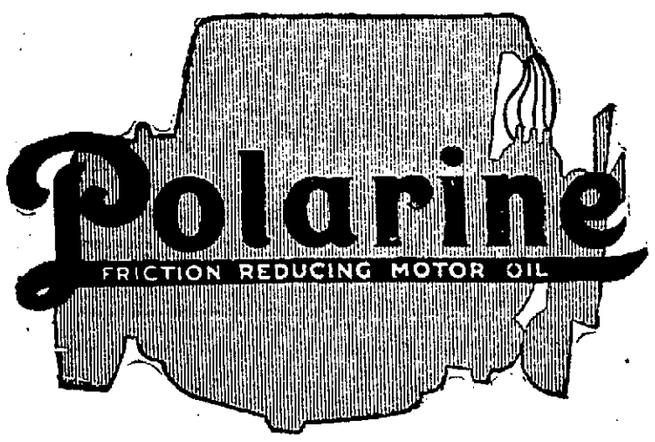
LAST MINUTE NEWS

PALACE IS STORMED TO RELEASE PRIESTS

Los Angeles, Cal., March 12.—Two thousand Mexicans stormed the national palace at Mexico City yesterday in an effort to release 250 Catholic priests imprisoned there, according to advices received here today. A riot followed. Gustavio, chief of police o fthe capital, was stabbed, two Mexican assassins who attacked him, were killed and a large number of persons injured.

PLANT TO DEVELOP RITTMAN INVENTION

Washington, March 12.—Secretary Lane announced after the cabinet meeting today that he had entered into contract with private interests to build a $250,000 plant to handle the invention of Dr. Walter G. Rittman, of the bureau of mines—a process for the manufacture of gasoline, dye stuffs and explosives.



Let It Stand Between *Your* Motor and Deterioration

Excessive carbon, scored cylinders, "knocking," power wasted in friction—all of which *over-load* your motor—are destructive, costly, *unnecessary* troubles.

Hundreds of thousands of motorists in the middle west alone—*all won to POLARINE in the last seven years*—know the protection, the efficiency and *the pleasure* resulting from the *scientifically perfect* lubricating oil.

Do YOU know this oil?

—an oil sufficiently *fluid* to lubricate and completely cover the remotest friction surface.

—an oil of maximum *durability* and correct lubricating body at *any motor speed or temperature.*

—an oil that *pays back it's cost*, not only by saving *repairs* but by maintaining a high *re-sale* value for your car.

Use RED CROWN Gasoline. It means More Power, More Speed, More Miles per Gallon. (315)

GERMANS BRING NEW TROOPS INTO POLAND

London, March 12.—A semi-official statement from Petrograd reports a new movement of German forces in Poland. Following the heavy concentration of German troops for the renewed attack on Przasnysz, near the Prussian border, reinforcements have been brought up in the Pilica river region, southwest of Poland. Petrograd believes, however, that these reinforcements are intended merely to hold the present positions rather than institute another attempt to break through the Russian line toward the Polish capital.

Concerning the great battle which Petrograd says is now in progress in northern Poland few new details have been received. The Russian statement mentions a bombardment of Ossowetz by German aviators but is silent as to the course of the main engagement.

The British attack in Belgium has brought on two vigorous counter movements by the Germans but it is said in London that the ground gained has been held. In Champagne further progress for the French is claimed although the German war office announced two days ago that this battle had been concluded.

M. Gounaris, Greece's new premier, has given specific assurance to France that the policy of his cabinet will not be inimical to the interest of the allies although the Gounaris ministry was created as a result of King Constantine's opposition to the former premier policy of intervening in the war on their side. A London dispatch states that Bulgaria, whose attitude has been a source of concern to Greece, is sending heavy artillery to a point close to the Greek frontier.

Constantinople is reported to be in a state of panic as a result of the attack on the Dardanelles. Although it is presumed that the bombardment of the fortifications is proceeding there are no definite indications as to what is being accomplished beyond the admitted fact that the forts near the entrance of the straits have been damaged if not destroyed.

TEACHERS' PENSION BILL BECOMES LAW

Indianapolis, March 12.—Governor Ralston has permitted the teachers' pension act to become a law, but did not give the measure his approval. He issued a statement in which he says it is his opinion that the law represents "a species of socialism" and that the wisdom of such legislation is "questionable."

However, the governor refused to align his personal views against the will of the legislature and said he is trusting that it may prove wiser legislation than he believes it to be.

The measure was one of the bills passed by the legislature in the last three days of the session and the governor had the right to receive or reject it. His refusal to receive and consider the measure would have meant its death.

ALLEN FARM LANDS AT $26.30 AN ACRE

Indianapolis, Ind., March 12.—Indiana farm lands are valued for taxation purposes at an average of $26.30 an acre, according to a report of the investigation by the state tax board. The $26.30 includes farm houses and other "improvements" and is regarded as representing from 33 to 40 percent. of the true valuation. The assessed valuation varies from $4.50 an acre in Crawford county to $62.50 in Marion county. The average assessed value for farm lands in various counties follows:

Allen, $31.50 an acre; Cass, $29.20 an acre; Delaware, $38; Grant, $37.50; Tippecanoe, $38.50; Vanderburg, $34; Vigo, $34.

The tax commisson's tabulations show that the average assessed valuation of ... and mules is $95 a head; of cattle, $35; hogs, $8; sheep, $4.50. This is regarded as fairly approaching approximate true values, but only 75 per cent. of this valuation is assessed.

Automobiles are valued at an average of $334, according to the board. Some of the counties which show the lowest assessed value in land, are high in the automobile column.

IMPERIAL POTENTATE COMING FOR MEETING

Word has been received by Byron H. Somers, illustrious potentate of Mizpah temple, Ancient Arabic order, Nobles of the Mystic Shrine, that Dr. Frederick R. Smith, imperial potentate, who resides in Rochester, New York, will attend the annual spring ceremonial to be held at the Shrine temple, 227 West Main street, on April 30. Other imperial officers also are expected. The bands and patrol of Zenobia temple, of Toledo, and Saladin temple, of Detroit, will assist in the ceremonial here.

DRY LAW IS NULLIFIED.

Olympia, Wash., March 12.—The sixty day session of the legislature adjourned last night without passing an appropriation to enforce the prohibition law.

All efforts to re-submit the prohibition question were defeated.

THREE POINTS TO BE DECIDED

Puzzling Questions Raised by Career of German Cruiser.

AWAITING RESULT OF THE INQUIRY

Action on But One Point Has Thus Far Been Determined.

Washington, March 12.—Three questions raised by the destruction of the sailing vessel, Wm. P. Frye by the German converted cruiser Prinz Eitel Friedrich and the entry of the latter vessel into an American port for repairs still were to be determined today by the United States government. They are what action shall be taken on account of the sinking of the Frye, the length of time to be allowed the Prinz Eitel to make repairs at Newport News and the disposition of her prisoners. Pending the completion of an inquiry into the case, however, no decision on any of the questions involved was expected.

One thing has been settled and that is that unless the German government offers to make reparation for the sinking of the American ship and expresses regret for the occurrence strong protest will be made by the American government and a claim presented for damages. Officials here are unanimously of the opinion that the German captain had no right to sink the Frye. It was thought likely that the German government, after being acquainted with the facts, would admit the mistake of the German commander and make reparations.

In connection with the neutrality phases of the case officials awaited the receipt today of a report from the collector of the port at Newport News containing the statements of the German commander setting forth his reasons for the sinking of the Frye and the length of time that would be required to repair his ship. Determination of the latter question will be reached after an inquiry by an American naval constructor.

EXPERTS MAKE INSPECTION.

Newport News, Va., March 12.—American naval and shipbuilding experts were inspecting the German converted cruiser Prinz Eitel Friedrich today to determine what repairs are necessary to make the vessel seaworthy. On their report will depend how long the Prinz Eitel will be allowed to remain in this port. Captain Thierichsen has said the cruiser can be made seaworthy within a week, but many weeks, he said, will be required to put the vessel in good condition. The Prinz Eitel went into dry dock here yesterday after the captain had submitted to Collector of the Port Hamilton a report on the condition of his vessel.

The captain has been quoted as saying he sank the American ship because he regarded her cargo as contraband.

It was understood that Commander Thierichens had asked the advice of the German embassy on whether to turn over the original papers of the William P. Frye to Collector Hamilton.

The German commander has agreed to give copies, but insists that the originals must go before a prize court in Germany. The crew of the Frye were paid off today by Captain Kiehne, but they will be held together for the present, at the request of Washington authorities who want to get their formal statements for use in the diplomatic negotiations over the sinking of the American ship.

A. G. Bailey, French consul at Norfolk, has taken charge of the interests of the eighty-three first-class passengers from the French liner Floride who have been refused admission to the United States by the immigration authorities. Until some other disposition is made of them they will remain on board the Prinz Eitel.

DOCTOR ARRESTED ON MURDER CHARGE

Mattoon, Ill., March 12.—Dr. Harold E. Ronalds was arrested late yesterday on a charge of first degree murder and was placed in the Coles county jail, to be held without bond until his case comes up. The Mattoon city court grand jury returned an indictment charging Dr. Ronalds with the murder of his wife, Alice Ronalds, in the Ronalds' bungalow New Year's night, after an alleged drug debauch, participated in by Dr. and Mrs. Ronalds and Mr. and Mrs. C. O. Purcell.

In one count of the indictment Dr. Ronalds is charged with committing a criminal operation; another charges him with assaulting with his fist, and another count charges him with forcing Mrs. Ronalds to drink poison. There are five counts in the indictment.

Dr. Ronalds has been using morphine in large quantities for several years, and his wife is said to have used the drug. Dr. Ronalds refused to make any statement regarding his case.

CAKE IN COURT MADE OF EGGS 10 YEARS OLD

New York, March 12.—Cake made of eggs ten years old was served to jurors in the federal district court yesterday during a hearing in the suit brought by Robert Herbst, an importer, to recover $12,000 because a consignment of preserved Chinese eggs, in which he was interested, was destroyed as unfit for consumption. Edward S. Fowler, formerly collector of the port, and Louis A. Coolidge, his deputy, were among the defendants. The eggs had been preserved in a solution of boraic acid. Dr. Ernest L. Smith, formerly professor of biological chemistry of the Fordham medical school, testified it was possible to keep eggs a hundred years by this method ... preserving their quality.

AWARDS WILL BE MADE IN MILITARY TOURNEY

Fort Wayne Merchants Give Donations Toward College Event.

All preparations for the second annual military tournament at the Concordia college gymnasium for Friday evening have been completed. Awards will be made to the winners of the various contests toward which the merchants of the city have liberally donated.

The cadet corps has been drilling hard during the last week putting on the final touches for tonight's drill. The program will be strictly a military one and will consist chiefly of competitive drills between the various companies, sergeants, corporals, privates and recruits. The battalion will pass in review and will have a salute of the colors. Company A will perform a calisthenic drill and bayonet drill; Company B, wand and company close order drill; Company C, rifle drill, manual of arms and silent manual; Company D, dumbell drill and Butt's manual.

Donations of prizes have been made by the following Fort Wayne business concerns:

Kochlinger Drug Co., Meinzen Drug Co., Wayne Tobacco Co., Baade-Wyneken book store, Patterson-Fletcher, Schields, Barker-Rose, Fort Wayne Hardware and Sporting Co., Beyer Bros., Fisher Bros. Paper Co., Perfection Biscuit Co., Craig Biscuit Co., Moellering Bros. and Millard, Old Schiefer shoe store, Ciles-Stetson Candy Co., Swift Packing Co., Eckart Packing Co.

WOULD PAY $10,000 FOR 10 WEEKS' WORK

New York, March 12.—The board of education will ask the board of estimate today to pay $10,000 each to Dean Herman Schneider, of the University of Cincinnati, and Wm. Wirt, superintendent of schools of Gary, Ind., for ten weeks' services in introducing co-operative, vocational and pro-vocational systems into New York schools.

This was said to be the largest amount ever paid for school services for such a period in this city.

Superintendent Wirt, who was formerly at the head of the Bluffton schools, is well known in Fort Wayne.

While attending a hot box at Dola yesterday Brakeman F. E. Bratt, of the Pennsylvania, slipped and struck one of his kees against the end of a tie. As a result of the accident he is temporarily confined to his home, 2201 Hanna street.

Classic Beauty to Adorn Expo. Coins

Audrey Munson

The Goddess of Liberty has a rival. The classic lady whose features have circulated all the world over on millions of silver dollars no longer rules the kingdom of dollars.

Miss Audrey Munson, whose face is as classic in its perfect proportions as Diana's own has been chosen as the model for the silver dollar of the Panama-Pacific exposition; the commemorative medal to be struck off by the United States mint as an exposition memorial will also be adorned by Miss Munson's classic features.

TEUTON TERROR OF THE SEAS, PRINZ EITEL FRIEDRICH AND THE AMERICAN SHIP WILLIAM P. FRYE, SUNK BY HER.

THE SAILING SHIP WILLIAM P. FRYE (AT RIGHT,) OWNED AND MANNED BY UNITED STATES CITIZENS, WAS SUNK OFF THE COAST OF SOUTH AMERICA BY THE GERMAN COMMERCE RAIDER PRINCE EITEL FRIEDERICH (ABOVE.) THIS EXPLOIT OF THE EITEL FRIEDRICH DURING HER SENSATIONAL CRUISE HALF AROUND THE WORLD MAY CAUSE DIPLOMATIC COMPLICATIONS BETWEEN THE UNITED STATES AND GERMANY.

GENERAL ENDS OWN LIFE AFTER DEFEAT

Berlin, March 12.—The Frankfurter Zeitung has received a private dispatch from Petrograd intimating that General Sievers, commandant of the Russian tenth army corps, which was defeated in the winter battle at the Mazurian lakes, has committed suicide.

The basis for this inference seems to be the fact that rumors have been in circulation concerning a mourning service held for the general in a Lutheran church.

Dispatches from Constantinople tell of the further resultless bombardment by the allies of the Turkish forts at the Dardanelles. The operations have been hindered by stormy and foggy weather. A British landing corps, variously estimated at from 1,000 to 2,000 men, is reported to have been repulsed and compelled to retire to their vessels. One report says these men were either killed or captured by the Turks.

GEN. JOFFRE THANKS WOMAN FOR TOBACCO

Paris, March 12.—Gen. Joffre, the French commander, has sent a letter to Mrs. Clara Washington Topp, of New York, thanking her heartily for the large supply of tobacco she gathered for distribution among the French soldiers. Most of the supply was obtained in New York. General Joffre's letter follows:

"I hasten to thank you heartily and sincerely for the magnificent gift you sent on behalf of generous friends in America to my brave soldiers. I am deeply touched to see your great country taking an interest in them. They deserve all the gifts which are made them because of the courage, energy and unalterable good humor they bring to the defense of a noble cause. You have helped to give them a little joy. Once again their chief thanks you with all his heart."

A business session will be held at the Shrine temple on March 29. At this time plans for the ceremonial will be taken up.

FORT WAYNE MEN INTERESTED IN OIL

A newly organized company to be known as the Citizens' Oil company and composed entirely of Fort Wayne and Louisville, Ky., business men, has been organized, with Ernest Kampe, of this city, as one of the directors.

Fort Wayne citizens who have stock in the new company are the following: J. A. Klett, W. B. Klett, E. G. Kampe, Henry Eckhart, Fred Eckhart, Dr. M. J. Rosenthal, Christ Woebbeking, W. E. Woebbeking, Gustave Woebbeking, M. J. Sites, Perry I. Stahl, Frank Parrot, Henry Hunche, Dr. J. O. Grove, A. C. Heckler, C. E. Crum, A. A. Bassett, Samuel Wolf, Miron Dessauer, B. S. O'Connor, Frank D. Evans and F. L. Reeves.

The company owns and is operating 736 acres of land with seven producing wells and six now being drilled, south of St. Francisville, Ill. A number of the Fort Wayne stockholders will leave the forepart of next week to inspect their wells, taking with them engineer M. A. Howe, of Wabash.

WILL BANQUET DR. HURTY.

Physicians to Honor Indiana Health Board Secretary.

Indianapolis, March 12.—Dr. John N. Hurty, secretary of the state board of health, will be honored on the nineteenth anniversary of his entrance into the service of Indiana, when 200 physicians, health workers and others gather in a local hotel Saturday evening, for a banquet which has been arranged for the secretary by his friends and admirers. Governor Ralston will be toastmaster, and Vice President Marshall is to be one of the speakers. The program includes addresses by Dr. William Low Bryan, president of Indiana university; Dr. William E. Stone, president of Purdue university; Dr. William A. Evans, former health commissioner of Chicago; Dr. Victor C. Vaughan, president of the American Medical association; Dr. Alexander Craig, secretary of the American Medical association, and Miss Vida Newsome, president of the Indiana Federation of Women's clubs.

Fred Anstrup, Wabash car foreman, will go to Toledo tomorrow to attend a meeting of the car foremen of the Wabash system.

COUNTY AGENT HAS BUSY WEEK AHEAD

Meetings Arranged With Farmers for Nearly Every Night.

C. Henry, county agent, has another busy week before him judging from the number of meetings he has scheduled. On Monday evening he will give an oats smut demonstration at the M. E. church in Scipio township. On Wednesday evening he will give an oats demonstration before the newly organized farmers' club of Lake township at a meeting to be held in Bellamy hall at Arcola. On Thursday evening there is to be a corn meeting at Townley and on Friday evening he is to give another oats smut demonstration in district No. 1, Pleasant township.

The farmers of Lake township organized a club Thursday afternoon at a meeting held in Arcola. The following officers were elected: H. A. Rockhill, president; Frank Corbet, jr., vice-president and secretary, and Albert Larrimore, treasurer. An oats smut demonstration was given by Mr. Henry. The demonstratio nthat Mr. Henry was to have given in Madison township Thursday afternoon was postponed for one week.

The county agent was the principal speaker at a meeting of farmers Thursday evening at Leo, Cedar Creek township.

WOULD TAX BACHELORS.

West Virginia Man's Plan to Boost County Road Funds.

Charleston, W. Va., March 12.—Delegate James, of Mingo county, introduced in the West Virginia house of delegates yesterday a bill proposing a tax on bachelors. It would tax all bachelors between 25 and 50 years of age $5 annually. The money would be paid into the county road funds.

ATTACKS DIVORCED WIFE.

Lafayette, Ind., March 12.—Orville Grove slashed the throat of his divorced wife wth a pocket knife in a downtown hotel here last night. The woman is in a critical condition. Grove was arrested.

The members of the board of education of the county will meet Sturday with D. C. McComb, county superintendent, at his office in the court house.

Two women have taken the civil service examination at the federal building for statistical clerk and matron in the Indian service.

No Charge for Examination.

MEN, EASTER SUNDAY COMES APRIL 4TH, TIME TO BEGIN TO THINK OE CLOTHES

I am rather proud of the stock of Men's Suits that I have assembled in my store this Spring.

I didn't spare expense or effort to give the men of Fort Wayne as good a selection of clothes as their neighbors enjoy in the largest cities.

And my price range is within reach of every man because the best Suit of clothes that is to be found in any store is no better than what I offer at $20.

At $10 and $15 I can give you an assortment, and the values as good as you usually have to pay $15 to $20 for.

These are not idle statements—I am earnest when I make them and I believe in them with all my heart—

You may be skeptical but you at least owe it to the purchasing power of your dollars and cents to give me a chance to meet you face to face and prove my assertions.

The next time you are in the vicinity of my store pay me a visit—I shall be more than glad to see you even if you don't want to buy. At least I shall experience some satisfaction in your having given me an opportunity to prove my case.

THEO. J. ISREAL,
1011 Calhoun St.

Wedding in Famous Family at Easter

Cordelia Drexel-Biddle

"She's the most beautiful bud of the season," is what society said about Miss Constance Drexel-Biddle, who was introduced last New Year's. "The most beautiful bride of the Easter season," is probably what it will be saying about her, for the debutante is to be married at Easter time.

Miss Biddle's engagement to Angier B. Duke, a member of the Duke family that made millions in tobacco, was announced not long ago.

NEWS OF FORT WAYNE'S NEIGHBORS

KILLS FATHER OF ESTRANGED WIFE

Firmer Schearer Shoots Newton Stevens in His Home at Andrews as Result of Domestic Trouble.

Andrews, Ind., March 12.—Firmer Schearer, aged 22, is in the Huntington jail without bond charged with murder in the first degree for killing his father-in-law, Newton Stevens, aged 60, in the Stevens home here at 10:30 o'clock last night. The murder followed Schearer's visit to the Stevens home, where he demanded to see his young wife, from whom he has been estranged and by whom he is being sued for divorce. When Schearer was told that his wife was not in the house nor in Andrews, he begged that he might be permitted to enter and see his baby, aged 2½ years, and he was allowed to come in. Mrs. Stevens took him to the bed where the child was asleep and Schearer picked it up and kissed it. He then declared to Mrs. Stevens that if she did not give him back his wife he would kill her, emphasizing the threat by drawing a revolver. Mr. Stevens leaped from his chair and dashed toward Schearer evidently with the intent of disarming him, but before he reached his son-in-law the latter turned the weapon on Stevens and fired two shots. Both bullets lodged in Stevens' breast and he fell dead upon the floor. Schearer then fled to the street, throwing himself upon the ground, but soon returned to the house and surrendered himself and awaited the arrival of Sheriff W. E. Scott, from Huntington, who got here about midnight and took Schearer into custody. Schearer came to Andrews last evening from Huntington and went at once to the Stevens home, where he made the pretence that he was Russell Schearer, his brother. His voice was recognized and Mrs. Stevens demanded to know what he wanted. Schearer said he wanted to see his wife and was told she was not there and he then begged to see his child and was admitted. Mr. and Mrs. Schearer have had much domestic trouble and not long ago the wife began action for divorce. At that time Schearer is reported to have threatened her life and carried a revolver. In the latter part of January he was arrested and fined in Huntington for carrying deadly weapons. The weapon with which he killed Stevens was a 32-caliber revolver.

PUT CREAM IN NOSE AND STOP CATARRH

Tells How To Open Clogged Nostrils and End Head-Colds.

You feel fine in a few moments. Your cold in head or catarrh will be gone. Your clogged nostrils will open. The air passages of your head will clear and you can breathe freely. No more dullness, headache; no hawking, snuffling, mucous discharges or dryness; no struggling for breath at night.

Tell your druggist you want a small bottle of Ely's Cream Balm. Apply a little of this fragrant, antiseptic cream in your nostrils, let it penetrate through every air passage of the head; soothe and heal the swollen, inflamed mucous membranes, and relief comes instantly.

It is just what every cold and catarrh sufferer needs. Don't stay stuffed-up and miserable.—Adv.

HOTEL SHERMAN COMPANY

INJURIES PROVE FATAL.

Gustave D. Beeber, DeKalb County Councilman, Dies in Garrett.

Garrett, Ind., March 12.—Gustave D. Beeber, aged 60 years, the only DeKalb county councilman re-elected at the last general election and a veteran of the civil war, died at his home in Garrett Thursday from blood-poisoning, which resulted from an injury sustained last month.

Mr. Beeber was helping Mrs. Beeber with the family washing on the morning of February 3. It was while they were carrying a tub of water to a place to empty it that Mr. Beeber slipped and fell. He sustained an injury to his spine, which took him to his bed and kept him bedfast until the end came.

The late county councilman served in the civil war and was a member of the G. A. R. up and until the time of his death. Enlisting in the army in Kendallville, he served in Company I, of the Seventy-fourth regiment of the Indiana volunteer infantry.

He had lived in Garrett since 1877. At one time he was in the employ of the B. and O. railroad as a switchman. He did not leave that company's employ until about six months ago.

A widow, two sons, five brothers and three sisters survive.

MONTPELIER MAN WINS SUIT.

Montpelier, Ind., March 12.—Word has been received here from Arkansas by friends, that Samuel Murphy had received damages to the amount of $15,000 for injuries which he received when he was struck by a gas engine. As near as can be ascertained Murphy was employed as an engineer and had charge of a gas engine. In some manner he fell or got too close to the engine and was struck by it. His jaw bone was considerably mangled so as to make it impossible for him to chew any of his food. He began suit against the company, claiming that the engine did not have the proper guards to prevent such accidents from occurring. He asked for damages amounting to $50,000, but was granted $15,000 after the jury had deliberated on the case about one hour.

WOODCHOPPER IS INJURED.

Huntington, Ind., March 12.—William Eltzroth, living about one mile north of this city, was seriously injured when he was struck on the right wrist with an axe. A cut about three inches long was inflicted. Mr. Elzroth and son, Ora, were in the woods chopping wood when the accident occurred. The father was about twelve feet from the son. The axe head which the son was using slipped and flew the twelve feet and struck the father on the wrist. The wound was a very severe one. If the axe had come with a little more force it would have severed the tendons to all the fingers on the right hand. The gash was so deep that all the tendons of the fingers could be seen.

ASK FOR P[illegible] A. BEATTY.

Elkhart, Ind., 12.—The congregation of Trinity M. E. church of Elkhart by unanimous vote adopted a resolution asking that the northern Indiana M. E. conference, when it meets in annual session at Auburn starting April 7th, elect Rev. J. A. Beatty, superintendent of the Fort Wayne district as superintendent of the Goshen district to succeed Rev. Somerville Light, of Bristol, who has served six years—the time limit. Rev. Beatty was formerly pastor of Trinity church at Elkhart. He has been superintendent of the Fort Wayne district for five years. Goshen Methodists are said to be very favorable toward Rev. Beatty.

VAN WERT WOMAN DIES.

Van Wert, O., March 12.—Mrs. Evan A. Evans, widely known and highly esteemed resident, is dead as the result of bronchial pneumonia, of which she had been ill but a few days. Her death came very unexpectedly to her great number of friends in both town and country. Mrs. Evans, who was 72 years of age, was a native of England, but had resided in Van Wert county the greater portion of her life. She is survived by two daughters. Mr. Evans, husband of the deceased, died about four years ago. She was a member of the Presbyterian church.

FARM HOME IS LOOTED.

Bluffton, Ind., March 12.—The local police have been investigating a robbery that occurred last Friday night at the home of J. T. Jones, on the old O. J. Montgomery fruit farm, west of Bluffton, that has some interesting phases. The robber or robbers turned the house topsy-turvy, from cellar to garret, and secured loot worth probably more than $50, and the thorough search indicated that they proposed not to leave any hidden valuables. While the police had nothing to give out other than details of the robbery, there are some features that may lead to a solution of the affair.

STIRRING UP ROANOKE.

Roanoke, Ind., March 12.—Dancing, theatergoing and card playing were denounced by the Rev. Hobbs in his sermon last night at the Roanoke M. E. church. Other worldly pleasures were condemned as not contributing to the best Christian life, but these three were the main theme of his sermon. Incidentally he denounced the church members who either seek recreation in such a manner or permit their children to do so. He said that to preach to some church audiences was like speaking to a stone wall so far as getting any response from them is concerned.

SURRENDERS TO SHERIFF.

Decatur, Ind., March 12.—After eluding the officers, Earl Thrailkill, the Pleasant Mills resident who, it is charged, attempted to shoot George I. Davis, a merchant of the village, Wednesday morning, dressed in his best clothes, appeared at the county jail early yesterday morning and surrendered himself to Sheriff Green and was locked up. Thrailkill was taken into the circuit court and pleaded not guilty to the charges preferred against him. He was returned to jail and the time for his trial has not been set.

BUTLER RESIDENT DEAD.

Butler, Ind., March 12.—John C. Huyck, son of J. F. and Lucinda Huyck, died suddenly at his home one mile north of Butler. He was born March 4, 1840, in Huron county, Ohio, and at an early age enlisted in his country's call in Company E, Fourteenth Ohio infantry, and after three months' service in that company he enlisted in Company C, 100th Ohio infantry. A widow and four children survive the husband and father. The funeral will be held on Sunday.

HUNTINGTON GUARDS GROWING.

Huntington, Ind., March 12.—More than twenty-five members attended the smoker at the Commercial club given by the officers of the new national guard company, and six names were added to the roll of membership.

Quite a delegation attended the meeting from Andrews, and reported that without a doubt a double squad of sixteen men will be recruited in that town within the next few days.

ELECTED TO TOWN COUNCIL.

Pierceton, Ind., March 12.—At the special meeting of the town board held for the purpose of filling the vacancy occasioned by the removal of J. D. Bell from the second ward, L. A. Wilkinson was chosen. Two names were presented, those of G. A. Leifer and L. A. Wilkinson. The first ballot was a deadlock, each receiving one vote. After some discussion another ballot was taken and Mr. Wilkinson received both votes.

PROPER TREATMENT FOR BILIOUSNESS.

For a long time Miss Lula Skelton Churchville, N. Y., was bilious and had sick headache and dizzy spells. Chamberlain's Tablets were the only thing that gave her permanent relief. Obtainable everywhere.—Adv.

Smoke a "Hexamer" Havana Cigar. They are so good you will hate to throw it away. Their mild flavor is pleasing. Sold in 3 shapes at 10c straight. They are made in Fort Wayne by J. H. Sonfield, and distributed by A. H. Perfect & Co. 11-2t

NEW HAVEN NEWS.

New Haven, Ind., March 12.—J. C. Mosier, of Convoy, will succeed P. H. Young as day agent of the Ohio Electric, Mr. Young having taken a similar position at Leipsic, Ohio.

The funeral services of Henry Hoffman was held Wednesday morning at the house. Interment was made in the I. O. O. F. cemetery.

V. H. Blaising spent Monday in Monroeville on business.

Mrs. Malinda Cameron has been quite ill for several days at the home of her daughter, Mrs. Eben Bell.

Mrs. Joseph Hathaway received word Wednesday from Wellington, Kan., of the death of her sister, Mrs. R. Lynch.

Mr. and Mrs. Sam Wolf attended the funeral of Mrs. Asher Hathaway at Collamer, Ind., on Tuesday.

The funeral services of Mrs. Rothgib, who passed away at the Lutheran hospital Tuesday, were held this afternoon at the Methodist Protestant church.

Mr. and Mrs. Will Schnitker and Mr. anud Mrs. Otto Bruick spent Wednesday evening in Fort Wayne.

MUNCIE MAN IS PRESIDENT.

J. P. Maxon New Head of Indiana Gas Association.

Indianapolis, Ind., March 12.—J. P. Maxon, of Muncie, was elected president of the Indiana Gas association at the close of the seventh annual meeting here yesterday. The other officers chosen were vice president, G. M. Dolley, of Logansport; secretary-treasurer, James W. Dunbar, of New Albany; directors, S. E. Mulholland, of Fort Wayne; Ray Ziegler, of Muncie; E. J. Burke, of Indianapolis, and T. A. Elder, of Indianapolis.

HERE, YOU MEN, LISTEN.

Longer Coats and Shorter Trousers Are Decreed by Cutters.

Cincinnati, March 12.—The Custom Cutters' club met at the Hotel Gibson last night and decided that Cincinnati men, if they follow the fashion, must wear longer coats during the coming spring and summer. The cutters ordained that the twenty-nine-inch-length garment of last year shall give way to the thirty-one-inch sack coat of the near future.

Trousers will be worn looser, too, and shorter. The trousers must be loose from the hips, tapering toward the ankles. The bottom of the trousers, if one would be strictly in style, should barely graze the shoe tops. The soft-rolling lapel will be retained and the shoulders are not to be padded.

Whether the war had anything to do with it is a question, but the new suits will not be so "deucedly" English as those of the present.

82 LOBBYISTS REGISTERED.

Represented Fifty-one Firms at Sessions of Legislature.

Indianapolis, Ind., March 12.—Eighty-two representatives of fifty-one concerns were registered with the secretary of state as legislative agents under the anti-lobby law during the session of the legislature just closed. Fees of $102 were collected by the state for the registrations.

GIRLS! GIRLS! YOU MUST TRY THIS! DOUBLES BEAUTY OF YOUR HAIR

For 25 cents you can make your hair lustrous, fluffy, and abundant.

Immediate?—Yes! Certain?—that's the joy of it. Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a Danderine hair cleanse Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt or excessive oil, and in just a few moments you have doubled the beauty of your hair. A delightful surprise awaits those whose hair has been neglected or is scraggy, faded, dry, brittle or thin. Besides beautifying the hair, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair, but what will please you most will be after a few week's use, when you see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair, and lots of it, surely get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter and just try it.

REGULATE YOUR BOWELS AND STOP HEADACHES, COLDS, SOUR STOMACH

Cascarets make you feel bully; they immediately cleanse and sweeten the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry off the constipated waste matter and poison from the bowels. A Cascaret tonight straightens you out by morning—a 10-cent box from any druggist keeps your Stomach regulated, Head clear and Liver and Bowels in fine condition for months. Don't forget the children.

Confirmation Suits

Just now mothers are considering the confirmation suit question. We are splendidly prepared to assist you in this problem. Many models to choose from; single-breasted Norfolk, two or three-button double-breasted Norfolk; two and three-button double-breasted coats; all knickerbocker pants.

$5, $7.50 and $10

We also have a complete line of furnishings to complete a confirmation outfit —Shirts, Ties, Hats, Caps, Etc.

812 CALHOUN STREET

SOCIETY

Two very well known ladies in Fort Wayne are the Misses Kimball, of 1214 Wilt street. On Monday evening they took part in an entertainment they had planned in connection with the work of the Ladies' society of Plymouth church, of which both are charter members, and it proved so unusual and so much pleasure was the outcome to a large attendance of men and women of the church that it is still being talked about. The Misses Kimball come from an old New England family of Boston, Mass., and their father was one of the passengers to ride over the first trip made by locomotive from Pittsburg to Fort Wayne on that particular branch of the Pennsylvania railroad. However, interesting as that is, it is not the story. The entertainment given by Miss Kimball and her sister, Miss Mary Kimball, was a "musical evening." Its object was to make of twenty-five cents as much money as possible. That was the plan the aforesaid ladies' society has of giving each of its members a quarter with instructions to double, quadruple or make any larger number of times its amount for the society. So these ladies spent the fifty cents in buying some wafers, and grape juice of their own make made delicious refreshment. A program they had planned was given at the residence of a neighbor, Mrs. L. S. Scott, who volunteered the use of her home. Something like sixty people gathered, each of whom had bought a written ticket of admission for a dime. It was a great program of enjoyment and fun that followed. The Misses Kimball came of a musical family and in their girlhood days they used to sing duets together. So they decided to do so at the entertainment. Several of their selections were songs they had heard when they were children. "The English Gardener" and "Rain on the Roof" were the oldest ones. Miss Laura Kimball also played extemporaneous selections on the piano. The rest of the entertainment was given by little Helen Scott, who recited; B. J. Griswold, who read an original essay on cats; a duet, "Johnny Smoker," by Mrs. Charles Rabus and Mrs. Tom Snook, which "brought down the house;" some violin music by Mrs. George Jacobs, piano selections by Mrs. Norton Fisher, songs by Burns Douglass and a reading by Mrs. A. J. Folsom.

* * *

Mr. and Mrs. Ralph Clark went to Chicago today for a few days.

Dr. and Mrs. J. H. Gilpin have as their guest Miss Gilpin, of Cheboygan, Mich.

Mrs. C. B. Crets, of Union street, is in Niles, Mich., for a visit with her sister.

Mrs. E. W. Puckett, who has been visiting in Marion, O., came home today.

Mrs. Clint Willson has returned from visits in Ann Arbor and Coldwater, Mich.

The Square and Compass club is giving one of its regular dances this evening in Minuet hall.

Mrs. John H. Jacobs entertained quite informally today at a luncheon-bridge, a few neighboring friends.

The Chi Delta members were entertained by Miss Evelyn Geller, of Huffman street, last evening.

Mr. and Mrs. O. P. Wright, of the White apartments, left today for Florida for a two weeks' trip.

The Informal Dancing club that meets on Saturday evenings will have a dance tomorrow in the Casino hall.

Miss Carrie Pressler has returned from a visit in Ardmore, Okla., where she had been for several months.

Mrs. John Hillman, of West Wayne street, has returned from a visit with relatives in Wheeling, W. Va.

Mr. and Mrs. George Nelson and little child, of Orosi, Cal., are expected here this week to visit Mrs. Nelson's parents, Mr. and Mrs. Larimore, of West Creighton avenue.

Mrs. A. Golden, of East Wayne street, entertained the members of the Entre Nous club at its twenty-fifth anniversary yesterday. The club has always sewed for charity.

Mrs. James Willson and little child arrived in the city last evening from Boston, Mass., and will be for some time with her parents, Mr. and Mrs. Frank Benoy, while Lieut. Willson is away on a long trip.

Mrs. H. H. Rogers, soprano, and Miss Portia Bolyer, pianist and violinist, are to assist in giving a musicale at Winona on St. Patrick's day at the home of Mrs. M. V. Hatfield, who is a pianist of more than ordinary accomplishment.

Mrs. J. W. Donivan, of Fairfield avenue, gave an informal luncheon on Wednesday for Mesdames Alfred Hood, of Mendota, Ill., and Glen Madaris, Gerry King, Terry King, George Conklin, John Geisman, Frank Tibbles and Miss Virginia King and Miss Nellie Scott, of this city.

In the notice of the wedding of Miss Theresa Herr and Mr. Desford Scherer that appeared in these columns on Wednesday an error was made in giving Hillsdale, Mich., as the place of the marriage. Mr. and Mrs. Scherer were married in Coldwater, Mich., instead of in Hillsdale.

The girls of the Entre Nous club met with Mrs. N. W. Arnold, of 1707 Crescent avenue, last evening in honor of Miss Nellie Ringwalt, who is to leave tomorrow for a six months' visit with her sister, in Minneapolis. Games and music were followed by refreshments and the evening was a pleasant one for all concerned. The lunch was served by Mrs. Arnold. The guests were Misses Nellie Ringwalt, Mildred Roeger, Jessica Thomas, Henrietta Zimmerman, Cleo Wilson, Inez Sharp, Oriska Harlan, Marie Piepenbrink and Mildred Schneider.

* * *

Holsaple—Grabner.

Mrs. Lorinda Grabner, daughter of Mr. and Mrs. Wesley Harris, of Jackson township, and Mr. Royal V. Holsaple, were married at the parsonage of Calvary U. B. church by Rev. G. F. Byrer today at noon. The bride and groom were accompanied by the parents of the bride and a sister, Mrs. George Dayer, of 1028 Hugh street. Mr. and Mrs. Holsaple are highly respected young people of their community. Mr. Holsaple is a substantial farmer of Jackson township and he and his bride will be at home to their many friends on their farm at once.

* * *

Children to Give Cantata.

Many children of the public schools are planning by learning their parts, to give a cantata at the Majestic theater in May. This will be the biennial song festival of children which Prof. William Miles, supervisor of music in the city schools, always has charge of. The pruvipal number of the program will be a cantata, "Into the World," and pupils of the fifth and sixth grades will give it. Older children, those from the seventh and eighth grades, are to give a number of songs, among them being the Angels' Serenade, by Braga; Lullaby, by Brahms; Moonlit Meadows, the Blue Danube Waltz, the Clang of the Forge, "O Italia," the sextet from "Lucia." The song festival is in place of the field day exercises given on alternate years.

For Easter Brides

THE first gift thought of the careful, and the final choice of the undecided is always cut glass. As quality must be foremost in a wedding gift it is wise to choose crystal of unquestioned merit. We sell only that kind.

AT THE MAJESTIC.

Pictures of Real War to Be Shown at the Majestic.

"German Pictures of the War" are to be shown at the Majestic Monday and Tuesday. These pictures are said to mirror in a most realistic manner the things that are happening and that have happened in the greatest struggle of modern times. These pictures are said to have been taken by the camera men with the German army and vividly depict events such as Denmark mobilizing to defend neutrality; the destruction of the Liege forts by one shell from the gigantic 42-centimeter guns of the Germans; the result when the "Busy Berthas," the terrifying 42-centimeter guns are trained upon a fortification; the practically impassable barbed wire entanglements; the artillery trenches, bridges which have been blown up and some grewsome but striking pictures of "real war" in which the dead soldiers who fell at Tannenburg are shown. Sacked Louvain is said to provide a most impressive glimpse at the martial panorama abroad, while camera sketches of German battleships, the arrival and encampment of Indian troops and snapshots in Denmark and other countries complete a most enjoyable entertainment. A lecture accompanies the exhibition, explaining clearly each event.

AT THE NEW PALACE

Pigeons can be trained to mistake an electric light for the sun and thrive just as well on the rays of a tungsten as on the rays of the center of the well known solar system. This fact has been established by Sylva Loyal, whose flock of beautiful pigeons and doves which she uses to assist her in her act on the Keith New Palace bill, never see any real sunshine. They go to bed by the clock and get up by the clock, as at 10 o'clock each night the lights in their cotes are switched off and they're asleep in a minute. At 7 o'clock each morning the lights are turned on again and the pigeons awaken to greet their own private little sun plant.

This week's Keith bill includes some great acts in addition to the Slyvia Loyal offering. Among them are Johnny Johnson and his collegians, Mr. and Mrs. James Kelso, Hallen and Hunter, the Kaufman brothers, Harriet Burt and the Castillians.

AT THE JEFFERSON.

Max Figman and Lolita Robertson.

It was erroneously stated in the columns of the morning paper that "A Modern Magdalen" would be the attraction at the Jefferson today. Such is not the case, however, the feature of the day being "Jack Chanty," a brilliant six-part drama featuring the popular stars of the legitimate stage—Max Figman and Lolita Robertson. The story of the film is adapted from a well known novel of that title written by Hubert Footner, and tells with a great deal of charm and appeal of the story of a wealthy magnate, who, after being ruined, goes up into the Canadian woods to recuperate and start life anew. While there he meeets a charming girl and faalls in love with her and this circumstance proves the means of a good many startling and romantic adventures.

"A Modern Magdalen," which comes to the Jefferson tomorrow, is a drama of modern social conditions, featuring Catherine Countiss and Lionel Barrymore and William Tooker.

AT THE COLONIAL

"In the Days of the Thundering Herd."

This great, big, vigorous depiction of pioneer days in the west is probably the most pretentious drama of the kind ever filmed and presented as it is, with a remarkable cast of the Seelig star players, it will hold charms innumerable for the picture-play lover who cares for productions which are in every sense extraordinary. Tom Mix, who is acknowledged to be the most fearless horseback rideer in the screen world, has the dominant role in the story, having the able assistance of Bessie Eyton, who is also given ample opportunities to display her equestrian ability, and Wheeler Oakman.

Robeert Warwick, one of the most popular actors in the silent drama, and equally popular in the speaking drama, appears at the Colonial tomorrow in a brilliant screen adaptation of George Broadhurst's remarkaably successful play, "The Man of the Hour." This is another of the famous World Film company productions.

CONSULTS STATE INSPECTOR.

County Superintendent Gets Consent for Repair of Monroeville School.

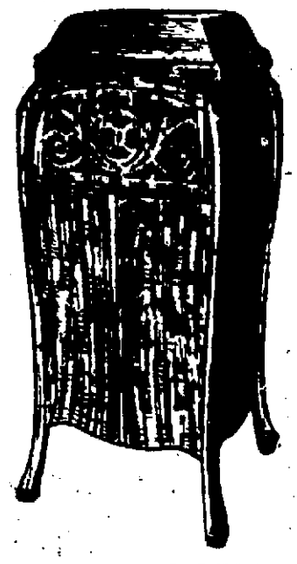
For the purpose of reporting to the state inspector of buildings the agreement that had been reached between the contractors and the trustees and members of the advisory board of Monroe township regarding the Monroeville school which was recently condemned, D. O. McComb, county superintendent, was a visitor in Indianapolis Thursday. After receiving the consent of the state inspector the work of repairing the new building and putting it in proper condition will be started by the contractor and architects, both of whom have agreed to make all necessary repairs.

Mrs. Abbie Rothgeb went to New Haven Friday to attend the funeral of her cousin, Mrs. Eli Rothgeb.

Mizpah temple will have ladies' night March 26. The impression that tonight would be observed as ladies' night is erroneous.

Smart Millinery and prompt attention at Clara G. Breimeier. 807 W. Jefferson

ANNOUNCEMENT



CLEAR AS A BELL

IN introducing for the first time to the music loving public of Fort Wayne a reproducing instrument we realize this fact: Every new feature which adds to the tone quality, tone control, and reproduces the rendition of the artists with truer fidelity to original rendering will be welcomed and appreciated.

It is therefore quite a pleasure to offer to you now the

SONORA
PHONOGRAPH

The Sonora gives you not only the purest melody reproduced by any instrument but gives you the world's selections of all disk records. It plays them all with a beauty of tone that is exquisite, to say the least.

Its special new features such as its improved motor, its special adapting fixtures, its tone control without muffling tone quality, its automatic stop, etc., will be announced to you later. In the meantime come in and hear it. It speaks for itself better than we can. Prices range from $35 to $250.00.

DAVID WARFIELD IN "THE AUCTIONEER"

When the presentation of a play takes the audience from its surroundings and places everyone in an unfamiliar environment of the commonplace and keeps them so interested that the various scenes of the play seem to be actually lived as everything else is forgotten, then such a performance stands in an enviable niche by itself in histrionic art. And that was the effect upon the Fort Wayne audience that filled all available seats at the Majestic theater to see Mr. David Warfield play the comedy, "The Auctioneer," last evening. The play as presented by Mr. Warfield and a company of excellence and with a scenic equipment that is always found to the least detail in a Belasco production was in itself a combination of rich comedy and moments of tenderness and sympathy that were appealing and lasting in impression. It takes art and creative ability that means talent as well as hard work to make of the ordinary in humble surroundings that which everyone can recognize as art. To make a character stand out as a real, living being who for the time being is never anyone else is the way Mr. Warfield has made the public adore Simon Levi. It was true over a dozen years ago when Mr. Warfield first made the play notable and it is just as true today. It is said that Mr. Belasco has improved the play over its earlier production. Whether that could be recognized by one who saw the play during the years Mr. Warfield first made it so successful does not matter here. The people who were softened almost to tears by the charm of family devotion or who laughed the next moment at the equal delight of Simon Levi's down at the heels in luck left the theater last night with a sense of having taken a tonic, so invigorating was the performance mentally and stimulating in its delicious humor and pathos. There is no describing Mr. Warfield's portrayal of the role, without seeing the play more than once, so great is the amount of detail throughout the entire play. Neither can one entirely appreciate in one performance the hundred and one things that characterize the fine work of the whole company of whom the most notable members are Marie Bates as Mrs. Eagan, Harry Lewellyn as Mr. Leavitt and Harry Rogers as Meyer Cohen. What the audience did appreciate was the rare pleasure found in the entire performance.

The territory of seven nations joins that of the German empire.

BERNHARDT BESTOWS HER FAMOUS PLAY-BOOKS ON PROTEGE.

The "Divine Sarah" has postponed her American "farewell" for another year, but in her place comes Mme. Yorska trailing behind her the glory of long association with Bernhardt and the further distinction of being Bernhardt's protege.

Just before her recent operation Mme. Bernhardt sent Mme. Yorska a complete set of her prompt books so that if her illness terminated fatally the traditions of her plays would not be lost.

SERVICES AT THE SYNAGOGUE.

Services will be held at the synagogue Friday evening at 7:45 o'clock and the sermon topic will be, "Religion and Democracy." Sunday morning at 11:45 the rabbi will speak on "Current Topics."

"PLEASE PASS THE BREAD"

See That It Is Perfection "QUALITY"

QUIT MEAT WHEN KIDNEYS BOTHER

Take a glass of Salts if your Back hurts or Bladder troubles you.

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which excites the kidneys, they become over-worked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in urine so it no longer causes irritation, thus ending bladder weakness.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications.—Adv.

INTERNATIONAL SUNDAY SCHOOL LESSON

(By E. O. SELLERS, Acting Director of Sunday School Course, Moody Bible Institute, Chicago.)

LESSON FOR MARCH 14

SAUL GAINS HIS KINGDOM.

LESSON TEXT—I Samuel, chapter 11.

GOLDEN TEXT—He that is slow to anger is better than the mighty; and he that ruleth his spirit, than he that taketh a city.—Prov. 16:32.

In order to repay Israel's victory under Jepthah, Nahash the Ammonite demanded the right eye of those besieged in Jabesh in Gilead, knowing that the left eye would be hid by their shields and they would thus be incapable of warfare. For Israel to make any covenant with the Ammonites was contrary to God's commands (Ex. 23:32; Deut. 23:3).

I. The Cry of Jabesh, vv. 1-3. This event probably occurred about a month after the previous lesson. It was a proud, haughty demand made of these Israelites. Exhausted and hopeless, they had offered to become servants in order to live. So today we frequently find men willing to compromise with the world and the devil, who only hold them in derision and contempt (v. 2). Compromising Christians are always blind leaders of the blind (Matt. 15:14; 6:22). The demand of Nahash would also bring reproach upon Israel, yet this same king afterwards showed kindness to David (II Samuel 10:2). History records that Emperor Basil II actually sent an army of 14,850 sightless men back to the king of Bulgaria, who died of grief and horror.

II. The Conquest of Ammon, vv. 4-11. Nahash granted the request for a seven days' respite. Here was Saul's opportunity—wrongs to be righted and people to be saved. Saul had held his peace since being anointed by Samuel, employing his time in everyday toil and duties (v. 5), for the messengers did not find Saul at home idle. The tidings of this insult were told to the people who lifted up their voices and wept. (v. 4). The news of this threatened calamity reached Saul's ears and his conduct effectually put to silence those "worthless fellows" who despised him and had brought no presents at his anointing (10:27). Instead of tears Saul is moved to deeds. Like Cincinnatus and Israel Putnam, he left the plow to take up the sword. Saul did not, in his own strength, undertake to relieve Jabesh, for "the Spirit of God came upon him" (v. 6; see also Judges 3:10; 11:29; 13:25; Luke 24:49; Acts 10:38). This moved Saul to anger, not alone at such an evidence of cruelty, but more at the contempt Nahash had for God and his people. Saul associated himself with Samuel, the man of God, and summoned the nation of Israel to his side.

The Holy Spirit gave Saul clear assurance of a call from God, and he responded with unquestioned faith (Rom. 8:31). The people responded with great rapidity, for the fear of God came upon them also. We have the good news of a better deliverance from a more subtle foe to proclaim in the present age. They all resorted to Bezek, west of the Jordan. The messengers returned bearing a message having two meanings (v. 10), and that helped to keep Nahash ignorant of Saul's actions on the other side of the river. Dividing his army into companies Saul attacked the enemy "in the morning watch," and completely overwhelmed them and put them to rout. As the Ammonites had refused to show any mercy, they in turn were judged unworthy of mercy (v. 11, see also James 2:13; Matt. 7:2).

III. The Crowning of Saul, vv. 12-15. Saul's victory so impressed the people that they demanded to know of Samuel who it was that had refused him as king, desiring to put them to death. Saul showed his wisdom by not permitting such a course of action. Many today refuse God's divinely appointed king who will yet be glad to acknowledge him (Luke 19:27; Phil. 2:10). In the next place Saul did not claim credit for the victory for, said he, "The Lord hath wrought deliverance in Israel" (v. 13 R. V.). All real victories come from God (Ps. 44:4-8; I Cor. 15:10). This was the true kingly spirit. Saul reaped the reward of his humility, his forbearance, courage and activity in the loyalty and pride of the people. Samuel gladly shared in the success of Saul and led the people to Gilgal for the crowning ceremony. This was the place where Israel had first encamped under the leadership of Joshua and where the twelve stones from the river had been set up as a testimony to God's real presence and deliverance.

Saul had natural and physical characteristics calculated to make him a great and useful king—self-restraint, modesty, military invention and a capacity for leadership.

He was shrewd, patient and generous.

He thus stood on the threshold of his kingdom with the possibilities of untold usefulness and blessing.

We are "kings and priests unto God." He has ushered us into his kingdom. Power, usefulness, influence, helpfulness, victory over sin are before us. "Napoleon said that his nobility dated from Arcole and Marengo. May ours date from the victories of love over the evil within us and in the world." "This is the victory that overcometh the world, even our faith" (I John 5:4).

FOREIGN TRADE OF THE NATION IS BIG

Considerable Increases Are Shown at Various Ports of Entry.

Washington, D. C., March 12.—The volume of foreign commerce which passed through the various customs districts of the United States in the calendar year 1914 is indicated by the following memorandum prepared in the bureau of foreign and domestic commerce, department of commerce. Owing to the reorganization of the customs service, effective at the beginning of the fiscal year 1914, comparisons with earlier years are not available, but comparing December, 1914, with the corresponding period of the preceding year, it is known that considerable increases in exports occurred at the ports of New York, Galveston, New Orleans, Baltimore, Boston and Philadelphia in the closing months of the year.

New York, which does about 40 per cent. of the country's export business, handles practically all lines of merchandise. Galveston, second in point of export sales, handles chiefly cotton, cottonseed oil cake and meal, wheat, flour and rice. New Orleans is not only a great cotton market, but an important distributor of wheat, flour, mineral oil, lumber, meat products, cottonseed oil, oil cake, rice, and tobacco. Baltimore, fourth in value of exports, handles wheat and other grains, iron and steel, leaf tobacco, copper, and many lines of manufactures. Detroit, fifth largest exporting center, is an important seller of automobiles and carriages hides, fruits, oils, lumber, iron and steel, meats and miscellaneous manufactures. Buffalo is a great shipper of iron products, coal and mineral oils. Boston exports chiefly leather manufactures, meats, printing paper and wheat. Philadelphia, which is the eighth port in point of exports, ships chiefly grains and flour, coal, leather, meat products, kerosene oil, and miscellaneous manufactures. San Francisco, ninth in export sales, is a leading exporter of fruits, salmon, cotton, iron and steel, and leather goods and ships largely of oils to the oriental countries. The district of Georgia, with headquarters at Savannah, exports a large quantity of cotton and cottonseed oil cake, and is the leading export market for naval stores. Seattle and Tacoma are important distributors of canned salmon, cotton, lumber, oil, grains and automobiles. Norfolk and Newport News are great coal shipping points. Tampa and other Florida points handle most of the phosphates and a considerable share of the naval stores, tobacco, and lumber exported. Port Arthur exports largely of cotton, cottonseed cake, wheat, and mineral oils and is the leading exporter of sulphur.

These are merely examples of the details obtainable in Table 6, "Exports by Articles from the Various Customs Districts," shortly to be issued by the above named bureau as a part of the annual report on "Commerce and Navigation of the United States."

OTTAWA GERMANS DEFEAT ST. PAUL

By Scant Five Points Visitors Demonstrate Their Superiority.

By a scant five points the Ottawa Germans again demonstrated their superiority over the local St. Paul quintet last night on the latter's floor. The Saints made great tries for a win and several times during the game came within striking distance of a tie, but the Dutchmen always managed to pull out of the hole with some high class team work and hold a five or six-point lead on the locals. Few fouls were called and the usual rough work of the visitors was almost eliminated. The locals also played a clean game and showed some real basketball throughout.

The first fifteen minutes of the game saw little scoring on either side, but just before the close of the period the Saints opened up and made a grand try for a tieup. The Germans, however, got a hustle on and soon pulled out of the hole and held the lead at the close 20 to 13.

The Lutherans opened the second period with a rush and came within an ace of a tie after some minutes of hard work, but the Dutchman refused to be beaten and again worked up a safe lead on the locals. From this point on it was nip and tuck with both teams but the visitors always managed to keep a safe distance away and held their lead for the rest of the game. The score at the close gave the visitors the victory 42 to 37.

"Red" Buescher and Gerberding were tied for first honors for scoring with seven goals apiece but every man on the floor registered at least once. Irmscher played a hard luck game at his position and the plucky little fellow had the red head to guard almost half the time, but at that he held down Buescher's successful tries for the basket to seven.

The lineup and score:

St. Paul, 37.		Ottawa, 42.
Irmscher	F.	Buescher
Gerberding	F.	C. Kersting
Trebra	C.	Hill
Kennedy	G.	A. Kersting
Dietrich	G.	Hipkins

Field goals—Irmscher, 1; Gerberding, 1; Trebra, 5; Kennedy, 2; Dietrich, 3; Buescher, 7; Kersting, 3; Hill, 4; A. Kersting, 6 Hipkins, 1. Free throws—Dietrich, 1. Referee—Scott.

NOTES OF BASKETBALL.

In an exceedingly rough basketball game Thursday night, during which the spectators were continuously crying "football," and similar remarks, the Bethany Athletics defeated the Exenda basketball team on the latter's floor by a score of 23 to 15. The lineups and scores:

Bethany—Carver, F.; Misfeller, F.; Gay, C.; Wisebecker, G.; Ortlieb, G.; Burton.

Exendas—Heck, F.; Siebold, F.; Sauerwine-Stocks, C.; Gidley, G.; Fruechte, G.

Field goals—Gay, 6; Carver, 2; Wisebecker, 1; Sauerwine, 2; Heck, 2; Siebold, 1; Fruechte, 1. Free throws—Gay, 5; Heck, 2; Fruechte, 1.

In the preliminary the St. John Reformed girls were defeated by the St. Paul's girls in an interesting contest by a score of 18 to 25.

* * *

The Precious Blood Maroons defeated the Bachelors last night in a junior league contest by a score of 22 to 18. The lineups and scores were as follows:

Maroons—E. Vonderhaar and B. Hueber, forwards; O. Vonderhaar, center; Pottkotter and C. Hueber, guards.

Bachelors—Doriot and Beck, forwards; Centlivre, center; Clifford and DeWald, guards.

Field goals—E. Vonderhaar, 2; B. Hueber, 1; O. Vonderhaar, 7; C. Hueber, 1; Doriot, 4; Beck, 1; Centlivre, 3.

Foul goals—Doriot, 2; B. Hueber, 1.

* * *

The Keystones defeated the Senators last night by a score of 20 to 5 and the Car Creek team defeated the Miamis by a score of 54 to 2.

HEIDER & CO.,
Makers of the Best There is in Tailoring.
113 E. WAYNE ST.

STEWART ABLE TO GO WITH ANY OF CLASS

Fort Wayne Lad's Defeat of Harlem Tommy Murphy Qualifies Him.

Hal Stewart, the Fort Wayne boxer, has met and defeated some of the best men that ornament his class during the past year. His recent showing at Toledo against Harlem Tommy Murphy, one of the most seasoned fighters and capable ring generals, stamps Stewart as one of the best 133-pounders in the world, and thoroughly qualifies him with the right to a go with Freddie Welsh, the world's title holder, for the lightweight division, with whom Stewart will mill ten rounds at the premier boxing show in the Majestic theater in Fort Wayne the night of March 17.

In the Toledo mixup a few days ago Stewart laid his stinging gloves on "Harlem Tommy" not once or twice in flukes, but often, and any fighter who can get to that accomplished veteran can hit any lightweight in the game, not excepting Freddie Welsh, for in the Toledo bout Murphy fought a wonderful defensive battle but his guard was not complete enough to prevent a Stewart glove from crashing through to the mark occasionally. He clipped Murphy squarely on the jaw three times in one round and should have put him away.

Stewart's shoulders are those of a welterweight, and it was a surprise when Murphy developed the fact that he could take the Stewart punch without going under. Of course Murphy has assimilated numerous and divers punches in his time and has gone under mighty few times. Murphy's left was all he had, and in only one round, the very first, did he manage to drive that home enough to win him a margin. The fact that Stewart was able to come back after losing the first round indicates the quality of his fighting heart.

RITCHIE OUTPOINTS WELSH.

Showing Made by the Champion Was Very Disappointing.

New York, March 12.—Willie Ritchie, of San Francisco, former world's champion lightweight, outfought and outpointed Freddie Welsh, of England, the present title holder, in every round of a fast ten-round bout here last night.

All through the fight Ritchie did the forcing while Welsh spoiled some of his good work by holding in several rounds. The champion's showing was very disappointing to his many followers, who, confident of his ability to repeat his two previous victories over Ritchie, bet freely at odds of 7 to 5 on the Englishman against the Californian.

Welsh's footwork was very clever and enabled him to avoid a good deal of punishment in the fifth round and in the sixth the British boxer showed to better advantage as he landed on the body and head several times, but throughout the bout he failed to take the lead away from the Californian.

Ritchie drove right and left to the body in the seventh and Welsh kept dancing away, to hoots from spectators and cries of "why don't you fight?" During the latter part of this round, Ritchie was chasing Welsh all over the ring.

Ritchie kept up the rushing work and in the ninth and tenth rounds carried the fight all the way to the champion, who never was able to gain the slightest advantage and failed to place a round to his credit in the entire bout. Neither man showed any marks of the bloodless battle.

WILL PLAY SOUTH WHITLEY.

High Girls Have Arranged for Game Here Saturday.

The girls' team of Fort Wayne high school have arranged for a game to be played with the girls' team of South Whitley high at the James Smart gymnasium Saturday evening.

The girls of the South Whitley team are said to be clever and fast and a good game is promised. The girls of the Fort Wayne high are still smarting under the defeat administered at the last game they played and for that reason are going to try and take their vengeance out on the girls from South Whitley.

THIS BANTAM AFTER BEST OF THEM.

Jimmy Walsh, the Chicago bantam, is now after a match with Johnny Coulon, who wants to come back. Walsh has been fighting almost weekly and although 26 years of age—old for a bantam—has proven himself a boxer of no mean class.

FREE BASEBALL, AND REG'LAR LEAGUE STUFF, TOO—HOW DOES THAT STRIKE YOU FANS?

A KNOTHOLE ISN'T WORTH A DURN IN THE DECATUR (ILL). BASEBALL PARK'S FENCE—AND A KID DOESN'T HAVE TO CLIMB OVER THE FENCE.

(By Hugh S. Fullerton).

Here's a town brave enough to attempt free baseball. And league baseball at that.

Decatur, Ill., is going to let the fans in free—men, women, boys, everybody—to see its Three-I league team play ball.

The idea would mean the biggest boom baseball ever has had—and which, combined with the Cleveland amateur plan, would make baseball more popular than it ever has been and perhaps re-establish it upon a sound basis.

Decatur has been maintaining a Three-I league club, generally at a loss, and with an annual report of discouragement and failure.

Now the backers of the club want free baseball—to play out the Three-I league schedule without charging admission save on holidays. They are trying to raise a subscription fund to carry the club through the coming year.

It is planned to play the regular games at home, throwing open the gates to all respectable persons, and to appeal to the fans to attend the holiday games paying double admission fees on those days.

Decatur probably draws 40,000 paid admissions during a season, playing 72 home games. The idea now is to appeal to the patriotism of the fans and ask them to turn out on Decoration day, July 4, Labor day and the local holidays. One would think that any fan who had been entertained free of charge at perhaps a dozen games would strain a point to attend on the pay days and repay the club in part.

If the holiday crowds reach an average of 10,000 for the three big holidays of the season at the larger price the club would be ahead.

The big gain would be in attracting to the free games the youngsters who are to be the next generation of baseball fans and to make baseball a sort of municipal enterprise in which all citizens will have pride.

The response to the proposal of the franchise owners is said to be hearty. Business men and others believe that it will be of immense benefit to the community and it is more than probable that Decatur will have the honor of having the first municipally owned professional baseball team.

ST. PAUL READY TO MEET BLUFFTON FIVE

Everything is in readiness for the big game tonight between the Bluffton Independents and St. Paul's basketball team. Both aggregations are confident of winning and a battle royal is anticipated. The St. Paul's are fully aware of the big job before them and they realize that if they win they must put forth their best efforts right from the start. The Bluffton Independents have been defeated but one game and that was when they met the husky Zanesville five. The game will be played at St. Patrick's Lyceum.

WILL PLAY DEFIANCE.

Manager Fischer, of Concordia College, Closes Deal for Game.

Manager Fischer, of the Concordia college basketball team, has arranged for a game with the Defiance college five to be played at Concordia gymnasium on Saturday night, March 20. The Defiance team defeated Concordia about a year ago.

SALE OF SEATS BEGIN.

The sale of seats for the game between the Em-roes of Indianapolis and the Zanesville basketball team, to be played at Concordia college March 19, commenced Friday. A week later Zanesville will meet the fast Ottawa five.

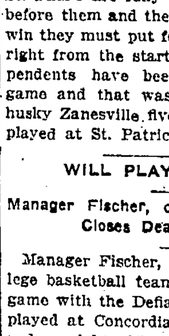
The Funniest Play I Ever Saw in Baseball.

(By John J. Evers, Captain and Second Baseman of the Boston Braves).



Evers

What I consider the funniest things I ever saw on a baseball field happened one right after the other in an exhibition game we played at Waterbury, Conn., one Sunday when I was a member of the Chicago Cubs.

Everyone had been in good humor after cleaning up a series at Boston. We were kids out for a lark and the cutting up continued all through the game. Heine Zimmerman was playing short and acting the fool and we were all kidding him and keeping him going.

It was along in the fifth or sixth inning when the fun was at its heighth that Art Nichols, playing with Waterbury, hit a ball a mile a minute straight at Heine. The ball was hit with such force that it knocked his hands apart, broke through his legs and rolled about eight feet back of him. There was a runner coming down from first and a chance to tie up the score.

Everyone let out a yell of delight when the ball handcuffed Heine. He bent over, and, without trying to straighten up, took two hops backward, reached between his legs, grabbed the ball and threw it between his legs to me on second base and started the funniest double play I ever saw.

Just minute later Jimmy Slagle, in center field, started after a long fly. He had been reaching into his hip pocket to get his chewing tobacco and the hand was caught tight. He jerked and tugged but the hand would not come out and, still running backward he leaped, stuck up his left hand and caught the ball. Schulte had to go over and help him get his hand out of the pocket.

LENGTH OF SEASON IS STILL UNDECIDED

The schedule committee of the Central league completed its work Thursday, adjourning without deciding the length of the season. The play chart, however, was so arranged that additional games could be played if it is found to be advisable.

In not deciding the length of the season the committee followed the same action as is being taken in the bigger organizations. The schedule committee did not deem it wise to run the Central league season after the other leagues have closed.

DEMAND SUNDAY CLOSING.

New York, March 11.—The Baptist ministers' conference of New York and vicinity, at its meeting here yesterday, adopted a resolution declaring that the neglect of statutes affecting the peace and good order of the city on Sundays "has become unendurable, and is not in accord with the pre-election promises made by the mayor and other officials."

The ministers demanded that the mayor and police commissioner enforce the Sunday closing clauses of the liquor tax laws and said that, in event of continued neglect, they "encouraged civic and temperance organizations to unite in steps required to impeach the officials responsible."

Albert Hennington has received word from his parents in Holstein, Germany, telling of another cousin being killed in battle. This makes the fourth cousin who has been killed during the present war.

DOOIN AND LEACH WILL HELP HERZOG

Old Brains and Young Brawn Combination for Cincinnati Reds.

Cincinnati, March 12.—"Old brains and young brawn"—the same being the combination that Manager Charles Herzog will apply to the 1915 Reds in the expectation of making a better showing than last year.

It must be said that Herzog's calm confidence consists of something more than a glimmer. Not many ball clubs, if any, have been so thoroughly torn up between seasons as the Reds—present makeup contracted with that sorry squad which finished last in 1914.

A score of players have been discarded or lost to the club through the activity of the Feds. Twenty-six men, including Herzog, reported at the spring training camp in Alexandria, La.

Of these ten are pitchers. Four others are catchers. That leaves an even dozen from which an infield and outfield may be drawn.

Herzog is very sure that he has turned the corner with his brigade now that he has signed Tommy Leach, Charley Dooin, late of the Phillies, and Ivy Wingo, the lanky Georgian, who was lost to the Cardinals because he would not play under Miller Huggins.

Leach and Dooin will fill a lack in the department of experience, keenly felt last season. Tommy will lead off in the batting order and Dooin, promises Herzog, will catch most of the games.

Wingo probably will be played regularly in the outer precincts because of his steady noodle and ability with the stick. The club has need of a hitting first baseman. Mollowitz will develop into a corking good man, Herzog believes, but his batting eye is lamentably weak.

Herzog will play short again, and Heine Groh, second baseman last year, may go to third. The possession of the third station will be fought out between Von Kolnitz and Ivan Olson, the former Indian, or either may take Groh's place at second.

With Tommy Leach and Wingo backing 'em up regularly in the suburbs, and Twombly, Killifer and Griffith alternating, the outfield really takes on a semblance of something akin to hope.

"I have succeeded in one thing," says Herzog. "We'll have the spirit, and we'll have young fellows who aren't averse to taking advice from players older in the game."

Of the young blood which comes to the Reds practically untested, one of the most promising samples is C. R. Brown, from the Southern association. He led that organization last season.

Knight, from Ogden, also a pitcher, is rated a steady youngster.

Griffith, who played with Indianapolis in the American association last year, is a good hitter, as also is Sheehan, contributed by Terre Haute.

Of course, the Reds need more pitching material of class. Douglass, Schneider, Ames and Lear are being looked to as the chief performers; Sayre, an eastern college prospect, comes with a brightly burnished reputation. It looks as though Rube Benton would be traded for Wingo, that matter never having been settled.

"With Tommy Leach directing the outfield and Dooin in charge behind the bat, I can see where I shall have invaluable help in creating a machine which will give an accounting of itself," Herzog says. "Watch it."

In attempting to crank an automobile Thursday, Edward Speer, 2207 Gay street, suffered a fracture of his right arm between the wrist and elbow when it "kicked." Speer is a repairman for the Shryock Automobile company.

What's the Matter With Day to Honor Poor Lo?

Red Fox James

Poor Lo believes he's entitled to a holiday all his own and he has sent one of the most prominent Indians in the west, Red Fox James, to Washington to see the "Great Father" about it.

Red Fox James, who is a Crow Indian and a graduate of Carlisle Indian school, rode all the way from Montana to Washington on horseback recently to present President Wilson with a list of indorsements to the plan to create a new holiday on which Americans would pay honor to the Indian.

FRECKLES

February and March Worst Months for This Trouble—How to Remove Easily.

There's a reason why nearly everybody freckles in February and March, but happily there is also a remedy for these ugly blemishes, and no one need stay freckled.

Simply get an ounce of othine, double strength, from Meyer Bros. Co. or any druggist and apply a little of it night and morning, and in a few days you should see that even the worst freckles have begun to disappear, while the light ones have vanished entirely. Now is the time to rid yourself of freckles, for if not removed now they may stay all Summer, and spoil an otherwise beautiful complexion. Your money back if othine fails.—Adv.

HODSON TO BE RETURNED.

Young Forger Will Be Brought Back to Indiana.

Pittsburg, March 12.—Orville Hodson, the young forger, whose home is near Marion, Ind., will be returned to the authorities in Indiana, who want him in connection with a number of criminal operations, including forgery and the passage of bad checks. H. C. Webster, of Indianapolis, superintendent of the protective department of the Indiana Bankers' association, came to Pittsburg today and shortly afterward it was announced that Hodson would be returned.

RUPTURE

PRETTY YOUNG WIFE DESERTS AGED LOVER

Once Said She Rather Be Old Man's Darling Than Young Man's Slave.

Pittsburg, Pa., March 12.—Finding the three generation barrier insurmountable, Edward B. Alsop, eighty years old, a wealthy resident of this city who also maintains a home in Washington, has recently begun divorce proceedings against his beautiful young wife, Effie Pope Alsop. The suit asking for the annulment of the ties which bind him to his wife, who is twenty-three years old, was filed before Judge Brown, in common pleas court. He charges his wife with desertion. When seen after the action was filed Mr. Alsop refused to make any comments concerning his shattered romance. He had no complaints to make regarding the treatment he received from his wife.

Mr. and Mrs. Alsop separated more than a year ago, the wife suddenly leaving Mr. Alsop's home in Washington. The filing of the divorce action is the culmination of a romance which had its inception eight years ago at Lake Toxoway, N. C., when they were stopping at the quiet resort. Effie Pope Hill, then but fourteen years old, was romping about the lawn of the hotel with a sunbonnet and in calico garb. Mr. Alsop soon became attracted by the girl's unusual charm and beauty, and began paying her attention. His faithful devotion to the pretty girl earned him the sobriquet of "Effie's Big Newfoundland Dog." He began paying playful compliments and showering presents upon the girl, and five years later the friends of Mr. Alsop were shocked when his wedding to the young woman, then but nineteen years old, was announced.

His young wife has declared that she had been brought up to believe that there was golden truth in the maxim, "It is better to be an old man's darling than a young man's slave," but that there soon was an awakening.

Mr. Alsop alleges that he did everything to make his young wife happy, but in vain—she found herself fretting and discontented in the atmosphere of the early '40s. She asserted that Mr. Alsop was parsimonious with her after their marriage and that she found her existence fettered because she could not mingle with folks many years older than her, as were the friends of her husband.

Saturday Winds Up This Sale

One of the greatest of its kind in our history—Great in the newness of the goods, great in the lowness of the prices and greater yet in the crowds that have attended—**And Saturday will be greatest**

FIRE CAUSES $15 LOSS.

The city fire department was called Friday morning at 10 o'clock to Krudop's planing mills at the corner of Hayden and Francis streets, where sparks from the chimney had set fire to the roof of the building. The loss amounted to $15.

JOBS FOR TWENTY-SIX.

Same Number Secured Through Employment Bureau as Last Week.

During the past week twenty-six applicants at the office of the employment bureau at the court house were given employment, the same number as last week. Positions were secured for sixteen men and ten women.

The regular weekly meeting and banquet of the Quest club was held Friday at the Commercial club.

Last day of Foster's great sale—Saturday, March 13th.

RAY RELEASED ON BOND.

Will Be Arraigned March 17 With Others in Fraud Case.

Brazil, Ind., March 11.—George M. Ray, of Indianapolis, arrested on a charge of presenting fraudulent claims in Jackson township, was released from the Clay county jail on $5,000 bond. The bond was provided by the Southern Surety company through an agent here. Ray left immediately for Indianapolis.

Orville Hendricks expected that his brother would come from Indianapolis in in effort to obtain bond for him. Judge J. M. Rawley has set March 17 as the date for the arraignment of the men. It is rumored that an affidavit has been prepared against James A. Muncie, former trustee, for his arrest on charges in connection with the alleged fraudulent claims.

British troops serving in India are paid by the Indian government.

WIFE DESERTER GIVES BOND.

W. H. Tatner, arrested several days ago when his deserted wife tricked him within reach of a policeman who held a warrant for his arrest, was given a hearing in the city court Friday on a charge of wife desertion. He promised to pay his wife $5 a week for support and his case was continued until May 17. His mother furnished bond of $500 for his release.

Last week of our great sale. See in our north window, on Court street, Twin Four Poster Mahogany Beds worth $100 for $50, for the pair, or $25 for one—a rare bargain. Foster's.

There are five persons to each house on an average in Ireland.

Look to Wolf & Dessauer's for the Newest Apparel

Women who look to this store for the finest showing of the new things, will, as usual, not look in vain. Now, more than ever, we are ready with a superb gathering of those modes which have passed Fashion's censorship. There's no experiment in making selections at Wolf & Dessauer's, for nothing is shown but what is absolutely authentic. Every garment is representative a type—not of what may be good—but what will be good—correct in every particular.

A Special Showing of Suits at $18.75 $19.75 $25.00

The Suits in this special lot, bought under unusual price conditions, would be wonderful values at $25.00 to $29.75. 'Twas a bit of good fortune and clever manipulation that we are going to pass on to women who appreciate style and value. Some of the smarter effects of the season are included. They go on Special Sale at **$18.75, $19.75 and $25.00.**

New Dresses

Unusual interest is shown in the styles of Dresses this Spring. The variety is particularly board—so broad that women must see them to appreciate their wonderful scope.

THE MODELS IN SILK are particularly entrancing. Created of such popular and graceful materials as Crepes, Meteors, Soft Taffetas, Gros de Londres and Grosgrains; a beautiful new collection was received just yesterday and will be seen for the first time today. Ranging upward to as high as one cares to go, but an especially pleasing collection; on special display at

$25 and $10.98

Smart Skirts

The change to the fuller width, the many new innovations and novelties introduced this season, make the skirts most interesting, indeed. The new wide flares, the cuff hems, hunting pockets, etc., give variety and distinction.

A MOST ATTRACTIVE VARIETY of Skirts just received the past few days—Serges, Golfines, Coverts, Cravenettes, Gaberdines, Vigereaux, Shepherd Checks, Taffetas and Failles. Splendid assortment of brand new models at only

$5.95

Paristyle Hair Goods

While a great amount of hair is not necessary, there are very few women who do not require a Small Switch or possibly a Transformation to dress her hair in keeping with the present fashions.

Nothing fills this need quite so satisfactorily as the famous Paristyle Hair Goods. They are so soft and fluffy, so fine in quality, and match one's own hair so perfectly, that their use is not detected.

Specials for Saturday

22-inch Wavy Switches, $1.29
24-inch Wavy Switches, $1.49
18-inch Transformations, $1.00

It Would Take a Whole Page To Tell of the New Blouses

—And then their beauty could not be described! For there's such diversity—such variation of style, that nothing but a personal inspection can do them justice.

The New Easter Blouse Is of the Filmy Sort

—Chiffon in the most exquisite tints, one color over another, or flesh pink Chiffon with cream colored; shadow lace; delicate Georgette Crepes, hand-embroidered or with tiny tucks; gold colored silk laces and nets; rich blues and black—all soft and filmy and appealing in their wonderful beauty, and an important accessory to the Easter Suit.

Some of the Very Newest Things

Semi-tailored blouses of Crepe de Chines in white, flesh color, pink peach—lovelier tints were never shown; plainly designed with dozens of variations in the matter of buttons and corded loop fastenings; "Candy" striped Tub Silk Shirts with practical two-way collars, crisp taffetas in dashing checks, with black ties; and dozens and dozens of the most charming lingerie blouses—but that's another story.

The Country Club Sport Blouses

They'll not be worn yet, as these stunning blouses are made to wear with crisp white wash skirts. But every woman in town who wants to be correct, will have at least one Country Club blouse ready for Summer. They're made of colored linens, in a model best described as Norfolk, with two wide pleats in front and back, broad belt, and large pearl buttons for trimming. See them—they're the smartest things of the season!

WHY THESE 25c HANDKERCHIEFS ARE 18c

—Is because the line of initials is broken. Your letter may not be among them—but if it is, you'll find a bargain—regular 25c linen Handkerchief for **18c**

Both Men's and Women's Sizes Are Included.

Helps for Housecleaning

LIQUID VENEER OUTFITS—Consisting of one floor polisher and a regular $1.00 size bottle of liquid veneer; $1.50 value for **98c.**

WALL PAPER CLEANER—The famous Smoky City Wall Paper Cleaner makes soiled, grimy paper look like new; **2 cans, 15c.**

H. & H. SOAP—For cleaning carpets, rugs, draperies, etc.; regular 15c; for two days only, **9c** cake.

6-5-4 POLISH—For stoves, registers, stove pipe, etc.; also splendid for painting screens; special **15c.**

The Drapery Section Is All Abloom

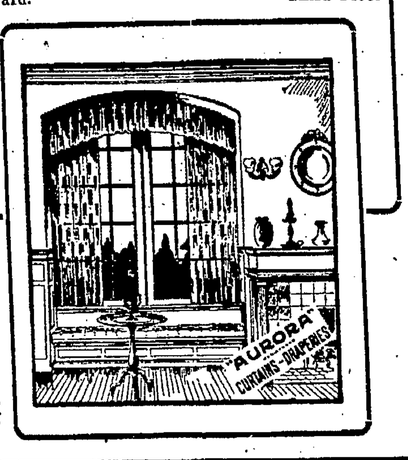
It is with pleasure that we announce the arrival of drapery fabrics—new and exclusive. Among the new shades are dull greens, pronounced yellow, cedar, prune, sand, straw shades, to be used in combination with painted walls and woodwork. For those who are fortunate in possessing walnut furnitureare the new rose, growth green and soft blue toned fabrics that lend themselves in perfect harmony for drapery purposes.

Cretonnes of both domestic and foreign weave, in cotton and linen. Among the strikingly beautiful patterns are the bird designs, new colonial and floral effects—adapted for sun-parlor, living room, dining room and bed rooms. Many of the patterns are particularly appropriate for furniture coverings. 32 to 50 inches wide; priced at **25c to $8.00 a yard.**

Sunfast Overdrapes—Kapock Silk, Aurora, Diana and Scotch Madras, any one of which is desirable for summer hangings. We guarantee these fabrics Sunfast in all shades of green, rose, brown, blue and gold. 50 inches wide; **65c to $5.00 a yard.**

For Upholstering Furniture are charming new effects in cotton and wool tapestries; patterns and colorings suitable for furniture for any room in the house. 50 inches wide; **$2.50 to $10.00** a yard.

—Third Floor



Our Famous $5, $7.50 $10 Hats are better than ever

And hundreds of them, fresh from our workrooms, are ready for today. Scores of sailors and turbans and the little Cornered Hats so fashionable this Spring; plenty of large Hats, a good proportion of the effective transparent brims, and an excellent variety of the highly favored Quill-trimmed Hats, exceptional in value and in the unusual and distinctive posing of the quills. See them today and Saturday—there are HUNDREDS of them, all new, fresh and BETTER THAN EVER in every sense of the word.

A Special Showing Saturday of Semi-Dress and Tailored Hats at

New Spring Models **$5.00** Remarkable Values

These have been selected from a great number of models for tomorrow's selling. All of the advanced Spring and Summer shapes are represented—sailors, turbans, tricornes, etc.

Flowers, ribbons, ostrich and other fancy novelties are used for trimmings. A wide array of colored models, as well as plain black are among this wonderful collection of Spring Hats.

Spring Coats for Children

Dressy models without fussiness—quaint models in short waisted Empire style and low belt effects, of serge, taffeta and checks; solid colors of Atlantic blue, tan and black; also smart mixtures; sizes 2 to 14 years; priced at

$2.25 to $ 10.00

Captivating Every Day Wash Dresses

Made with plaid skirts and white waists, with double belt effect, or attractive little models of striped and plaid ginghams of splendid quality—very practical for school wear, but unusually good looking for all that. Sizes for children from 2 to 14 years. Priced accordingly from

$1.00 to $3.95

APPALLING MESS OF BIDS TO UNRAVEL

Proposals for Paving of Eight Streets Are Complex.

With something better than 400 kinks and angles to the proposals received Thursday night by the board of works for paving eight streets, that body is trying to find a nice place upon which to grab hold of the job and hold on until it is finished. On all of the streets proposals were received for several kinds of material and several sorts of specifications. To go through all this and determine the best proposal in each case is a huge task and the board will require some days in which to get through with it. On Harmer street, for instance, the different proposals numbered fifty-nine. This is the largest number, but the others approximate it. The board entered preliminary orders for brick on four streets and asphalt on four streets. The bids for asphalt, all of which were submitted by the Grace Construction company, were higher than last year's bids, a fact that was unexpected. The Grace company, which heretofore for five years has bid only on Trinidad asphalt, included Mexico and Texas asphalt in its offerings of material, the latter two kinds being under Trinidad prices from 30 to 50 cents. The new A B C company, just incorporated in Fort Wayne, put in bids on anchored bituminous concrete, for which it now owns the patents. The Moellering Construction company bid on brick and concrete, the Brooks Construction company and George H. Krudop on brick. Bids were received on the following streets, the preliminary selection of material being given: Harmer, Liberty to Hayden, brick; Smith, Wallace to Pontiac, asphalt; Warsaw, Lasselle to Pontiac, asphalt; Taylor, Fairfield to Broadway, brick; Savilla avenue, Broadway to Indiana, asphalt; Jones, College to Nelson, brick; Wilt, Broadway to Nelson, brick, and Boone, Cherry to Watkins, asphalt.

The board ordered the engineering department to prepare plans for paving State street, St. Joe river to Florida drive; Rockhill street, Jefferson to Lavina; Hoagland avenue, DeWald to Leith; Begue street, Liberty to Wayne, and Murray street, Calhoun to Lafayette.

Resolutions were adopted and specifications approved for four local sewers, two in the south side and two in Lakeside, and bids were received for furnishing the waterworks department with hose.

PUMPING OLD LAKESIDE WELL.

One of the city fire engines is making a test of the capacity of an old well on the west side of Delta lake in Lakeside, the purpose being to ascertain if it will supply enough water for Delta lake and the lagoons in Lakeside park. If the test is favorable an electrically driven pump will be installed by the park board. The well was put down many years ago by the Fort Wayne Land and Improvement company when the development of Lakeside began. It is 259 feet deep.

TWO MORE COMFORT STATIONS.

The park board is planning for the erection this year of two more comfort stations, one for Lakeside park and one for Lawton park. The buildings, appointments and sewer connections will cost about $1,500 for each park.

BUILDING PERMITS.

F. E. Kruckenberg, two-story frame residence 3025 Weisser Park avenue, $1,700.

Railroaders' Realty company, remodel two-story frame residence 501 West Fourth street, $400.

Peter Schenkel, remodel two-story frame residence 1117 Putnam street, $400.

Barrett & Jackson, two-story frame residence 409 West Pontiac street, $3,500.

THE BIRTH RECORD.

To Mr. and Mrs. Clark Bradbury, 1429 Wall street—a girl.

CONTAGIOUS DISEASE.

Lucile Bender, aged 9 years, 3001 Hanna street—diphtheria.

BIG TOURNAMENT UNDER WAY.

Fourteen High School Teams in Play at Bloomington.

Bloomington, Ind., March 12.—Before one of the largest crowds ever assembled at Indiana university, the fifth Indiana High school basket ball tournament got an auspicious start here this afternoon. Fourteen teams anxiously awaited the whistle which started the first game at 1 o'clock between Rochester and Crawfordsville, the other games today being due to follow at intervals of one hour until the first rounds are played off.

As the auctioneer says, "Going, going, gone!" Foster's sale is still "going" but will be "gone" after tomorrow night.

SPECIAL TRAIN TO BE RUN BY PURDUE

Series of Lectures by Experts on Proper Dairy Feeding.

Announcement was made Friday that from March 22 to 27 the agricultural extension department of Purdue university would conduct for the first time a train over the various traction lines of the state for a series of lectures on dairy feeding.

The schedule for the towns in northeastern Indiana are as follows: Monday, March 22—Colburn, 9 a. m.; Burrows, 10:45 a. m.; Lewisburg, 1:00 p. m.; Boyd Park, 2:45 p. m.; Wabash night meeting at 7:30. Tuesday, March 23—Andrews, 9:00 a. m.; Roanoke, 10:45 a. m.; Yoder, 1:00 p. m.; Kingsland, 2:45 p. m.; Bluffton, night meeting at 7:30.

The following subjects will be considered in the lectures to be given by authorities: "Feeding Dairy Cattle," which will deal with the problems of both winter and summer feeding of dairy cows and how to get the largest production at the least cost, and "Calf Feeding," pointing out the routine management of the young calf and the best method of feeding. In localities where whole milk is sold the problem of feeding with milk substitutes will be discussed.

The special will be run over the following traction lines: Fort Wayne and Northern Indiana, Marion and Bluffton, Indiana Railway and Light Company, Union Traction Company and Terre Haute, Indianapolis and Eastern.

NON-ADVERTISER IS HIT BY DECISION

Missouri Court Rules He Has No Right to Reward of Merchant Who Does.

Springfield, Mo., March 11.—A merchant who never advertises in the newspapers is not entitled to reap the rewards of the merchant who does, Judge John S. Farrington held in an opinion handed down in the Springfield court of appeals in the suit of the Baum Mercantile company against Sam Levin and his clerks, rival concerns in Joplin.

The Baum company sought a permanent writ by the court, restraining Levin and his clerks from standing in front of the Levin store and luring into the store customers who were on their way to the Baum store as a result of reading Baum's advertisements in the Joplin newspapers.

It is alleged by the plaintiff firm that Levin, who did not advertise, instructed his clerks to tell customers that they were in the Baum store if they asked.

It also was alleged that Levin dressed his windows like those of the Baum store to deceive shoppers. The opinion of Judge Farrington upholds the injunction issued by Ray Bond, sitting as special judge in the Jasper county circuit court.

LOCAL SOCIETY MAY PRINT ITS OWN SEALS

Believe State Anti-Tuberculosis Society Demands Too Much.

That the Fort Wayne Anti-Tuberculosis society will use its own seals next fall instead of getting them from the state association and dividing the proceeds seems now a certainty unless the officials of the state organization agree to reduce the percent demanded from the local sales.

When the final settlement was made with the state society at the close of the last campaign $268 was sent to Indianapolis and $2,000 went to the treasury of the Fort Wayne society. Members of the local organization feel that 25 per cent. is too much and for that reason will probably use their own seals.

The Fort Wayne society also has demanded that societies be organized in the smaller towns. As a result Mr. Van Barken, representing the national anti-tuberculosis society, was a recent visitor in Fort Wayne consulting with officials of the Fort Wayne society. He is now in Indianapolis and before he returns east will assist in the organization of a number of societies throughout the state.

FIRE AT BEACH HOMESTEAD.

Sparks from the chimney at the Beach homestead, 421 East Berry street, set fire to the roof at 9:20 o'clock Thursday evening. The damage was slight.

BREATH OF SPRING FELT BY COWBOYS

They Write Joint Note Asking Letters from Eastern Girls.

Flint, Mich., March 11—Perhaps spring is already sending her warm breath through the fastnesses of Juniper mountain, out in Idaho, for out of that part of the "wild and woolly west' has come the plea of three cowboys for mates.

The lovelorn cow punchers have sent a local newspaper a communication asking that the following epistle be printed:

Three young cow punchers in the Juniper mountain would like to correspond with eastern girls. Jas. Olsen hight 5-10, wt. 185, age 29, complection light, eyes blue. Hawley Corbett, hight 5-7, wt. 160, age 27, complection light, eyes blue. G. R. Wolcott, hight 5-11, wt. 175, age 28, complection nether light nor dark, just between; eyes black. Would like to correspond with good, jolly girls, as we are the real cowboy. Jas. will marrie if he can.

That the place where the three young men send their business sort of a love letter from is an ideal place both for fair maidens and cowboys is indicated by the name of the town and county printed in the return address corner of the stamped envelope in which the letter was sent. The boys' address is Fairylawn, Owyhee county, Idaho.

TRY SENTINEL WANT ADS.

The Last Two Days of the Great Farewell Sale of

THE BUCKEYE HATTERS

Is here, only two days more. The doors close on Saturday night for the last time when we bid the people of Fort Wayne and vicinity farewell, but now and until the last minute of this greatest of all sales which ends on Saturday night.

Watson says sell the goods no matter what the loss, just sell it. From now on the cutting and slashing of prices will be tremendous. Buy your merchandise now, don't wait, or you will be too late. Never again will you have this opportunity to get men's furnishings and hats for almost nothing.

Your Choice of Any Shirt in Our Store Including Earl & Wilson, 69c

Fine Stiff Hats as low as 17c. Everything else with greater reductions than ever at the store of

BUCKEYE HATTERS 814 Calhoun Street

IRA WATSON & CO., Sales Agent

HAS TWO EX-WIVES AND CHILD BY EACH

Robert Fuellgraff Fails to Support Either and is in Trouble.

After Judge Kerr, in the city court Friday morning had taken some testimony and burrowed a bit into the marital affairs of Robert Fuellgraff, charged with child neglect, he took but a short minute to send the man to the circuit court and fixed his bond at $700. It was developed that Fuellgraff had been twice married and twice divorced in the last twelve years and that by each wife he has a child and has been supporting neither, though he admitted he makes $18 a week. The first Mrs. Fuellgraff filed the affidavit upon which he was arrested, charging neglect of a son aged ten years. It was shown that from the time of the divorce in 1908, he had contributed just $10 for support of the boy—$5 this month and $5 last month, although when the decree was given his wife he was ordered to pay $6 a month for the child's maintenance. Judge Kerr figured that he was now in arrears something like $500. It was brought out that Mrs. Fuellgraff, No. 1, did not know until recently that her former husband was under orders of court to pay her $6 monthly for their son. On the stand Fuellgraff admitted that since his first wife procured a divorce he had been remarried and again divorced and that a child by his second wife had been adopted and was being supported by others. He begged for a chance and promised to make up all his delinquent payments to his first wife, Mrs. Mary Fuellgraff, of 324 West Butler street, who stated that she is at work for the support of herself and son. Judge Kerr, however, decided the case was one that ought to be determined in the circuit court. Fuellgraff was arrested in Chicago and was brought here by Detective Sergeant Martin E. Rundell.

Hit Him With a Brick.

Sam Ray and Jim Williams, two Afro-American citizens, had a merry row at their rooming house Thursday night over a matter of 40 cents that Ray had given Williams with which to pay room rent and which Williams converted and appropriated to his own use. Williams biffed Ray in the face and Ray went outside and got a brick with which he beaned Williams, slicing open his scalp nicely. Both men were arrested by Officer Madden. The attendance of a surgeon was necessary to close up the wound in Williams' scalp. Ray was fined $10 and costs on a charge of assault and battery and went to jail.

Dynamiter Again Locked Up.

George Chapman, the aged Bloomingdale man, who caused a sensation a month ago by going home with a stick of dynamite and theatening to blow his family and an objectionable boarder to kingdom come, was released from jail after doing thirty days on the old charge and was immediately rearrested on a surety of peace warrant sworn out by his wife, who is in fear of him. He was continued until next Monday and went back to jail in default of $500 bond.

Other City Court Cases.

Jim Mosher came over from Columbia City, got drunk, sought refuge in the Nickel Plate depot and was pinched by Officer Paul. He was fined $1 and costs.

The case of Flora Thompson, drunk, was continued indefinitely, after having been pending for some time.

The case of George Durbin, charged with wife desertion, was continued until March 24. He has defaulted appearance and has been ordered arrested and brought in.

The vinegar of Arabia is said to be superior to that of any other country.

THE BOSTON STORE

CANNOT VISIT OWN FARM.

Marshall Unable to Inspect Place He Has Never Seen.

Goshen, Ind., March 12.—Although he is owner of a 100-acre farm in York township, Elkhart county, about three miles north of Middlebury, on the White Pigeon road, Thomas R. Marshall, vice president, has never seen the property. It came to him through a trade made by his agents in Columbia City. A Farm Betterment club picnic is to be held at the George Gilber farm, which is not far from the Marshall place, June 10, and the committee on speaker forwarded to the vice president an invitation to be present and deliver the chief address.

The vice president in acknowledging the invitation, explained that at the time the picnic is held he will be with Mrs. Marshall, visiting her parents in Phoenix, Ariz., and that it will, therefore, be impossible for him to accept. H. J. Leer is tenant on the Marshall farm and when a baby boy recently came to the Leer household it was christened Thomas Marshall Leer. The vice president sent his namesake a silver cup.

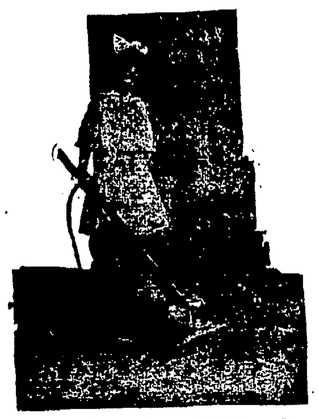
The barometer was invented in 1643. Gibraltar is less than two square miles in area.

DISPATCH DEN OF SNAKES.

Ohio Farmers Kill More Than 125 Reptiles in One Hole.

Findley, Ohio, March 12.—James Bookwalter, an Amanda township farmer, saw enough snakes Tuesday to last him a lifetime. He was plowing when he saw a large snake dart down a hole. He investigated and came upon a den of them. Calling a dozen neighbors to his assistance, the party went after the occupants of the cave with clubs and other devices.

When the bombardment had been completed more than 125 snakes, most of them of the blue racer variety, had been killed. Several of the larger ones showed fight, but all were killed. None of the attacking party was bitten.



The Ohio makes child's play of cleaning day.
The Electric Motor does all of the hard work at a very small expense.

HOUSE CLEANING SHOULD BE VACUUM CLEANING WITH THE OHIO STANDARD ELECTRIC SUCTION SWEEPER

The dust bag is built for convenience and cleanliness in emptying. No dirt or germs can escape and be scattered.

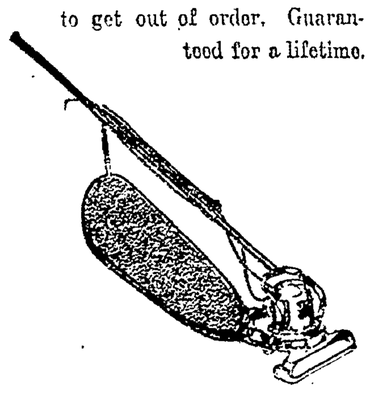
The Ohio will make your cleaning Thorough—Effective—Dustless—Germless—with none of the drudgery and physical exhaustion which you have experienced with the old fashioned methods. It means a healthful home, free from contagion, disease and bacteria.

Machine weighs 9½ lbs., complete. A child can carry or operate this cleaner.

There is no necessity for removing furniture or furnishings from the rooms to be cleaned. A complete set of attachments are provided for use on carpets, rugs and furniture, which reach into every crevice, every fold of curtains and draperies, between piano keys and radiator pipes, into the tufts of mattresses and upholstery, and into all the out-of-the-way, hard-to-get-at-places.

A special attachment changes the machine into a blower which can be used for special purposes.

The Cleaner is as simple in construction as it is in operation. No complicated parts to get out of order. Guaranteed for a lifetime.



Special Demonstration in Our Windows This Week

Machine Will be Demonstrated in Your Home Upon Request

A complete set of attachments provide a means for doing any cleaning operation you may find necessary in your home.

PLANS FOR SCHOOL BUILDING DISCUSSED

Trustee Stolte Says About $30,000 Will Be Spent for New School.

For the purpose of discussing plans for the proposed new school building in Washington township to take the place of the old Scarlett school recently destroyed by fire a conference was held Thursday afternoon by Trustee Leonard Stolte and members of his advisory board with Architect Fred W. Pohlmeyer.

Preliminary plans for the building were drawn by Mr. Pohlmeyer a few days ago and submitted to the advisory board. At first it was thought best to erect a one-story building, but Trustee Stolte favors a two-story structure and members of his advisory board seem to be of the same opinion. Other plans will be submitted by Mr. Pohlmeyer and it is expected that at a meeting to be held some day next week definite action will be taken.

Trustee Stolte stated Thursday that he contemplates spending about $30,000 in the construction of a new building.

"You may say for me," he told a Sentinel reporter, "that whenever the people of Washington township get a building they will be getting all they are paying for. They will get the best that money can buy."

Sentiment regarding a consolidated school is divided and Trustee Stolte says he has been receiving many letters both for and against the proposition. The advisory board of Washington township is composed of William E. Miner, C. D. Kammeier and Henry Berning.

Artist and Nurse Her Double Role

Mrs. Harry P. Whitney

While Paris is singing the praises of Mrs. Harry Payne Whitney, Red Cross nurse, America is lavishing praise on Mrs. Whitney, the gifted artist whose "Fountain of El Dorado" is one of the most striking pieces of sculpture at the Panama-Pacific exposition.

Before she went to Europe last fall to organize a "flying hospital" to aid French soldiers she completed the fountain which has made her famous in the world of art.

COMMISSIONER'S ALLOWANCES FOR FEBRUARY, 1915.

The following list of allowances made by the board of commissioners of the county of Allen for the month of February, 1915:

Janitors, service court house	$539.40
D. N. Foster Furniture Co., mdse orphans' home	50.00
Munson Supply Co., mdse surveyor's office	3.50
C. W. Arnold, labor orphans' home	12.13
C. W. Arnold, labor comfort station	5.70
C. W. Arnold, labor jail	1.00
Allen Co. orphan's home, care of children	683.55
J. Herman Bueter, 6% on del. collections	550.00
M. J. Blitz, insurance court house	44.62
Mrs. J. A. Bushman, admx., plats for Wayne Tp. assessor	36.00
Becker Paper Co., mdse court house	101.50
Becker Paper Co., mdse jail	10.00
Cleary & Bailey, mdse treasurer	18.25
Central Union Tel. Co., service sheriff	2.50
Clausmeier & Archer, mdse county jail	10.00
Clausmeier & Archer, mdse poor farm	26.68
Dukes Clothing Co., mdse jail	6.00
Dreier Drug Co., mdse court house	.50
D. & N. Pharmacy, mdse jail	13.44
D. & N. Pharmacy, prevention of contagious diseases	7.20
Wm. Eggeman, expense attending St. Bd. Tax Comms.	12.65
Geo. Flaugh, mdse poor farm	8.80
Ft. Wayne District Tel. Co., service commissioners	13.50
Ft. Wayne Fdy. & Mch. Co., mdse power house	66.25
Ft. Wayne Journal-Gazette, pub. advertising	20.00
News Publishing Co., pub advertising	30.36

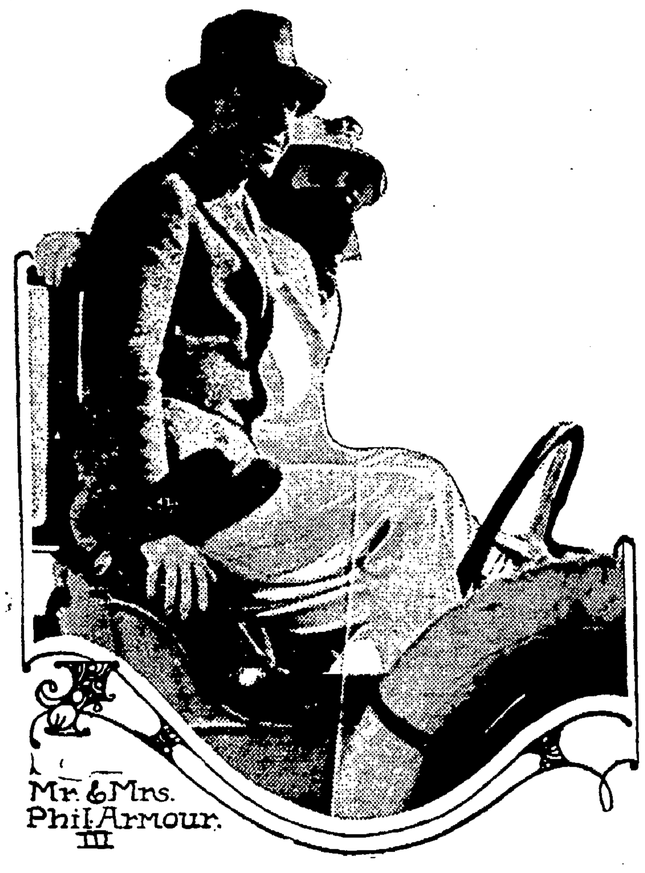
TAILORS THAT SATISFY

Young Phil Armour's Bride Imitates Women of Harem.



Phil Armour and his bride, who was Miss Gwendolin B. Congdon, watching a polo game from their racing automobile at Coronado, Cal.

While Phil Armour and his bride were in Coronado, Cal., it was a subject of conjecture on the polo grounds, at the club house and at the hotels, whether young Mrs. Armour was trying to introduce a new fashion in the way she wore her heavy veil or whether her husband insisted upon her keeping her face covered in the style of the women of the harem.

Mrs. Phil Armour was never seen out-of-doors without a heavy gray veil, edged with black velvet, doubled and worn over the lower part of her face.

The veil was both ugly and unbecoming, consequently it provoked much discussion.

The Armours are now on their way to Hawaii and they are taking the racing car, in which they are pictured, with them.

Rurode's

Famous for Quality

Our Formal Presentation of the New Modes in Millinery Created Unbounded Enthusiasm

There will be more of this enthusiasm in the days between now and Easter. Our department will be crowded with Spring's most beautiful styles in both small and large millinery. You can depend upon being suited here in quality, style and price.

DOGS SHOW TRAITS OF HUMAN BEINGS

Many Emotions of Mankind Are Recognized in Canines, Says Woman.

New York, March 12.—Human characteristics in dogs is an interesting study that Mrs. E. Y. Eltonhead has made in her book, "Dogiana," "Contempt is one on these traits," she says. "Notice the lordly dignity with which a large dog will treat a smaller one; how he stalks through the crowd of yapping, frisking puppies with such superior indifference, and see if this is not a species of contempt.

"Co-operation is almost universal in the animal world, but the leadership falls unusually to the stronger.

"Chivalry is known by the attitude toward the weak and the young. It is an unwritten law in the animal world that the young have rights which must be respected. This accounts for the unusual sight sometimes seen when a fierce dog which has thrashed every other dog and has become a terror of puppydom turns tail and flees in apparent terror when a young dog or kitten is presented to him. As a rule no dog will attack a younger one unless he becomes too insulting or personal and the little dogs are so aware of this that they become very noisy and sometimes saucy.

"Interesting, too, is the attitude of the male to the female, for so self-respecting male dog will attack a female or bite except in self-defense. The female, however, has no scruples, and will attack any dog that is weaker or smaller than herself.

"Worry and anxiety seem to be known to animals as well as to mankind. A mother will be anxious and restless if the little ones are in danger and will pick up the puppy by the neck and go off and hide it or growl faintly if she thinks it is in danger of anything. Grief is a certain characteristic.

"Self-respect is evident to any one who has made a study of dogs. Frolic and play are devoted from puppyhood until real old age stiffens muscles and loss of teeth forbids the carrying of a ball or other plaything.

"One trait that is especially human is lacking in dogs, and that is deceit.

"Jealousy is a trait met with both in fine and common dogs, and the more loyal the dog is the more likely he is to be jealous of another dog sharing in the affection of his master and mistress."

PHILIPPINE TRADE TIED UP.

Lack of Ships, Due to War, Causes Business Depression.

Washington, March 1'.—Trade between the United States and the Philippine islands has been practically paralyzed and business conditions in the islands seriously depressed by lack of ships to handle the commerce since the European war began. This situation was revealed in a letter from Secretary of Commerce Redfield to Secretary Garrison of the war department, to whom Governor-General Harrison had appealed for relief for the island shippers.

After reciting the conditions as described by the governor-general, the letter says: "So long as there is no law giving us any power over any shipping, the government is powerless in the matter. Private and corporate interests are in control of the situation, and we can do nothing."

Reports of congested condition in the islands said freight rates had doubled in the last ten days and that ships could not be had to move the products awaiting shipment at Manila. Prices were reported to be falling on account of short tonnage and increased rates.

HOW'D YOU LIKE HIS JOB?

Scientist Is Twelve Years Drawing 120,000 Lines.

Chicago, March '..—Dr. A. A. Michelson, of the University of Chicago, winner of the Nobel prize for research in physical science in 1901, has completed a twelve-year task, it has been announced, of drawing 120,000 lines on six square inches of metal, which, it is said, will determine the chemical substance of the planets.

The purpose of the ruled metal, which is known as a diffraction grating, is to analyze light, and through the analysis of light to analyze the chemical composition of objects at any distance. The sheet of metal is resting on a bed of mercury at the university to protect it from earth vibrations and incased in glass to exclude the air and dust.

It is covered with straight ruled lines all exactly alike and all parallel. Twenty thousand lines were drawn on every inch of the six-inch surface.

It is estimated that 93 per cent of the ocean floor is entirely devoid of vegetation.

Fifty thousand British railway men joined, or rejoined, the colors when war was declared.

The Doctor's Advice

by Dr. Lewis Baker

The questions answered below are general in character, the symptoms or diseases are given and the answers will apply in any case of similar nature.

Those wishing further advice, free may address Dr. Lewis Baker, College Bldg., College-Ellwood Sts., Dayton, O., enclosing self-addressed stamped envelope for reply. Full name and address must be given, but only initials or fictitious name will be used in my answers. The prescriptions can be filled at any well-stocked drug store. Any druggist can order of wholesaler.

Worried man writes: "Let me say that my condition puzzles and worries me. In the last year I seem to have been growing old rapidly, though only 38. My food and sleep do not recuperate my strength and energy, and lately I have dizzy spells, trembling, headaches, loss of appetite, memory and hopelessness. Despondency and worry over my condition are ever present."

Answer: Cheer up, get well and then conserve your vitality by proper, temperate living. Obtain three grain cadomene tablets in sealed tubes with full directions, use them and an agreeable, pleasing restoration should ensue to your entire satisfaction.

Mr. L. C. B. asks: "Do you think it is possible to reduce my weight from 240 pounds to about 190 pounds?"

Answer: It is impossible to say just how much one can reduce until after trying, but 5-grain arbolone tablets should be used according to directions with each sealed tube, obtainable at most any drug store. If the flesh is unnatural you should easily reduce as desired.

Mrs. L. B. writes: "What can I do for a bad case of stomach, liver and bowel trouble? My food sours in stomach, I rift, have heart-burn, and a full, uncomfortable feeling after meals; constipated at intervals, coated tongue and bad breath all the time."

Answer: Thousands of people in this country are afflicted as you are, and to get immediate relief and gradually effect permanent results, I advise you to buy of your druggist a dollar package of "double-four stomach and bowel medicine" and use as per directions on the packet.

J. R. O. asks: "I am thin, angular, weak and tired. What can I take to improve my health, strengthen my nerves and increase my weight about 20 pounds?"

Answer. Take regularly with your meals three grain hypo-nuclane tablets, sold in sealed packages, by druggists, with complete directions. These tablets improve the blood, increase nutrition, and strengthen the nervous system if used regularly for several months.

"Lee" writes: "I have tried so many remedies for rheumatism that I am almost afraid to try any more, but if you can tell me a sure remedy I will try it."

Answer: Do not be disheartened because you have not been able to find something that would overcome your rheumatism, for you can be relieved if you will take what I tell you. Get from the drugstore: Iodide of potassium, 2 drams; sodium salicylate, 4 drams; wine of colchicum, ½ oz.; comp. fluid blamwort, 1 oz.; comp. essence cardiol, 1 oz., and syrup sarsaparilla, 5 ozs. Mix and take a teaspoonful at mealtime and again before going to bed.

C. L. asks "I have tried to cure dandruff, itching scalp, falling hair and baldness with numerous tonics, etc., but in vain. What do you recommend?"

Answer: I have been recommending plain yellow minyol for the past seven years and scores of my patients are delighted with the quick, pleasant action of this remedy in stopping itching, falling hair, dandruff, etc. It gives the hair health, lustre and vigor as nothing else does. Obtain in 4-oz. jars with full directions.

H. M. B. writes: "Can you please prescribe medicine which will relieve me of such distressing symptoms of kidney and bladder, as the following: Pains in small of back, soreness in region of bladder, frequent calls at night but scanty flow with pain, burning and foul odor, puffing of limbs, etc?"

Answer: Those seeking relief from kidney and bladder disorders should begin taking balmwort tablets, a very successful formula sold in sealed tubes with full directions.

Mrs. N. B. B. asks: "I suffer from headache and constipation periodically and my blood seems too thick causing languor and tired feeling. I will thank you to prescribe for me."

Answer: Three grain sulpherb tablets (not sulphur) are most effective, in relieving constipation, thinning the blood, and removing the symptoms of languor, etc. I advise you to begin taking as per directions with each sealed package.

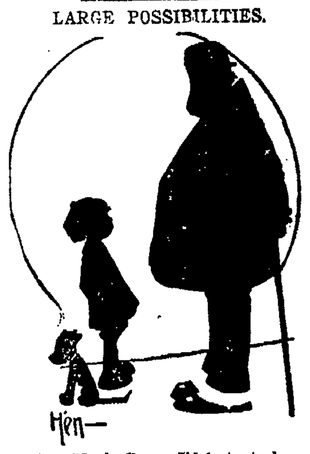
"W. Z." writes: "I have such a very severe cough and cold and have not been able to get anything to help me. It is weakening my system."

Answer: Use the following and your cold and cough will vanish and you will soon be strong again. Get a 2½ oz. bottle of concentrated essence menthol-axene and take every hour or two. This can be taken pure or made into a full pint of home-made syrup. Full directions as to use will be found on bottle. This is a mild laxative and will drive the cold from the system.

B. G. O. asks: "Will you please prescribe a home treatment for a bad case of catarrh of the nose and throat. Also, my daughter is affected with Pelvic Catarrh or green sickness."

Answer: Your daughter should begin taking a tonic flesh-building treatment and for such a case I know of nothing better than three-grain hypo-nuclane tablets. Local treatment is also necessary for both catarrh of the head and Pelvic Catarrh. A simple but effective antiseptic and curative treatment can be followed at home by buying either a two or eight ounce package of antiseptic Vilane Powder containing complete directions.—Adv.

LARGE POSSIBILITIES.



"Gee, Uncle Dave, I'd hate to be you."

"Why, Edgar?"

"'Cause you must suffer awful when you get stomachache."

Society Women Study Life's "Other Side"

Without any blare of trumpets, society women in Chicago have organized a new movement, and its purpose is to prove that they have more important duties to attend than leading their friends through a maze of dinners and dances.

One of the leaders of this group of advanced women is Mrs. W. McIlwain Thompson, who is giving more time this winter to study of economic conditions, the cause of unemployment and similar subjects than she is to formal society.

NEEDS THREE WEEKS TO REPAIR WARSHIP

Eitel Friedrich's Captain Makes an Estimate to Washington.

Newport News, Va., March 12.—Captain Thierichens of the German auxiliary cruiser, Prinz Eitel Friedrich, has estimated in his communcation to the Washington government that it will require about three weeks to repair his ship. The estimate was made after ship yard officials here made a preliminary examination.

The statement on the sinking of the William P. Frye, which the commander of the Prinz Eitel has made to Collector Hamilton is understood to be a very brief document, giving little more than a statement that the Frye was sunk, the latitude and longtitude in which the German raider came upon her and a very brief recital of the taking of the Frye's crew. It is understood that the commander of the Eitel has reserved a more detailed statement of his reasons for sinking the Frye for the German embassy authorities with whom he is in communication.

MAY BE FORCED TO INTERNE.

Washington, March 12.—Confidential reports to officials here on the condition of the German auxiliary cruiser Prinz Eitel Friedrich, in dry dock at Newport News, Va., seem to make it certain that the German raider will be forced to intern there. Assistant Secretary Peters, of the treasury department, told President Wilson today that he expected the German commander would not venture to sea again.

Mr. Peters told the president that his reports from Newport News show the Prinz Eitel is in very bady condition and utterly unfit to put to sea.

MRS. MARIE ROSE DIES AT AGE OF 92 YEARS

Aged Lady Succumbs After an Illness of 6 Days Due to Pneumonia.

Mrs. Marie Rose, widow of Carl Rose, died at 10:30 o'clock Friday morning at the home of her daughter, Mrs. Henry Kiel, 1832 South Webster street, from pneumonia, following an illness of six days. Death came very unexpectedly at the age of 92 years and 5 months.

Born in Schaumburg Lippe, Germany, she came to this country and directly to Allen county in 1868, with three children, her first husband having died in Germany. She was a member of the Trinity Lutheran church, on the Decatur road, in which vicinity she resided until three years ago, when she moved to this city.

She leaves two children to mourn her loss—Mrs. Henry Kiel and Henry Halfeldt, of Marion township. One daughter, Mrs. Henry Bartels, preceded her in death. Other surviving relatives include four step children—Arton and Lena Rose, of Washington township; Mrs. Carl Bleke and Mrs. D. Rudenback; twelve grandchildren, thirteen great grandchildren and one brother, who resides in Germany.

Funeral services Monday afternoon at 1 o'clock at the residence and at 2 o'clock at the Trinity Lutheran church on the Decatur road, Rev. Wambsganss officiating. Friends are asked to omit flowers.

MACBETH.

Agnes Macbeth, the twelve-day-old daughter of Mr. and Mrs. Jesse Macbeth, of 406 Perry avenue, died Thursday evening at the Lutheran hospital from exhaustion. Besides the parents and a twin brother she is survived by two sisters and two brothers.

Funeral services privately Saturday morning at 10 o'clock at the Klaehn & ficiating. Interment at Lindenwood.

FUNERAL NOTICES.

Dalman—Funeral services for Mrs. Elizabeth Dalman will be held Saturday afternoon at 1 o'clock at the residence, 1007 Herman street, and at 1:30 o'clock at the Trinity M. E. church, Rev. T. M. Hill officiating. Interment at Prairie Grove cemetery.

Esterline—Funeral services for Samuel A. Esterline will be held Saturday afternoon at 2 o'clock at the late residence, 2723 Oliver street, and at 2:30 at the First Baptist church, Rev. John Walton officiating.

Hartman—Funeral services for Mrs. Caroline Hartman will be held Monday morning at 8 o'clock at the residence, 1312 East Wayne street, and at 8:30 o'clock at the St. Mary's Catholic church. Interment at Hesse Cassel.

Ogden—Funeral services for Benjamin F. Ogden will be held Saturday afternoon at 2 o'clock from the residence on the Decatur road. Interment at Lindenwood.

Courtney—The remains of John Courtney, whose home was in New York, are being held at the C. J. Ulmer undertaking establishment until a brother arrives.

URGES JURY TO FIND OF THAW'S MENTALITY

Stanchfield Makes Closing Plea for Matteawan Fugitive.

New York, March 12.—In his closing address to the jury sitting in the case of Harry Kendall Thaw and four co-defendants, on trial for conspiracy, John B. Stanchfield, Thaw's chief counsel, urged the jury today to determine whether they believed Thaw had recovered his sanity and if they did to say so in their verdict.

Mr. Stanchfield sketched the case of the defense from beginning to end, and laid particular emphasis to the claim that Thaw planned his own escape from the state prison for the criminal insane at Matteawan because he believed that he was sane and that to remain in the prison would cause him to lose his mind. Mr. Stanchfield assailed Franklin Kennedy, special deputy attorney in charge of the prosecution, charging that his sole occupation for five years had been the case of Thaw. He continued: "Some private vengeance is responsible for the state of New York spending thousands upon thousands of dollars—probably $50,000—to try Thaw upon a puny little charge like this."

The defense closed its case after Thaw had answered a few questions of minor importance on cross-examination. The prosecution is to sum up this afternoon. The case, it was said, would go to the jury immediately after Justice Page, presiding, had delivered his charge.

Attorneys for both sides said they expected a quick verdict.

WIFE HAS GONE TO HOME AND MOTHER

Whereat Roy O. Wise Brings Suit Against Her or Divorce.

Taking it that a wife who will not live with him, but packs up and goes back to mother and the old home is a useless encumbrance for a man, Roy O. Howe has appealed to the superior court to divorce him from Bessie V. Howe. He says that they were married in 1906 at Broughton, Ohio, and that on the first of the present month his wife, without cause or provocation, took their seven-year-old daughter and hit the trail for the Buckeye state town, where she now is with her parent.

Says He Beat Her.

Britta Kleinschmidt has begun action in the superior court for divorce from Edward Kleinschmidt, charging that for the past two years he has treated her in a cruel and inhuman manner, calling her vile and profane names and striking and beating her. More than once she says she has carried on her body bruises caused by his blows. The complaint says they have separated heretofore, but that on promise to do right she had taken him back only to find him more cruel than before. She says also that he falsely accused her of meeting other men and told her to go get a divorce. She wants $1,500 alimony and her maiden name of Van Gundy. The two were married September 27, 1911, and separated March 9, 1915.

Notes of the Courts.

The superior court jury that heard the suit of A. W. Jaxtheimer and Louis Heilbroner, doing business as the Puraq company, against Gottlieb M. Sauer for $200 damages, returned a finding for the defendant after being out nearly all night.

The superior court has granted a divorce to Laura E. Battenberg from Jacob T. Battenberg.

In the circuit court judgment for $102.80 has been rendered for the plaintiff in the suit of Wolf's Furnace company vs. George E. Johnson, Calvin H. English and the Tri-State Loan and Trust company on a mechanic's lien.

S. Baum & Co. have filed suit in the superior court against William C. Fahncke to collect notes, demanding $180.

The St. Louis Bag and Burlap company has brought suit in the superior court against S. Bash & Co. to collect $200 on account.

The inheritance tax that will have to be paid on the estate of the late Sophie Fox will be $291.03, according to a return made in the circuit court.

BAD BILL FAILED TO PASS.

County Commissioners James D. Butt, William C. Schwier and Albert J. Black and County Road Superintendent William Tonkel are in a seventh heaven of delight by receipt of well established word that the bill that would have abolished the office of county road superintendent and put the repair and maintenance of roads back on the old graft basis had failed to pass. The commissioners were delighted because it means the continuance of a system that is working admirably for the good of county highways and Superintendent Tonkel because his job, on which he has worked hard and with admirable results, is safe. The J. R. Fleming senate bill No. 2, affecting the highways law, had become confused with senate resolution No. 2, wholly a different matter, and the report went out over the states that the 1913 road superintendents' act had been repealed by the Fleming bill. County Commissioner Schwier is tremendously relieved in his mind, so much so, indeed, that he has no time to spend in regrets at the prodigious expenditure of strong feeling and stronger language he wasted when he thought the 1913 law had been done to death.

LICENSED TO WED.

Jonathan L. Bevan, farmer, 22, and Olive E. Branstrator, 21.

NEW INCORPORATION.

The Viberg Implement company has filed articles of incorporation in the county recorder's office. The concern has $10,000 capital and its object is to deal in merchandise and buy and sell farming implements. George H. Viberg, William G. McMaken and Clinton R. McMaken are the incorporators and directors.

NOW UP TO THE GOVERNOR.

Arizona House Passes Racing Bill at Last Moment.

Phoenix, Ariz., March 12.—A bill permitting horse racing and the use of pari-mutual machines passed the house last night just before final adjournment of the legislature. It had passed the senate several days ago and now goes to the governor. Governor Hunt said he would make no statement regarding his action on the bill for some days.

CONFESS TO MURDER.

Wilmington, Del., March 12.—Peter Krakas and Bernard Montvid today confessed to the murder of Rev. Joseph Zebris, priest of the Lithuanian church at New Britain, Conn., and his housekeeper on February 8, according to Chief of Police Black and New Britain detectives. The prisoners are in the workhouse here for the murder of a policeman last Saturday.

A. F. Smith, a prominent druggist at Garrett, was a vsitor in Fort Wayne Friday.

Young Phil Armour's Bride Imitates Women of Harem.

Phil Armour and his bride, who was Miss Gwendolin B. Congdon, watching a polo game from their racing automobile at Coronado, Cal.

While Phil Armour and his bride were in Coronado, Cal., it was a subject of conjecture on the polo grounds, at the club house and at the hotels, whether young Mrs. Armour was trying to introduce a new fashion in the way she wore her heavy veil or whether her husband insisted upon her keeping her face covered in the style of the women of the harem.

Mrs. Phil Armour was never seen out-of-doors without a heavy gray veil, edged with black velvet, doubled and worn over the lower part of her face. The veil was both ugly and unbecoming, consequently it provoked much discussion.

The Armours are now on their way to Hawaii and they are taking the racing car, in which they are pictured, with them.

Rurode's

Famous for Quality

DOGS SHOW TRAITS OF HUMAN BEINGS

Many Emotions of Mankind Are Recognized in Canines, Says Woman.

New York, March 12.—Human characteristics in dogs is an interesting study that Mrs. E. Y. Eltonhead has made in her book, "Dogiana." "Contempt is one on these traits," she says. "Notice the lordly dignity with which a large dog will treat a smaller one; how he stalks through the crowd of yapping, frisking puppies with such superior indifference, and see if this is not a species of contempt.

"Co-operation is almost universal in the animal world, but the leadership falls unusually to the stronger.

"Chivalry is known by the attitude toward the weak and the young. It is an unwritten law in the animal world that the young have rights which must be respected. This accounts for the unusual sight sometimes seen when a fierce dog which has thrashed every other dog and has become a terror of puppydom turns tail and flees in apparent terror when a young dog or kitten is presented to him. As a rule no dog will attack a younger one unless he becomes too insulting or personal and the little dogs are so aware of this that they become very noisy and sometimes saucy.

"Interesting, too, is the attitude of the male to the female, for so self-respecting male dog will attack a female or bite except in self-defense. The female, however, has no scruples, and will attack any dog that is weaker or smaller than herself.

"Worry and anxiety seem to be known to animals as well as to mankind. A mother will be anxious and restless if the little ones are in danger and will pick up the puppy by the neck and go off and hide it or growl faintly if she thinks it is in danger of anything. Grief is a certain characteristic.

"Self-respect is evident to any one who has made a study of dogs. Frolic and play are devoted from puppyhood until real old age stiffens muscles and loss of teeth forbids the carrying of a ball or other plaything.

"One trait that is especially human is lacking in dogs, and that is deceit.

"Jealousy is a trait met with both in fine and common dogs, and the more loyal the dog is the more likely he is to be jealous of another dog sharing in the affection of his master and mistress."

PHILIPPINE TRADE TIED UP.

Lack of Ships, Due to War, Causes Business Depression.

Washington, March 1'.—Trade between the United States and the Philippine islands has been practically paralyzed and business conditions in the islands seriously depressed by lack of ships to handle the commerce since the European war began. This situation was revealed in a letter from Secretary of Commerce Redfield to Secretary Garrison of the war department, to whom Governor-General Harrison had appealed for relief for the island shippers.

After reciting the conditions as described by the governor-general, the letter says: "So long as there is no law giving us any power over any shipping, the government is powerless in the matter. Private and corporate interests are in control of the situation, and we can do nothing."

Reports of congested condition in the islands said freight rates had doubled in the last ten days and that ships could not be had to move the products awaiting shipment at Manila. Prices were reported to be falling on account of short tonnage and increased rates.

TRY SENTINEL WANT ADS.

HOW'D YOU LIKE HIS JOB?

Scientist Is Twelve Years Drawing 120,000 Lines.

Chicago, March '.—Dr. A. A. Michelson, of the University of Chicago, winner of the Nobel prize for research in physical science in 1901, has completed a twelve-year task, it has been announced, of drawing 120,000 lines on six square inches of metal, which, it is said, will determine the chemical substance of the planets.

The purpose of the ruled metal, which is known as a diffraction grating, is to analyze light, and through the analysis of light to analyze the chemical composition of objects at any distance. The sheet of metal is resting on a bed of mercury at the university to protect it from earth vibrations and incased in glass to exclude the air and dust.

It is covered with straight ruled lines all exactly alike and all parallel. Twenty thousand lines were drawn on every inch of the six-inch surface.

It is estimated that 93 per cent of the ocean floor is entirely devoid of vegetation.

Fifty thousand British railway men joined, or rejoined, the colors when war was declared.

The Doctor's Advice

by Dr. Lewis Baker

The questions answered below are general in character, the symptoms or diseases are given and the answers will apply in any case of similar nature.

Those wishing further advice, free may address Dr. Lewis Baker, College Bldg., College-Ellwood Sts., Dayton, O., enclosing self-addressed stamped envelope for reply. Full name and address must be given, but only initials or fictitious name will be used in my answers. The prescriptions can be filled at any well-stocked drug store. Any druggist can order of wholesaler.

Worried man writes: "Let me say that my condition puzzles and worries me. In the last year I seem to have been growing old rapidly, though only 38. My food and sleep do not recuperate my strength and energy, and lately I have dizzy spells, trembling, headaches, loss of appetite, memory and hopelessness. Despondency and worry over my condition are ever present."

Answer: Cheer up, get well and then conserve your vitality by proper, temperate living. Obtain three grain cadomene tablets in sealed tubes with full directions, use them and an agreeable, pleasing restoration should ensue to your entire satisfaction.

Mr. L. C. B. asks: "Do you think it is possible to reduce my weight from 240 pounds to about 190 pounds?"

Answer: It is impossible to say just how much one can reduce until after trying, but 5-grain arbolone tablets should be used according to directions with each sealed tube, obtainable at most any drug store. If the flesh is unnatural you should easily reduce as desired.

Mrs. L. B. writes: "What can I do for a bad case of stomach, liver and bowel trouble? My food sours in stomach, I rift, have heart-burn, and a full, uncomfortable feeling after meals; constipated at intervals, coated tongue and bad breath all the time."

Answer: Thousands of people in this country are afflicted as you are, and to get immediate relief and gradually effect permanent results, I advise you to buy of your druggist a dollar package of "double-four stomach and bowel medicine" and use as per directions on the packet.

J. R. O. asks: "I am thin, angular, weak and tired. What can I take to improve my health, strengthen my nerves and increase my weight about 20 pounds?"

Answer. Take regularly with your meals three grain hypo-nuclane tablets, sold in sealed packages, by druggists, with complete directions. These tablets improve the blood, increase nutrition, and strengthen the nervous system if used regularly for several months.

"Lee" writes: "I have tried so many remedies for rheumatism that I am almost afraid to try any more, but if you can tell me a sure remedy I will try it."

Answer: Do not be disheartened because you have not been able to find something that would overcome your rheumatism, for you can be relieved if you will take what I tell you. Get from the drugstore: Iodide of potassium, 2 drams; sodium salicylate, 4 drams; wine of colchicum, ½ oz.; comp. fluid blamwort, 1 oz.; comp. essence cardiol, 1 oz., and syrup sarsaparilla, 5 ozs. Mix and take a teaspoonful at mealtime and again before going to bed.

C. L. asks "I have tried to cure dandruff, itching scalp, falling hair and baldness with numerous tonics, etc., but in vain. What do you recommend?"

Answer: I have been recommending plain yellow minyol for the past seven years and scores of my patients are delighted with the quick, pleasant action of this remedy in stopping itching, falling hair, dandruff, etc. It gives the hair health, lustre and vigor as nothing else does. Obtain in 4-oz. jars with full directions.

H. M. B. writes: "Can you please prescribe medicine which will relieve me of such distressing symptoms of kidney and bladder, as the following: Pains in small of back, soreness in region of bladder, frequent calls at night but scanty flow with pain, burning and foul odor, puffing of limbs, etc?"

Answer: Those seeking relief from kidney and bladder disorders should begin taking balmwort tablets, a very successful formula sold in sealed tubes with full directions.

Mrs. N. B. E. asks: "I suffer from headache and constipation periodically and my blood seems too thick causing langnor and tired feeling. I will thank you to prescribe for me."

Answer: Three grain sulpherb tablets (not sulphur) are most effective, in relieving constipation, thinning the blood, and removing the symptoms of languor, etc. I advise you to begin taking as per directions with each sealed package.

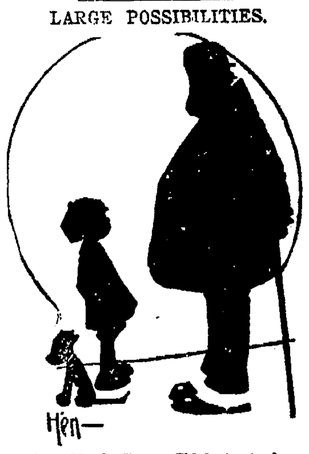
"W. Z." writes: "I have such a very severe cough and cold and have not been able to get anything to help me. It is weakening my system."

Answer: Use the following and your cold and cough will vanish and you will soon be strong again. Get a 2¼ oz. bottle of concentrated essence menthol-laxene and take every hour or two. This can be taken pure or made into a full pint of home-made syrup. Full directions as to use will be found on bottle. This is a mild laxative and will drive the cold from the system.

B. G. O. asks: "Will you please prescribe a home treatment for a bad case of catarrh of the nose and throat. Also, my daughter is affected with Pelvic Catarrh or green sickness."

Answer: Your daughter should begin taking a tonic flesh-building treatment and for such a case I know of nothing better than three-grain hypo-nuclane tablets. Local treatment is also necessary for both catarrh of the head and Pelvic Catarrh. A simple but effective antiseptic and curative treatment can be followed at home by buying either a two or eight ounce package of antiseptic Vilane Powder containing complete directions.—Adv.

LARGE POSSIBILITIES.



"Gee, Uncle Dave, I'd hate to be you."

"Why, Edgar?"

"'Cause you must suffer awful when you get stomachache."

Society Women Study Life's "Other Side"

Without any blare of trumpets, society women in Chicago have organized a new movement, and its purpose is to prove that they have more important duties to attend than leading their friends through a maze of dinners and dances.

One of the leaders of this group of advanced women is Mrs. W. McIlwain Thompson, who is giving more time this winter to study of economic conditions, the cause of unemployment and similar subjects than she is to formal society.

NEEDS THREE WEEKS TO REPAIR WARSHIP

Eitel Friedrich's Captain Makes an Estimate to Washington.

Newport News, Va., March 12.—Captain Thierichens of the German auxiliary cruiser, Prinz Eitel Friedrich, has estimated in his communcation to the Washington government that it will require about three weeks to repair his ship. The estimate was made after ship yard officials here made a preliminary examination.

The statement on the sinking of the William P. Frye, which the commander of the Prinz Eitel has made to Collector Hamilton is understood to be a very brief document, giving little more than a statement that the Frye was sunk, the latitude and longtitude in which the German raider came upon her and a very brief recital of the taking of the Frye's crew. It is understood that the commander of the Eitel has reserved a more detailed statement of his reasons for sinking the Frye for the German embassy authorities with whom he is in communication.

MAY BE FORCED TO INTERNE.

Washington, March 12.—Confidential reports to officials here on the condition of the German auxiliary cruiser Prinz Eitel Friedrich, in dry dock at Newport News, Va., seem to make it certain that the German raider will be forced to intern there. Assistant Secretary Peters, of the treasury department, told President Wilson today that he expected the German commander would not venture to sea again.

Mr. Peters told the president that his reports from Newport News show the Prinz Eitel is in very bady condition and utterly unfit to put to sea.

MRS. MARIE ROSE DIES AT AGE OF 92 YEARS

Aged Lady Succumbs After an Illness of 6 Days Due to Pneumonia.

Mrs. Marie Rose, widow of Carl Rose, died at 10:30 o'clock Friday morning at the home of her daughter, Mrs. Henry Kiel, 1832 South Webster street, from pneumonia, following an illness of six days. Death came very unexpectedly at the age of 92 years and 5 months.

Born in Schaumburg Lippe, Germany, she came to this country and directly to Allen county in 1868, with three children, her first husband having died in Germany. She was a member of the Trinity Lutheran church, on the Decatur road, in which vicinity she resided until three years ago, when she moved to this city.

She leaves two children to mourn her loss—Mrs. Henry Kiel and Henry Halfeldt, of Marion township. One daughter, Mrs. Henry Bartels, preceded her in death. Other surviving relatives include four step children—Arton and Lena Rose, of Washington township; Mrs. Carl Bleke and Mrs. D. Rudenbeck; twelve grandchildren, thirteen great grandchildren and one brother, who resides in Germany.

Funeral services Monday afternoon at 1 o'clock at the residence and at 2 o'clock at the Trinity Lutheran church on the Decatur road, Rev. Wambsganss officiating. Friends are asked to omit flowers.

MACBETH.

Agnes Macbeth, the twelve-day-old daughter of Mr. and Mrs. Jesse Macbeth, of 406 Perry avenue, died Thursday evening at the Lutheran hospital from exhaustion. Besides the parents and a twin brother she is survived by two sisters and two brothers.

Funeral services privately Saturday Melching chapel, Rev. C. O. Shirey officiating. Interment at Lindenwood.

FUNERAL NOTICES.

Dalman—Funeral services for Mrs. Elizabeth Dalman will be held Saturday afternoon at 1 o'clock at the residence, 1007 Herman street, and at 1:30 o'clock at the Trinity M. E. church, Rev. T. M. Hill officiating. Interment at Prairie Grove cemetery.

Esterline—Funeral services for Samuel A. Esterline will be held Saturday afternoon at 2 o'clock at the late residence, 2723 Oliver street, and at 2:30 at the First Baptist church, Rev. John Walton officiating.

Hartman—Funeral services for Mrs. Caroline Hartman will be held Monday morning at 8 o'clock at the residence, 1312 East Wayne street, and at 8:30 o'clock at the St. Mary's Catholic church. Interment at Hesse Cassel.

Ogden—Funeral services for Benjamin F. Ogden will be held Saturday afternoon at 2 o'clock from the residence on the Decatur road. Interment at Lindenwood.

Courtney—The remains of John Courtney, whose home was in New York, are being held at the C. J. Ulmer undertaking establishment until a brother arrives.

URGES JURY TO FIND OF THAW'S MENTALITY

Stanchfield Makes Closing Plea for Matteawan Fugitive.

New York, March 12.—In his closing address to the jury sitting in the case of Harry Kendall Thaw and four co-defendants, on trial for conspiracy, John B. Stanchfield, Thaw's chief counsel, urged the jury today to determine whether they believed Thaw had recovered his sanity and if they did to say so in their verdict.

Mr. Stanchfield sketched the case of the defense from beginning to end, and laid particular emphasis to the claim that Thaw planned his own escape from the state prison for the criminal insane at Matteawan because he believed that he was sane and that to remain in the prison would cause him to lose his mind. Mr. Stanchfield assailed Franklin Kennedy, special deputy attorney in charge of the prosecution, charging that his sole occupation for five years had been the case of Thaw. He continued: "Some private vengeance is responsible for the state of New York spending thousands upon thousands of dollars—probably $50,000—to try Thaw upon a puny little charge like this."

The defense closed its case after Thaw had answered a few questions of minor importance on cross-examination. The prosecution is to sum up this afternoon. The case, it was said, would go to the jury immediately after Justice Page, presiding, had delivered his charge.

Attorneys for both sides said they expected a quick verdict.

WIFE HAS GONE TO HOME AND MOTHER

Whereat Roy O. Wise Brings Suit Against Her or Divorce.

Taking it that a wife who will not live with him, but packs up and goes back to mother and the old home is a useless encumbrance for a man, Roy O. Howe has appealed to the superior court to divorce him from Bessie V. Howe. He says that they were married in 1906 at Broughton, Ohio, and that on the first of the present month his wife, without cause or provocation, took their seven-year-old daughter and hit the trail for the Buckeye state town, where she now is with her parent.

Says He Beat Her.

Britta Kleinschmidt has begun action in the superior court for divorce from Edward Kleinschmidt, charging that for the past two years he has treated her in a cruel and inhuman manner, calling her vile and profane names and striking and beating her. More than once she says she has carried on her body bruises caused by his blows. The complaint says they have separated heretofore, but that on promise to do right she had taken him back only to find him more cruel than before. She says also that he falsely accused her of meeting other men and told her to go get a divorce. She wants $1,500 alimony and her maiden name of Van Gundy. The two were married September 27, 1911, and separated March 9, 1915.

Notes of the Courts.

The superior court jury that heard the suit of A. W. Jaxtheimer and Louis Heilbroner, doing business as the Puraq company, against Gottlieb M. Sauer for $200 damages, returned a finding for the defendant after being out nearly all night.

The superior court has granted a divorce to Laura E. Battenberg from Jacob T. Battenberg.

In the circuit court judgment for $102.80 has been rendered for the plaintiff in the suit of Wolf's Furnace company vs. George E. Johnson, Calvin H. English and the Tri-State Loan and Trust company on a mechanic's lien.

S. Baum & Co. have filed suit in the superior court against William C. Fahncke to collect notes, demanding $180.

The St. Louis Bag and Burlap company has brought suit in the superior court against S. Bash & Co. to collect $200 on account.

The inheritance tax that will have to be paid on the estate of the late Sophie Fox will be $291.03, according to a return made in the circuit court.

BAD BILL FAILED TO PASS.

County Commissioners James D. Butt, William C. Schwier and Albert J. Black and County Road Superintendent William Tonkel are in a seventh heaven of delight by receipt of well established word that the bill that would have abolished the office of county road superintendent and put the repair and maintenance of roads back on the old graft basis had failed to pass. The commissioners were delighted because it means the continuance of a system that is working admirably for the good of county highways and Superintendent Tonkel because his job, on which he has worked hard and with admirable results, is safe. The J. R. Fleming senate bill No. 2, affecting the highways law, had become confused with senate resolution No. 2, wholly a different matter, and the report went out over the states that the 1913 road superintendents' act had been repealed by the Fleming bill. County Commissioner Schwier is tremendously relieved in his mind, so much so, indeed, that he has no time to spend in regrets at the prodigious expenditure of strong feeling and stronger language he wasted when he thought the 1913 law had been done to death.

LICENSED TO WED.

Jonathan L. Bevan, farmer, 22, and Olive E. Branstrator, 21.

NEW INCORPORATION.

The Viberg Implement company has filed articles of incorporation in the county recorder's office. The concern has $10,000 capital and its object is to deal in merchandise and buy and sell farming implements. George H. Viberg, William G. McMaken and Clinton R. McMaken are the incorporators and directors.

NOW UP TO THE GOVERNOR.

Arizona House Passes Racing Bill at Last Moment.

Phoenix, Ariz., March 12.—A bill permitting horse racing and the use of pari-mutual machines passed the house last night just before final adjournment of the legislature. It had passed the senate several days ago and now goes to the governor. Governor Hunt said he would make no statement regarding his action on the bill for some days.

CONFESS TO MURDER.

Wilmington, Del., March 12.—Peter Krakas and Bernard Montvid today confessed to the murder of Rev. Joseph Zebris, priest of the Lithuanian church at New Britain, Conn., and his housekeeper on February 8, according to Chief of Police Black and New Britain detectives. The prisoners are in the workhouse here for the murder of a policeman last Saturday.

A. F. Smith, a prominent druggist at Garrett, was a vsitor in Fort Wayne Friday.

KILLING OF CHICAGO MAN IN MEXICO CITY

(Continued from Page 1.)

It was immediately reported to Generals Barona and Guerra, who promised to make an investigation.

Secretary Bryan took the dispatches on the killing of McManus to the cabinet meeting and they were laid before President Wilson. Mr. Bryan said further reports on the punishment of those responsible were being awaited.

Both Have Been Warned.

Both Generals Carranza and Obregon have been informed that the cause for which they are fighting will be seriously affected in the view of the United States government should they fail to take prompt measures to prevent famine in Mexico City and to permit the free exodus of foreigners to Vera Cruz. This was the principal argument, it was learned today in the note sent by the United States government in reply to Carranza's communication denying that Obregon had interfered with the shipment of food supplies to Mexico City or had made utterances which the American government believes might cause anti-foreign riots. The new American note lays emphasis on the necessity for keeping the line of communication open between Mexico City and Vera Cruz and points out the need for allowing trains to be used for the transportation of freight.

Officials seemed confident that the exchange of notes would produce a better understanding of what the United States deemed necessary steps for the protection of foreigners in Mexico. The tension over the situation has been greatly relieved by the friendly character of the Carranza reply.

General Obregon, the Carranza commander, evacuated Mexico City with his troops Wednesday night and Zapata's forces entered yesterday morning. Today's advices from the Brazilian minister to the state department said good order prevailed between the time Obregon left and Zapata entered.

The city council took charge of affairs in the meantime.

M'MANUS FINANCIAL AGENT.

Chicago, March 12.—John B. McManus was one of the best known, most respected and most responsible members of the American colony in Mexico City, according to a prominent Chicagoan who has large interests there. He was financial agent for Bryant, Mellhenny & Co., a big firm which manages a large group of mines in the Guanajuata district. He had been in business in Mexico City for a number of years.

OIL KING'S WIFE IS SUMMONED BY DEATH

While Mrs. Rockefeller has been an invalid for many months, it is understood that her death came rather unexpectedly. Her husband, John D. Rockefeller, and her son were at Ormond, Fla., and were advised early today that Mrs. Rockefeller had taken a critical turn for the worse.

Mr. Rockefeller and his son immediately engaged a special train which left Jacksonville early today, it was learned, and is due here some time tomorrow. Mrs. E. Parmalee Prentice, Mrs. Rockefeller's daughter, was the only immediate relative present when she died.

Laura Celestia Spelman Rockefeller was born in Wadsworth, Ohio, of well to do New England parents, on September 9, 1839. She was her husband's junior by two months. As a child she lived in Wadsworth, in Burlington, Ia.; in Akron, Ohio, where her father, Harvey B. Spelman, achieved a competence in the dry goods business, and later in Cleveland. In the grammar school at Cleveland she met John Rockefeller when they were fifteen years old.

Rockefeller was a country boy. She was the daughter of one of Cleveland's leading citizens. His home was a little farm house; hers, one of Cleveland's handsomest residences. His associates, outside of school, were mostly farm hands and country boys; her's were talented folk of affairs drawn to her father's handsome home, for her father then was a member of the Ohio legislature, a public spirited citizen interested in philanthrophies and a man of many activities. Notwithstanding other differences, the awkward youth and the city girl had in common a love of study and simple tastes, and they became fast friends.

In 1862 Miss Spelman, described by her superiors as a splendid disciplinarian and a perfect teacher, became assistant principal of the school. Rockefeller, absorbed in business, took the books of his firm to her of an evening and together they would go over his affairs. Both of them were interested together in church work, too; she as a Congregationalist, he as a Baptist; and neither ever attended a dance or the theater.

Young Rockefeller prospered beyond his fairest hopes. As soon as he felt that he could ask her to become his wife he did so. They were married on September 8, 1864, the eve of her twenty-fifth birthday, and started to keep house in a little two-story brick residence on one of Cleveland's side streets. Upon her marriage she became a Baptist and to her religion and her home she devoted her entire time. She avoided all social functions and joined no clubs.

When Mr. Rockefeller's wealth was mentioned in seven figures they left their first home for a residence remarkable only for its unpretentiousness on Euclid avenue, Cleveland's "mile of millions." Here Mrs. Rockefeller reared her four children; a fifth died in infancy.

The training given the Rockefeller children by their mother is declared to have been almost Spartan. Although the Rockefeller wealth increased in leaps and bounds there was only one carriage and a horse cared for by a man, who acted as both coachman and hostler. These were used mostly Sundays on the trip to church. Mrs. Rockefeller employed two maids, but still insisted on doing much of the work herself. She also supervised every detail of the care and training of her children, particularly seeking to instill in their minds the lesson of thrift. It is related that on one occasion she averaged up the gas bills for a year and promised as spending money to her eldest daughter any sum she might save each month by watching that no lights were left burning needlessly.

Of her children, three are living. She was the mother of four daughters and one son, the last named, John D. Rockefeller, jr., being the youngest. Her eldest daughter, Bessie, who married Prof. Charles A. Strong, died in France in 1906 at the age of 40. The second daughter, Alice, died in infancy.

The surviving children are Alta, wife of E. Parmalee Prentice; Edith, who married Harold Fowler McCormick, and John D. Rockefeller, jr.

"THANK YOU," SAID ROBERTS

(Continued from Page 1.)

quarters which he said were filled on election day and the night before. William House, an election official, who District Attorney Dailey asserted could not be controlled by Roberts, was placed in one of the detention cells late on the night before the election. Lloyd testified, adding that Nugent cursed and abused House and the others when they asked to give bond.

The policeman also told of Nugent leading Lloyd and two other patrolmen to the city crematory and arresting three men who had been placed there to guard voting machines. These men were assaulted and placed in the detention cell, Lloyd said. He was excused after a brief cross examination and John R. Fippens, a negro, told about the registration from the negro saloons.

Seven Tell of Crooked Work.

Seven persons—Frank Graney, Charles Harris, Jesse Powell, Henry Hickman, Robert Stough, Frank Green and William Taylor—all of whom have pleaded guilty, told how they had made illegal registrations and cast a number of ballotes on election day, for which most of them received $1 each.

Judge Anderson ordered Harris to throw away some gum he was chewing and announced that other witnesses should do the same before taking the chair.

Powell testified that he hard Hilton Redman remark while the federal grand jury was investigating the Terre Haute election: "I guess all the boys have throwed up their insides over there." Green said he registered five times in about an hour and twice in the Taylor precinct. He said he changed his coat and hat sometimes to disguise himself. Green testified that when he voted on election day the inspector gave him a card, but he threw it away. He said he learned afterward that he had thrown away a dollar but he couldn't find the card. Taylor asserted he was a Canadian, never had been naturalized and was under 21 years of age at the time of the last election, but had voted eight or ten times, receiving a dollar for each vote. He said he voted the straight democratic ticket each time. Judge Anderson asked him about the number of times he had voted and if it was for Eli H. Redman, a defendant, who was declared judge of the circuit court on the democratic ticket by ten votes.

Horace Wiltermuth, a chauffeur, told of hauling men in his automobile on two registration days and said he received orders from Roberts.

Causes Much Laughter.

John W. Clark, progressive clerk at the Taylorville registration place, caused so much laughter in the court while he was on the stand that Judge Anderson was forced to rap for order several times. He testified that a bundle of applications were filed with the board, but the men named in the applications did not appear.

"We looked up the law," Clark continued, "and saw there must be a man with each application. We put the bundle aside. Pretty soon Joe Jeffers came in and asked if we had all of them copied. I told him about the law and he wanted to know who would arrest us when the police chief and all the rest were for us. Then Joe ripped out an oath and told us to get busy. I got busy quick for I was afraid."

It's Nonsense To Wait

Until Spring to Do Your Decorating

Hundreds of excellent workmen are looking for jobs right now, and are prepared to quote lower prices and take greater pains with your work now than in April or May.

And we are offering greater bargains in Wall Paper than were ever quoted in Fort Wayne before. We have thousands of rolls comprising a thousand patterns at 5c and 10c (no more), all displayed on the walls of

FORT WAYNE VETERAN CURED OF CONSTIPATION

Levi Waikel, 3325 Bowser Ave., Says Herb Lax-a-Tone Cured Him.

LEVI WAIKEL.

Constipation is the bane of civilization and is treated for the symptom more than any other complaint that flesh is heir to. It is like the old story of the tired and worn out horse—whip him up and he will make the next corner but more worn out than before the whipping. The bowel you whip up with harsh purgatives ends with the same old result in a worse shape each and every time. Why not coax it into action and build up the mucous membranes and nature with a little help will do her work naturally. Herb Lax-a-Tone will assist nature in a natural way and your constipation will disappear, also those headaches, sallow skins and tired out languid feeling with foul breath and coated tongue.

Mr. Waikel says that he has had constipation thirty years and could get no results, but at last found a remedy that performs wonders and it is Herbal Lax-a-Tone.

The Lax-a-Tone man is at Dreier Drug Co., 526 Calhoun St., where he is introducing this remedy. Mail orders solicited.

Thin Men and Women

Here's Safe, Easy Way to Gain 10 to 30 lbs of Solid, Healthy, Permanent Flesh.

Thin, nervous, undeveloped men and women everywhere are heard to say, "I can't understand why I do not get fat. I eat plenty of good, nourishing food." The reason is just this: You cannot get fat, no matter how much you eat, unless your digestive organs assimiliate the fat-making elements of your food instead of passing them out through the body as waste.

What is needed is a means of gently urging the assimilative functions of the stomach and intestines to absorb the oils and fats and hand them over to the blood, where they may reach the starved, shrunken, run down tissues and build them up. The thin person's body is like a dry sponge—eager and hungry for the fatty materials of which it is being deprived by the failure of the alimentary canal to take them from the food. The best way to overcome this sinful waste of flesh building elements and to stop the leakage of fats is to use Sargol, the recently discovered regenerative force that is recommended so highly by physicians here and abroad. Take a little Sargol tablet with every meal and notice how quickly your cheeks fill out and rolls of firm, healthy flesh are deposited over your body, covering each bony angle and projecting point. Meyer Bros. Co., Dreier Drug Co. and D. & N. Pharmacy and other good druggists have Sargol, or can get it from their wholesalers, and will refund your money if you are not satisfied with the gain in weight it produces as stated on the guarantee in each package. It is inexpensive, easy to take and highly efficient.

Caution:—While Sargol has produced remarkable results in overcoming nervous dyspepsia and general stomach troubles, it should not be taken unless you are willing to gain ten pounds or more, for it is a wonderful flesh builder.

Clark said he wrote in 119 applications then and that the democratic precinct committeeman, who has pleaded guilty, also wrote some, although he was not a member of the registration board.

Was No Trouble-Hunter.

On cross-examination A. O. Stanley asked Clark of whom he was afraid. "I'se afraid of Joe Jeffers and not ashamed to say so," the witness replied, slightly agitated. "I didn't know what he'd do to me. I'm no trouble-hunter and I knew Joe had a gun in his pocket."

"In a way, I'se guilty and then I'm not," Clark stated when Mr. Stanley asked if he had not pleaded guilty in this case. "I'se guilty because I was afraid not to do what Joe Jeffers told me to do."

Judge Anderson announced there would be no session of the court tomorrow out of respect to Judge W. H. Seamans, of the United States circuit court, who died recently in California and who will be buried tomorrow.

Extra Bailiffs Ready.

Extra bailiffs were ready to handle the crowd when the Terre Haute election fraud trial was resumed in the United States district court here today. For the last two days there has been trouble in keeping the men and women back when the doors were opened.

At the afternoon session yesterday the crowd was forced to form a line that reached along the corridor and down the stairs until it almost reached the postoffice lobby. The crowds, it is said, rival those which sought to hear the famous dynamite conspiracy trial here two years ago. United States District Attorney Frank C. Dailey expected to continue to examine witnesses today who had to do with the fraudulent registrations.

GERMAN DRIVE NOW NEARER PRZASNYSZ

(Continued from Page 1.)

to be followed by another important offensive thrust preliminary to a general advance in the spring.

It is believed, moreover, that the Germans will promptly seek to retaliate. If they do this it will compel them to keeep their western forces intact, if not to reinforce them to meet the fresh forces which Great Britain is putting into the field.

Placed on Contraband List.

The British government, it was announced today, has added the following articles to the absolute contraband list: Wool, woolen and worsted yarns, wool tops and nails, tin, chloride of tin, tin ore, castor oil, paraffine wax, copper, iodine, lubricants, hides and all kinds of leather suitable for military equipment, ammonia and its salts, urea, aniline and its compounds. Foodstuffs for animals, heretofore on the conditional list, are broadened to include "oleaginous seeds, nuts and kernels and animal and vegetable oils and fats, other than linseed oil suitable for the manufacture of margarine cakes and meals."

This apparently makes cottonseed oil and all cotton oil products conditional contraband.

ATTACKS ON DARDANELLES.

Constantinople, Monday, March 8.—(Via Berlin, March 11, and London March 12.—11:10 a. m.)—The fire of British warships on Turkish positions in the Dardanelles has been well directed on the whole, but at times inefficacious. The Turks on their side, have shown a fair degree of accuracy in their marksmanship and have compelled British vessels to exercise great caution in approaching their batteries. A correspondent of the Associated Press witnessed the bombardment of March 5, directed against the positions at Kilid Bahr, on the European side of the straits. He could see the fire of either side and note how all the shots fell. The vessels engaged were British ships of the Agamemnon type. The firing started at 11:50 a. m. and lasted until 4:25 p. m. when the British withdrew. Their fire had been rather scattered. Some of it was directed against Dardanus and other points on the European side of the straights and the material damage inflicted was only slight.

At Kilid Bahr the fire was well directed on the whole but it was not very effective. Of about 30 heavy shells ten fell close to the Turkish batteries, while the others mostly fell short. Many of them struck at the water's edge. A certain British vessel which ventured within range of the Kilid Bahr batteries was subjected to a well aimed fire from them. She retreated hastily. The vicinity of these particular batteries was then avoided for the rest of the day. Later in the afternoon two other British vessels came within range of a hidden Turkish battery and had narrow escapes from the shore fire. During all the afternoon the British vessels inside the straits were obliged to maneuver actively, because as soon as any one of them stopped it invariably drew a fairly accurate Turkish fire. It was evident that the British were exercising the greatest caution.

At about a quarter before four in the afternoon several hydroplanes of the allies appeared and made a reconnaisance. To the observer it was apparent that they dropped bombs on a village on the European side of the straits. The airships retired when fired upon.

After Saturday, when our sale will be closed, don't be one of those who will be saying those saddest words of tongue or pen—"It might have been." Foster Furniture Co.

CITY TO FIGHT TO THE LIMIT

(Continued from Page 9.)

the city government will afford a test of t hestate's public service law, passed in 1913, admits of no doubt if it should be found that appeal from the utilities commission is necessary. Should that body rule that the cty has in no wise transcended its powers or supervened the public service law in making rates and obtaining business for the city light and power works, of course no appeal will be taken. An appeal, however, would be fraught with utmost importance, because in it would be embraced vital questions of municipal rights as well as the state's power to completely regulate public service agencies.

Mayor Hosey, City Attorney Guy Colerick and Secretary-Manager John Wessel, of the city light department, will have an immediate conference to discuss the city's reply to the complaint filed by the traction company.

It was not until late Thursday afternoon, when a copy of the complaint filed with the commission was received from the clerk of that body, that Mayor Hosey and Secretary John Wessel had any knowledge that such action had been taken by the Fort Wayne and Northern Indiana Traction company. Under the public utilities act the city has five days in which to file answer to the charges. If the complaining company expresses dissatisfaction with the answer it will file its exceptions with the state commission and the city will then have ten days within which to make appearance before that body to present its case.

What Is Charged Against City.

The complaint against the city was filed with the state utilities commission March 8 by Ferdinand Winter, an eminent corporation lawyer of Indianapolis, and Barrett, Morris and Hoffman, the Fort Wayne firm of lawyers who are counsel for the traction company. In the complaint it is charged:

That employes of the city light and power department have been making misrepresentations to consumers to induce them to quit patronizing the company's service and subscribe to municipal current; that in extending its system the city has set its pole lines so close to those of the complainant that it has been necessary in many cases for the latter to move its lines at a great expense; that the municipal department has been granting special rates, below that allowed by the commission, in order to get business away from its rival; that an exorbitant rate is charged the taxpayers, of which the traction company is one, for current for ornamental and arc street lights, and that the proceeds from the prosperous waterworks department is being used to further the lighting department, enabling it to operate at an apparent profit.

Policy Has Been Lower Rates.

The policy of the city light and power department has been from the first to lower rates and that was done when the city rate was fixed at 8 cents per kilowatt hour, 2 cents below the maximum rate of the traction company. In pursuance of this policy the city rate was last fall reduced from 8 to 7 cents and with announcement of this cut was coupled the statement that another reduction would follow at an early date, when the city's business should permit another reduction to be safely made. It is said the traction company made complaint to the utilities commission shortly after the cut was made and that an expert was detailed to investigate here to ascertain if the city could furnish current at the rates it had made without incurring risk of bankrupting the municipal utility. This inquiry resulted in a showing that the city was proceeding along prudent and secure business lines. Mayor Hosey received information of this and also that upon the expert's report to the commission the traction company was ordered to cut to 7 cents.

COLUMBIA SATURDAY SALE

Columbia Candy Kitchen.

NEGROES SENT TO JAIL.

Pair Who Had Advertising Swindle Get Severe Penalty.

Earl Carr and Harry Harris, a pair of rather clever colored men, were found guilty Friday in the city court of obtaining money by false pretenses in an advertising game they were working and Judge Kerr fined them $10 and costs each and added terms of sixty days in jail. The two had been going to business houses obtaining advertisements to be placed on a big card purporting to be the calendar of entertainments for the "Atlas club," represented as an organization of colored people. They had collected about $20 when Detective Sergeants Immel and Rundell picked them up several days ago and booked them on drunk charges. There is no such organization as the "Atlas club."

SHOP AND RAIL ROAD NEWS

PERFECTS TELEGRAPH AND TELEPHONE LINE

Pennsy Completes One With Wire Weighing 422 Pounds to Mile.

The Pennsylvania put into service today the most perfect telephone and telegraph line between Chicago and Pittsburg this country ever saw. There are two wires, of course, and they give one perfect telephone and four telegraph circuits. So perfect is the telephone part of the system that by actual experience the tick of a watch placed at the transmitter in Chicago was distinctly heard in the office in Fort Wayne. This circuit is over wires that weigh 422 pounds to the mile, the heaviest telegraph and telephone wires in use in this part of the country. The line follows the Pittsburg, Fort Wayne and Chicago road to Clark Junction and goes thence to the Panhandle, entering Chicago over that road. Another improvement to be installed by the telegraph department of the Pennsylvania soon is called the "printer telegraph." This is simply connecting typewriting instruments in such manner that a key struck on a machine in Fort Wayne operates the same key on an instrument in Chicago or any other point on the line within the "printer" circuit. In sending messages over this line the Morse system gives way to letters and characters used in spelling out words, just as they are placed upon paper by the operator of the typewriting machine and to operate the line it is not necessary for the operator to be an expert telegrapher.

CONSIDERATE THIEF.

Serves Each Member of Freight Crew Equitably.

Caboose robberies are so common that the railway men have ceased to give them much attention and news concerning them rarely gets into print. But a robbery of a G. R. & I. caboose at Ridgeville last week had some unique features worth noting. Evidently the thief in this case believed in carrying on his depredations in an equitable manner. While the conductor and the brakemen were engaged in shifting some cars on the sidings at Ridgeville they left the caboose on another siding some distance from the scene of activities. It was there a thief found it and made a raid on the lockers. From one he took a sweater coat, from another a good coat, from the conductor's locker he took a pair of shoes and stockings and from the conductor's desk a plug of tobacco. The garments were not missed until the train neared Fort Wayne and the crew began to change their clothing. But the plug of tobacco was missed early and after an unsuccessful search the owner concluded that one of "the boys" had taken it for a joke and he borrowed a "chew" from a brakeman. Usually a caboose thief takes every portable thing in sight, but not this fellow. He only took enough to supply his immediate needs.

INDOOR FIELD MEET.

Big Event of the Electro-Technics Given Tonight.

The most elaborate event of its kind ever pulled off in Fort Wayne will be the indoor field meet of the Electro-Technic club in the big hall on the fourth floor of the General Electric building at Holman and Clinton streets tonight. The details of the program, which was published in The Sentinel several days ago, have been attended and will be carried out to the letter. The officials of the Fort Wayne Electric works and of the General Electric Lamp works in the city will view the events from box seats erected especially for that purpose.

Interest seems to center in the tug-o'-war contest between teams composed of men employed at the works. One is captained by M. S. Willson and its personnel is as follows: Fred Schultz, Harry Hire, N. C. Pierce, Eugene Potter, Charles Heckman and Charles Prince. These men were selected from various departments of the big works. The other team, however, of which Ray Hoffman is the captain and which is known as the "Medicine Ball" team, was selected from the men in the general testing room. They are: Ray Hoffman W. F. Kohls, Ralph Craig, S. C. Anglin, E. H. Dro, Donald Isbell, James Carman, H. Cashdollar and Charles Braun.

ORDERED TO CHANGE METHOD.

Toledo, O., March 12.—Changes in the derail system of the Wabash Railway company in Ohio have been ordered by the state public utilities commission, according to a statement made here last night by Chief Inspector James B. Dugan. The action was taken following an investigation of a freight wreck at Maumee last week, when an engineer and fireman were killed when their train was ditched on a derail. Dugan declared yesterday that the company violated the state law by failing to report the wreck until after a meeting of company officials had been held at Peru, Ind. Dugan declares the commission should have been called to the meeting.

GAVE KEARNEY A RECEPTION.

President E. F. Kearney, of the Wabash, was given a hearty reception by the people of Logansport Wednesday when his train stopped there for a short time on the inspection trip. Miss Isabelle Kearney, niece of the president, received her uncle with a kiss as she presented him with a big armful of roses and ferns. It is thirteen years since Mr. Kearney left Logansport, but he was able to call his old comrades and acquaintances by name and to give them a hearty greeting.

TO PUT IN ACETYLENE WELDER.

The Wabash, after experimenting at the Fort Wayne shops several weeks with an acetylene welding system, has decided to install plants at the roundhouses at Toledo, Peru and Montpelier. Men from each of those places were here yesterday noting the work of an expert with the acetylene welder. The Pennsylvania has been using a welding system operated by electricity for several years and finds it very satisfactory.

FRANK SIMONTON SPEAKS SUNDAY.

Frank Simonton, one of the engineers on the Broadway limited, will be the speaker at the Sunday afternoon meeting at the Railroad Y. M. C. A. Engineer Simonton spoke at the Lyon meeting at the tabernacle the second night the railroad men gathered there in a body and made quite a "hit" with the audience, many of whom had not heard of his abilities in that line before. Secretary Cash says that at the meeting Sunday afternoon there will be a special musical program also.

TWO SHOPMEN INJURED.

Dr. Fred Schulz was called to the Fort Wayne Electric works yesterday to attend two of the employes who needed surgical aid. Elmer Kinney received a gash in the back of his hand which nearly severed a tendon of one of the fingers and Edward Frederick had one of his thumbs painfully lacerated by a saw. Dr. Schulz had to stitch the wounds of each, but says that neither is serious.

MR. BARNES RETURNS FROM EAST

Factory Superintendent E. A. Barnes, of the Fort Wayne Electric works, who went east several days ago, on business for the company, returned home last evening. C. H. Matson, who is connected with the maintenance of the equipment department of the works, was with Mr. Barnes and also returned home last night.

HEALTHY LOT OF WORKMEN.

There is less sickness among the 150 or more men employed at the down town car shops of the Pennsylvania at present than at any previous period for some months, there being this morning only two names on the absentee list. There were three yesterday, but Jacob Junk, who had been sick, resumed his duties in the planing mills this morning.

SHOPS CLOSE TOMORROW.

A bulletin on the boards at the Pennsylvania shops this morning announced that the works would not be in operation tomorrow forenoon, as usual. The order only applies to one day and it is presumed that the usual schedule will be in force next week.

REPAIRED TWO ENGINES A DAY.

Two engines a day was the output from the Pennsylvania erecting shop during the five days ending today, which comprise the week's work. They were Nos. 9253, 7497, 7088, 7757, 7541, 9413, 9962, 7710, 7253 and 9008.

TO FUNERAL AT RICHMOND.

Frank and Maurice Laughlin, of the Pennsylvania machine shop, will attend the funeral of a relative at Richmond tomorrow. They will leave tonight for that city.

INDUSTRIAL NOTES.

F. A. Buelow, who was sick two or three days, reported for duty at the Pennsylvania erecting shop this morning.

J. T. Madden, who had an injured thumb, was able to report for work at the Pennsylvania erecting shop this morning.

Earle Watterman has resumed his duties in the engineering department of the Fort Wayne Electric works. He was sick ten days.

Machinist and Mrs. Robert R. Shuman and daughter, Betty Jane, will go to Chicago tonight to spend the week-end with Mr. and Mrs. Frank Shuman.

Engineer George Nulf, of the Pennsylvania, who is at present working as a passenger fireman, is sick with pneumonia at his home, 2228 Thomas street.

William Lenz, a clerk in the Wabash offices at Peru, was here a short time yesterday. The young man is a son of Ernest Lenz, the well known employe at the Pennsylvania planing mills.

Machinist P. E. Bresnahan, of the Pennsylvania shops, accompanied by Mrs. Bresnahan and their two daughters, the Misses Eileen and Madaline, will go to Chicago tomorrow to spend the week-end with relatives.

Three or four days ago some foreign substance lodged in one of the eyes of Fred Romary, Pennsylvania machinist. This morning the optic became infected and Mr. Romary had to quit work and seek aid from the company's oculist.

Mrs. J. C. M. Baker, wife of the Pennsylvania ticket receiver, was able to be up yesterday for the first time in a week. She was attacked by an affection of the stomach. The family reside on a farm three or four miles from the city.

Capt. H. C. Stoll is in receipt of a message from Inspector George Coling stating that A. H. Swinehart, one of his lieutenants of police, died in Pittsburg yesterday afternoon. Lieutenant Swinehart was quite well known to the police force on the Western end of the Pennsylvania.

Andrew Besega, of Lorain, asked the B. and O. company to provide him with a pair of goggles when at work holding a bar for a machinist who was using a chisel. The company refused and one of the eyes of the man was injured by a piece of steel lodging in it. He has brought suit against the company for $5,000 as a result, basing it upon the refusal of the company to furnish goggles.

R. E. Humphries, an expert arc light engineer from the General Electric works at Schenectady, N. Y., is here looking after some business at the Fort Wayne Electric works. Mr. Humphries delivered a lecture before the Electro-Technic club several weeks ago, which was greatly enjoyed by th members and others who heard it. He will attend the indoor field sports given by the club tonight.

ANTILLA AT DUNDEE.

Discharges Part of Cargo to Go Before British Prize Court.

London, March 12.—The American steamer Antilla from New York February 9 for Malmo and Copenhagen is at present at Dundee, where she is discharging part of her cargo which is to go before a British prize court.

The Antilla came into Kirkwall February 26 and was there detained. She reached Dundee March 10.

Carnegie Medal Goes to Hero Who Saved Their Babies From Fire.

Esther and Sarah Kaplowitz, and the brave young workman who rescued them from burning tenement.

"White Wings" is what the children of New York's east side called Vincenzo Culotte—no one in all America knew him, except the slum children and the ward boss who gave him his job—driving a garbage cart.

That was yesterday. Today the world knows Culotte as a hero, and he'll probably be "decorated" with the Carnegie medal for bravery.

Culotte, the "White Wings," became Culotte, the hero, when he risked his life to save two children from death in a burning tenement. The youngsters—Esther and Sarah Kaplowitz—were locked in a room on the third floor; the stairway was in flames; the children were screaming piteously. Culotte closed his mouth, ducked his head, climbed through the flames, found the children and carried them out, then returned to climb the blazing stairs once more and rescue an aged woman who was alone on the fourth floor.

Five minutes later Culotte was back on his garbage cart. "I'm not a hero," he said. "I have babies in Italy; I thought of them; I could not let those American babies burn."

LADIES! DARKEN YOUR GRAY HAIR

Use Grandma's Sage Tea and Sulphur Recipe and Nobody will Know.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and abundant. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is mussy and out-of-date. Nowadays, by asking at any drug store for a 50 cent bottle of "Wyeth's Sage and Sulphur Compound" you will get this famous old recipe which can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, feverish, itchy scalp and falling hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two, it becomes beautifully dark, glossy and abundant.—Adv.

Save Money On Your Painting

There are two ways you can save money on paint bills this season—

First—Don't wait till the surface is in such bad condition that it will require extra time scraping and burning to get it ready for the new coat.

Second—Use paint of highest quality.

Lowe Brothers
High Standard
Liquid Paint

It covers most square feet to the gallon wears longest and, therefore, costs less.

WHAT SUCCESS MEANS TO ME.

(By Alice Joyce, noted motion picture actress.)

If Aladdin's genii were suddenly to appear before me and offer me a choice of careers, I would wave him away and tell him that I am perfectly content to remain a motion picture actress.

To know that a million people are daily watching your efforts on a thousand different screens; to feel that your work is assisting the troubled and weary to forget the cares which beset them—what other career can afford the feeling of satisfaction that comes of these thoughts?

If I am successful, it means that I occupy a warm place in the heart of the motion picture public and that is the reason I have always endeavored to do my utmost to retain the good will of the people who see me in photoplays.

I have a cozy little home here in Jacksonville, Fla., where I spend my winters and in the summer I go to New York. Consequently nothing prevents me from having as much "home life" as anybody. Yes, I am happy and contented. And that last, by the way, is exactly what success means to me!

NEW SEAMAN'S BILL IS MOST IMPORTANT

Andrew Feruseth Discusses Law Just Enacted by Congress.

(By Gilson Gardner.)

Washington, March 11.—The most important legislation enacted by the Sixty-third congress in the opinion of Andrew Feruseth, veteran president of the seaman's union (an opinion which will be shared by many other people also) is the so-called seaman's bill. I asked Feruseth to explain in detail what the bill will accomplish.

"In the first place," said Feruseth, "the bill does not go into immediate effect. It will apply to American vessels eight months after the fall of 1915. On foreign vessels, coming to American ports, it will take effect January 4, 1916; so some people are becoming prematurely excited about the act. The law is the most important legislation, in my judgment, which has been enacted by congress in fifty years. The biggest thing that it does is to abolish involuntary servitude. This is the last involuntary servitude in the jurisdiction of the United States. I refer to the arrest and detention and return to their vessels of seamen who quit work in violation of their contract to labor. This is to be true on all American vessels everywhere and on foreign vessels while in the ports of the United States. Civilization has waited long for the correction of this abuse; this heritage of an age of white man slavery. The seaman is entitled under this law to one-half of his pay, collectable in the port he visits but he cannot collect oftener than once in five days in case the ship touches at ports more frequently than once in five days. Thus a seaman cannot be compelled by having all of his pay withheld to complete a voyage in case he is subjected to ill-treatment or desires to terminate his contract of service.

"In the interest of safety," continued Feruseth, "this law insures a certain number of skilled men on board the vessel, by restoring the rating of 'able seaman' and defining what it means. For further safety the law provides that 75 per cent. of the crew in each department of the vessel must be able to understand and speak the language of the officers. This is so that in case of emergency the orders can be quickly transmitted by officers to crew, which would not be the case where they are foreigners depending on interpreters for the translation of their orders, as has frequently been the case in the past.

"The bill prohibits the payment of wages before they are earned, thereby abolishing 'crimping' and 'shanghying.' It provides for better forecastles and better sanitary arrangements. It sets standards for boats and davits to lower them and compels the proper equipment of lifeboats. The bill does not provide enough boats nor the proper manning of the boats, but even on this score it is a long step in advance. On the ocean it provides for 75 per cent. of boats and 25 per cent. of rafts. On bays and sounds and where the water is not deep enough to submerge the vessel, the kind and amount of life-saving equipment and manning is left to the inspection department of the department of commerce.

"The law thus gives three important things: first, freedom to the seaman; second, improved safety at sea, and, third, it equalizes the cost of operation of foreign and American vessels trading from and to American ports. It will have a strong tendency to equalize wages of seamen throughout the civilized world. It will be a very strong inducement to foreign nations to adopt similar laws because they will lose seamen unless they do. It will raise the standing of seamen and restore their skill and bring a better class of men to sea and it will bring back to America a merchant marine and furnish a real reserve for the American navy if the government chooses to use it for that purpose.

"This," said Feruseth, "is world legislation. The secretary of commerce is authorized to make rules for carrying out important sections in the bill, and of course, it is possible that Commissioner of Navigation Chamberlain and Inspector Uhler, of the steamboat inspection service, may succeed in making rules nullifying or minimizing the effects of the act. They have constantly opposed certain features of this legislation and their course will have to be closely watched in the public interest."

Andrew Feruseth has worked for twenty years for this legislation, living in Washington on an able seaman's wage, and refused to accept more from his seaman's union. If this legislation had failed, the effect would have been very serious. The seamen had become desperate and the I. W. W. organizers were making inroads on the union, especially on the Pacific coast, where the competition of Asiatics on American vessels had become especially keen.

Bed-Wetting Cured in Ten Days

URI-STOP WILL CURE

Don't Wait for Children to Outgrow the Trouble—Start Them Taking Uri-Stop Today.

Bed wetting is a disease and should be given prompt attention. The wonderful success realized by Uri-Stop seems little short of marvelous and many cures have been effected in Fort Wayne. Bed wetting is not a local trouble alone but is a disease embracing the entire urinary system as well as the bladder and kidneys. Uri-Stop is put up in tablet form, pure and harmless. No irritation or harmful action. The affected parts are toned up, invigorated and restored to their normal condition. Can be taken by the most delicate child. Mail orders solicited by the manufacturers. Price $1.00.

The Boettger Chemical Co., Mfrs., Peoria, Ill., are so confident of the curative powers of Uri-Stop that they agree to refund your money if you are not benefited after a careful trial. On sale and recommended by the Dreier Drug Co.

SUCCESSFULLY DONE.

"I wonder why so many people lead double lives. They can never get away with it."

"I know of one case where they did."

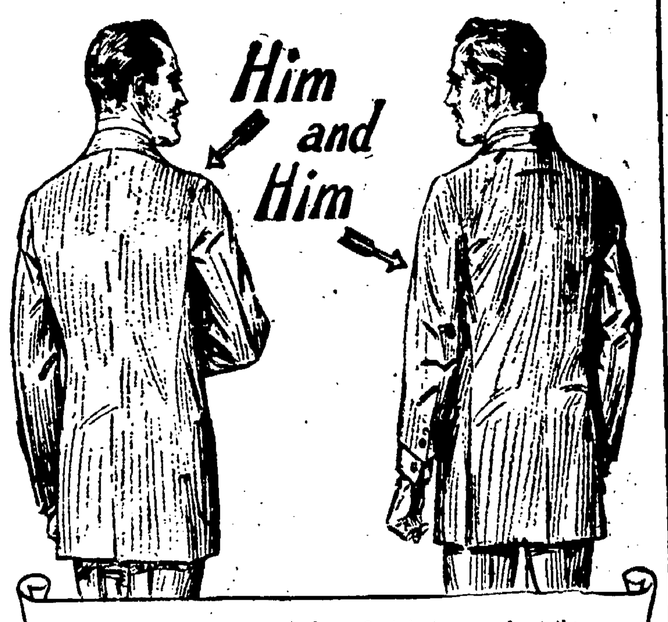
"Who was that?"

"The Siamese twins."

What your Tailor?

IF there is a man in town who has not had the humiliating experience of being the "him" at the right above, we would like to know him. For only $20 --and from that price up--he can get a perfect FIT, a guaranteed fit. A suit made of all wool and designed and put together by the best tailors living anywhere in this country.

You know



Correct—
Looks right—
costs no more. You can just as well have this kind.

Cost just as much at the beginning. Coat collar is either too high or falls away back. Shoulders wrinkle. Vest sags. That is enough—you know the kind.

YOU Can Be Dressed EITHER Way

What your Tailor?

You wouldn't wear a 7½ hat if 7 were your size, even if you could buy the former for considerably less would you?

THEN why wear clothes made for nobody in particular when we will tailor the the finest of clothes expressly for you---

To fit you alone
---$20 and up
Suit or overcoat

HEIDER & CO.

113 E. Wayne Street

You wouldn't steal Light from your family

When it costs no more in light bills, it is like stealing the light by which your wife sews and your children study not to give them the nearest approach to sunlight—

EDISON MAZDA LAMPS

Unless you put an EDISON MAZDA in every socket you are shutting off two-thirds of the light you could readily get because an EDISON MAZDA gives three times as much light as an old-style carbon lamp.

You should have them in every room. As there are many different sizes, we shall gladly help you select the ones to give you just the right radiance.

Oats—Receipts, 5 loads; 55@56c bu.

CHICAGO GRAIN AND PROVISIONS.

Chicago, March 12.—Rapidly diminishing supplies in mills and elevators had a bullish effect today on the price of wheat. There was lively buying as a result of the government reports showing the total stock to be about 20,000,000 bushels less than at the corresponding time a year ago. After opening ⅝c to 1⅛c higher, the market here made a decided further upturn before beginning to react.

The close was strong at 1⅛c to 2⅜c above last night.

Free purchasing by commission houses lifted corn. Rural offerings were light. The opening, which varied from the same as last night to ¼@½c higher, was followed by a moderate gain all around.

The close was firm at ⅝c to ¾@⅞c net advance.

Continued export call gave strength to oats. Estimates of the Argentine surplus were said to have been greatly reduced.

Provisions rose with hogs. Stockyard interests, however, seemed willing to unload on the bulge.

Range of Prices for the Day.

GUESS IF THEY ARE MARRIED!

HELLO TOM. AM I LATE?
NO, NOT VERY, PULL UP THAT CHAIR FOR A MINUTE
THERE WAS THE MOST IMPERTINENT CONDUCTOR ON THE CAR THAT I CAME DOWN ON. I WAS SO MAD
SOME FRESH GUY EH? WHAT DID HE DO?
HE KEPT LOOKING AT ME AS IF I HAD NOT PAID MY FARE
WHAT DID YOU DO?
I LOOKED RIGHT BACK AT HIM JUST AS THOUGH I HAD PAID IT
YOU WIN!

THE DAY ON WALL STREET.

New York, March 12.—Automobile shares were again conspicuous at the outset of today's trading, with further material gains, while speculative favorites were relatively neglected. The advance in the Motor issues and affiliated stocks ranged from 1⅛c to 4⅛ points and was due in large part to professional manipulation, outside interest being trifling. Among the leaders U. S. Steel and Amalgamated Copper gained one-half a point each, with strength in Lehigh Valley and "Soo." Of the more dormant specialties American Woolen preferred was prominent for its rise of 2½.

Motor shares continued to absorb the bulk of the light trading, dealings in those issues comprising about 20 per cent. of the early sessions for the entire output. Steel, Union Pacific, Reading and some others of the active group were in steady demand, this being reflected in their higher price levels. Among the more severe declines were losses of two to four and one-half points in United Railways of San Francisco common and preferred. Bonds were irregular and narrow.

Southern Railway preferred fell five points to 45 in the final dealings on passing of the dividend. Representative stocks were at lowest levels of the day. The closing was heavy.

THE WEATHER.

OFFICIAL FORECASTS.

For Fort Wayne and vicinity: Fair tonight and Saturday; not much change in temperature. Lowest tonight, about 27 degrees.

For Indiana and Ohio: Fair tonight and Saturday.

For Lower Michigan: Fair tonight and Saturday; slightly warmer Saturday in north portion.

WEATHER CONDITIONS.

Fair weather prevails this morning over nearly all sections of the country. Very little precipitation has occurred during the last twenty-four hours, and no well defined storm exists this morning over any section of the country.

Moderately cool weather continues over the central states, and freezing temperatures extend southward to Tennessee this morning. In the northwest warmer weather is general and no zero temperatures are reported from that section.

Fair weather will continue in this section tonight and Saturday, with but slight changes in temperature.

W. S. PALMER, Local Forecaster.

IN THE CHURCHES

PROGRAM FOR TOUR PARTY COMPLETED

W. C. Pearce and Marion Lawrence Will Speak at Noonday Lunch.

The local committee in charge of the program for the International Sunday School tour party has completed its arrangements and have outlined the work that will be done by the members of the party which will be in this city next Tuesday. The program begins with a noon day lunch at the First Baptist church at which time W. C. Pearce, the superintendent of the Adult division, will speak on "The Tread of a Mighty Army," followed by another address by Marian Lawrence on "Investment That Pays."

The afternoon and evening meetings will be held at the Wayne Street M. E. church and the program is:

2:30—Music—Dr. Geo. H. Lau, director.
2:45—Address, "The Challenge of American's Adult Bible Classes"—W. C. Pearce.
3:30—Round Table Conference—Marion Lawrence in charge.
4:30—Children's meeting at West Jefferson Street church. Stereopticon lecture by Bert Cashman on "The Sunday School Work of the World."
7:30—Music—Geo. H. Lau, director.
8:00—Short Addresses — Prominent Business Men.
8:30—Address — Marion Lawrence, "Greatest Character Factory in the World."

A banner will be awarded to the school having the largest percentage of attendance based upon the average attendance of 1914.

FORTY HOURS DEVOTION OPENS.

Rev. V. H. Krull Delivers Sermon at St. Mary's Catholic Church.

With solemn high mass at 8 o'clock Friday morning the forty hours devotion opened at St. Mary's Catholic church. Rev. Virgilius H. Krull, C. PP. S., a Precious Blood missionary, who has been engaged to conduct the services delivered the sermon. He will preach morning and evening during the devotion services, the solemn closing of which will take place Sunday evening.

Rt. Rev. Mgr. J. H. Oechtering was celebrant of the mass at 8 o'clock Friday morning and was assisted by Rev. John B. Steger, of the parish, and Rev. V. H. Krull. A large audience was present at the opening services.

* * *

Held Services for Old People.

A service for old people and "shut-ins" was the opening of the evangelistic meeting last night at the East Creighton Avenue Church of Christ. Messages were received from several "shut-ins" who were unable to be present. Mrs. Mary Lenfesty, 81 years, 2125 Gay street, was the oldest person present. Two were added to the membership of the church last night. A baptismal service will be held tonight. The Junior Christian Endeavor society will have "Every Member" night tonight, and reports will also be heard from the Endeavorers who were in attendance last night with the Associated Christian Workers upon the Pitzer-Upson revival at New Haven. "He Went Away Sorrowful" will be the subject of the pastor, Rev. E. H. Clifford, tonight at 7:45.

* * *

Rev. Beatty Wanted at Goshen.

The Trinity M. E. congregation of Elkhart met Thursday evening and by a unanimous vote adopted a resolution asking that the Northern Indiana M. E. conference when it meets in annual session at Auburn starting April 7 elect Rev. J. A. Beatty superintendent of the Goshen district, to succeed Rev. Somerville Light, who has served six years, the time limit. Rev. Beatty was formerly pastor of Trinity church and left there when he was appointed superintendent of the Fort Wayne district.

* * *

Three Cars Were Needed.

Over 225 members of the Associated Christian Workers went to New Haven Thursday evening to attend the Pitzer-Upson revival meetings and it was necessary to hire three interurban cars to accommodate all. The workers filled the church and many were compelled to stand. Rev. Pitzer spoke on "Repentance." Nine responded to the invitation, raising the total number of decisions to 62.

* * *

First Presbyterian Church.

Regular preparatory services will be held at 7:30 o'clock Friday evening at the First Presbyterian church. The pastor, Rev. H. B. Master, will speak on the topic "Loyalty to Christ." Every member who possibly can is urged to come as this will be the preparation for the communion service on the coming Sabbath.

* * *

League Entertains New Members.

The members of the Epworth League of the First M. E. church gave a get-acquainted party Thursday evening in the league rooms of the church for all the new members who have recently united with the church. An interesting program of music and recitations was rendered. Each person present wore a large identification card.

* * *

S. S. Officers Meet Saturday.

All township and county Sunday school officers are requested to attend a council meeting to be held at 10 o'clock Saturday morning at the Young Women's Christian association. Lunch will be served. Important business is to be brought up.

* * *

Church Notes.

The Junior League of the Trinity M. E. church will hold a penny supper Friday evening from 5 to 8 o'clock in the church basement.

The Young Peoples' alliance of the Crescent Avenue Evangelical church will meet for its regular business meting at the home of Gladys Lathouse, 1197 Crescent avenue, Friday evening.

Chocolate Peanut Chips, regular 40c Candy, Saturday 29c

MAY UTILIZE INVENTION.

U. S. Government Likely to Manufacture Rittman Chemicals.

Washington, March 11.—A company to be organized and operated under the supervision of the treasury for the benefit of the public may utilize commercially the new Rittman processes of manufacturing gasoline and two chemicals used in the making of ammunition and dye stuffs.

While the young inventor is turning over to the United States government the results of his researches in accordance with the rule that has been established, that employes shall not profit personally by the use of anything they invent while serving the government, Rittman is permitted to obtain patents abroad and to restrict the use of his invention to one company if he desires. He is now having the processes patented in various countries of Europe.

CARD OF THANKS.

We wish to thank friends and neighbors for their many deeds of kindness during the illness and death of our beloved wife and mother; also do we return thanks for the many floral offerings and to Rev. G. W. Dooge for his words of sympathy and consolation.
ANTHONY STEPHAN AND CHILD.

British life insurance companies have about 38,000,000 policies in force.

DECATUR NEWS.

Decatur, Ind., March 12.—The funeral of Walter Murray was held this afternoon at 2 o'clock from the Presbyterian church. The barbers attended in a body.

John Spuhler was at Monroeville yesterday, where he cried a sale.

Dr. Elizabeth Burns has returned from Findlay, O., where she attended the wedding of Vinnie Cutting Lyons and Curtis B. LaRowe.

Samuel Yost, who has returned from a several months' stay in Albuquerque, N. M., is bedfast, his condition having become worse after going to New Mexico. He returned home two weeks ago and prior to returning here had been bedfast five weeks.

Mr. and Mrs. Jacob Roth and daughter Goldie went to Fort Wayne.

J. W. Edwards went to Berne on business.

Ode Fullenkamp and Mrs. Fred Fullenkamp went to Fort Wayne, where the former attended to business.

Miss Karney, a trained nurse from Fort Wayne, arrived to take care of Mary Jane, eight-months-old daughter of Mr. and Mrs. Todd Linn.

Mr. and Mrs. G. C. Steele, of Huntington, were here and closed a deal for the sale of their residence on Fifth street to Dr. and Mrs. C. R. Weaver.

James Okeley and family have moved to Willshire, O.

The Ernst Schlickman family has moved into the Amos Yoder residence on Monroe street.

Mrs. Henry Hoppell, of Willshire, O., and Mrs. Mary Davis, of Salem, are guests of Mrs. F. C. Summers.

Samuel Shepherd returned to Fort Jennings, O., after a visit with his sister, Mrs. F. C. Summers.

Mrs. Jane Ball, of Magley, went to Fort Wayne to visit with a sister, Mrs. Barbara Heckler, who is ill.

Mrs. Adam Deam and daughters, Mrs. Bertha Hakey and Miss Mabel Deam, went to Fort Wayne for a visit.

Mesdames B. W. Sholty, Will Butler and E. A. Mann were Fort Wayne visitors.

Mrs. Ed Johnson and children, Lucile and Lester, visited with friends in Monmouth.

Miss Naomi Christen, daughter of County School Superintendent E. S. Christen, is ill of the grip.

Mrs. H. F. Dauer left for Fort Wayne, where she was called by the illness of her daughter, Mrs. L. F. Merrillat, who has been ill of rheumatism, which is affecting her heart.

Mrs. Shafer Peterson visited in Monmouth.

Miss Jean Lutz went to Fort Wayne.

Friends here have received word of the death of Benjamin Ogden, an aged man living on the Decatur-Fort Wayne interurban, and well known here.

The first of a series of Thursday noon luncheons was given by the ladies of the churches at the Knights of Pythias home. Mrs. J. W. McCombe, of the Honeywell evangelistic party, was in charge and gave an address after the luncheon. Fine music was also rendered by Mrs. E. D. Engeler and Miss Marie Patterson.

NOTICE!

If your are moving phone 173, The Sentinel, so you will not miss an issue. 4-9-tf

STOP

Before you order that next sack of scratch feed, consider the quality of Bash's standard scratch feed. It will add pounds to your birds' weight and eggs to the egg basket.

Bash's feed is the highest quality feed made.

Don't forget we only charge $1.65 per cwt. for our pure chop feed. The best in town.

Have you ordered that big bale of Clover Chaff for the scratching pen? Better than straw.

Telephone your orders, 63 or 2420.

We will deliver to your door.

S. BASH & CO.

MISTAKE MAY CAUSE DEATH.

Woman Swallows Bichloride Instead of Laxative Tablets.

Lafayette, Ind., March 12.—Mrs Thomas Coulter was taken to St. Elizabeth hospital today, suffering from bichloride of mercury poisoning. It is believed her condition is hopeless. One of Mrs. Coulter's children had been suffering with an injured hand, and some bichloride of mercury tablets had been bought for use in an antiseptic wash.

Early today the mother, who was still in bed, sent one of the children down stairs for some laxative tablets, which were kept in the same cupboard with the mercury tablets. The child mistook the poison for the laxative, and Mrs. Coulter swallowed two of them. Soon after, a doctor was summoned and the contents of her stomach were removed by means of a pump.
